INFOSYS SE ASSESSMENT 2026 • OFFICIAL PREPARATION VAULT

⏱️ Section-Wise Time Management, Strategic Pacing & Cut-off Thresholds

Section: 00_Roadmap_Exam_Pattern_and_Strategy | **Drive Date:** 5th & 6th November 2026 | **Status:** 100% Solved & Verified

⏱️ Section-Wise Time Management, Strategic Pacing & Cut-off Thresholds

> **Core Rule:** Sectional cut-offs are independent and mandatory. If you fail any single section, your entire assessment is disqualified regardless of overall score.

1. Official Cut-Off Benchmarks (Historical & Current Trends)

Infosys does not publicly publish cut-off scores, but multi-year recruitment tracking establishes the following baseline thresholds:

Section #	Section Name	Questions	Time Allocated	Minimum Recommended Correct Qs	Minimum Cut-Off %
Section 1	Reasoning Ability	15	25 Mins	**10–11 Questions**	**65%–70%**
Section 2	Technical Ability (Quant)	10	35 Mins	**7–8 Questions**	**70%**
Section 3	Verbal Ability	20	20 Mins	**14–15 Questions**	**70%**
Section 4	Pseudo Code	5	10 Mins	**3–4 Questions**	**60%–70%**
Section 5	Puzzle Solving	4	10 Mins	**2–3 Questions**	**50%–60%**
Section 6	English Grammar	5	10 Mins	**4 Questions**	**75%–80%**
Section 7	Written Ability Test (WAT)	1 Essay	15 Mins	**Score >= 7.5 / 10**	**75%**
OVERALL	**Infosys SE Full Exam**	**60 Qs + 1 Essay**	**125 Mins**	**45+ Questions + Solid Essay**	**~72% Aggregate**

2. Minute-by-Minute Time Management Playbook

Section 1: Reasoning Ability (15 Questions in 25 Minutes)

- **Minutes 00:00 – 10:00 (The Quick Strike - 7 Qs):** Attack standalone items first: Direction sense, Coding-Decoding, Blood Relations, and simple Syllogisms. Spend no more than 60–80 seconds per question.
- **Minutes 10:00 – 20:00 (The Deep Deduction - 6 Qs):** Tackle Data Sufficiency and linear/circular seating arrangements. Draw neat scratch diagrams.
- **Minutes 20:00 – 25:00 (Buffer & Review - 2 Qs):** Attempt remaining marked questions and ensure zero unattempted items (no negative marking).

Section 2: Technical Ability / Quantitative Aptitude (10 Questions in 35 Minutes)

- **Allocation:** Generous **3.5 minutes (210 seconds) per question**.
- **Strategy:**
  1. *First Pass (0–15 Mins):* Solve 5 direct arithmetic problems (Percentages, Profit & Loss, Ratio, Time & Work).
  2. *Second Pass (15–30 Mins):* Solve Data Interpretation sets and combinatorics/probability questions.
  3. *Final 5 Mins:* Cross-check arithmetic steps and verify unit conversions (e.g. km/h to m/s).

Section 3: Verbal Ability (20 Questions in 20 Minutes)

- **Allocation:** Strict **60 seconds per question**.
- **Strategy:**
- *Minutes 0–8:* Solve Spotting Errors, Sentence Completion, Para Jumbles, and Vocabulary (10–12 questions).
- *Minutes 8–18:* Read the 2 Reading Comprehension passages and answer the questions. Read questions first to anchor target facts in the passage.
- *Minutes 18–20:* Ensure all options are selected.

Section 4: Pseudo Code (5 Questions in 10 Minutes)

- **Allocation: 2.0 minutes per question**.
- **Golden Rule:** Never guess variable states mentally. Maintain a structured **Dry-Run Trace Table** on scratch paper tracking iteration indices, conditional branches, and bitwise updates.

Section 5: Puzzle Solving (4 Questions in 10 Minutes)

- **Allocation: 2.5 minutes per puzzle**.
- **Strategy:**
- Scan all 4 puzzles in the first 30 seconds.
- Prioritize standard 3×3 grid puzzles where row/column patterns are recognizable.
- If a puzzle involves non-linear algebraic exponents, test extreme values (0, 1, 2) or examine parity (odd/even properties).

Section 6: English Grammar (5 Questions in 10 Minutes)

- **Allocation: 2.0 minutes per question**.

- **Strategy:** High precision required. Check:
  1. What is the true grammatical subject? (Ignore prepositional phrases like *as well as, along with*).
  2. Is the conditional clause inverted?
  3. Is the preposition idiomatically fixed to the preceding verb?

Section 7: Written Ability Test (1 Prompt in 15 Minutes)

- **Minutes 0–2:** Brainstorm 3 distinct arguments and thesis statement.
- **Minutes 2–11:** Type a cohesive 4-paragraph essay:
- Paragraph 1: Introduction & thesis definition (40–50 words).
- Paragraph 2: Core supporting arguments with real-world technical/societal examples (80–100 words).
- Paragraph 3: Counter-perspective or challenge & practical remediation (70–80 words).
- Paragraph 4: Strong concluding summary (40–50 words).
- **Minutes 11–15:** Proofread for typographical mistakes, subject-verb agreement, and sentence flow.
