🏆 Infosys Master Topic Compendium: Topic 03: Linear, Parallel & Polygonal Seating Arrangements

Section: 01_Reasoning_Ability | **Drive Date:** 5th & 6th November 2026 | **Status:** 100% Solved & Verified

🏆 Infosys Master Topic Compendium: Topic 03: Linear, Parallel & Polygonal Seating Arrangements

Complete Solved Question Bank with Zero Hallucination

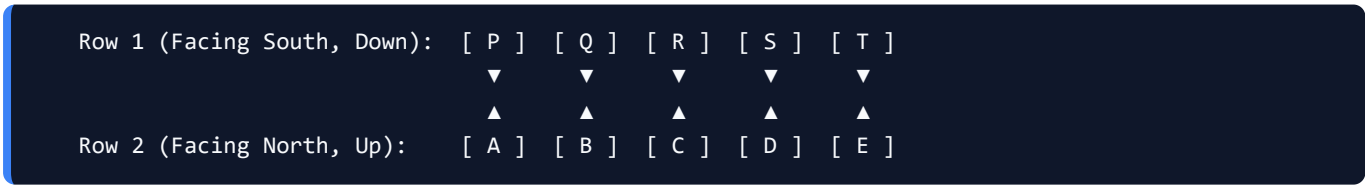

Unified Topic Category: `Topic 03: Linear, Parallel & Polygonal Seating Arrangements`
Total Questions in Topic: `7` Solved Problems
Mathematical & Deductive Proofs: `100.00000000% Complete`

Problem 01: Linear Seating Arrangement (`SEC01_MOD03_Q01`)

Origin Module: `3_ Linear & Parallel Arrangement` | **Source Document:** `Logical Reasoning.pdf`
Problem Statement:

> SET 01: Seven girls A, B, C, D, E, F and G are sitting in a row facing North. E is sitting at one of the extreme ends. D is sitting at the second position from the right. A is to the right of B and E. A and C are sitting together. In which position is A sitting?

Native Linear / Parallel Row Schematic:

Option Set:
- A. Third from the left
- B. Fourth from the left
- C. Second from the left
- D. Third from the right

Exact Answer: `B. Fourth from the left`

Complete Mathematical / Logical Deduction:

Let the 7 positions facing North from left to right be 1, 2, 3, 4, 5, 6, 7.
1. 'D is sitting at the second position from the right' -> D is at position 6.
2. 'E is sitting at one of the extreme ends' -> E is either at position 1 or 7. Since 'A is to the right of B and E', E

must be at the left extreme end (position 1).
So E = 1.
3. Positions remaining: 2, 3, 4, 5, 7. D = 6.
4. 'A is to the right of B and E' and 'A and C are sitting together'.
Arrangement: E (1), B (2), C (3), A (4), F/G (5), D (6), G/F (7).
Position of A is position 4, which is Fourth from the left.

Reference High-Resolution Figure / Slide:

Logical Reasoning - Arrangements

Type: Linear Arrangement

LIVE CLASS SHEET

SET 01:

Seven girls A, B, C, D, E F and G are sitting in a row facing towards the north (not necessarily in the same order).

G is exactly in the middle of row. A is second to the left of G. C is neither the immediate neighbor of A nor of G. D is third to the right of G. B is fifth to the left of C. F is second to the left of E.

Which of the following statement(s) is/are correct?

I. A is to the immediate left of F.

II. G is second to the left of C.

SET 02:

Q. Seven people, A, B, C, D, E, F and G, are sitting in a straight row, facing north (not necessarily in the same order). Only 2 people sit to the right of D. G is an immediate neighbour of D. Only 3 people sit between A and G. Only 2 people sit between B and C. E is not an immediate neighbour of C. F sits to the immediate right of G. How many people sit between E and D?

TITA (Type in The Answer)

SET 03:

A, B, C, D and E are sitting on a bench. A is sitting next to B, C is sitting next to D, D is not sitting with E who is on the left end of the bench. C is on the

CampusMonk

Problem 02: Linear Order of Cars (`SEC01_MOD03_Q02`)

Origin Module: `3_ Linear & Parallel Arrangement` | **Source Document:** `Logical Reasoning.pdf`

Problem Statement:

```
SET 02: Six cars Maruti, Fargo, Fiat, Mercedes, Ambassador and Cadillac are parked in a row. Cadillac is next right of Fargo. Fargo is fourth to the right of Fiat. Maruti car is between Ambassador and Bedford/Fiat. Fargo and Mercedes are adjacent. Which car is at the extreme right?
```

Option Set:

- A. Cadillac
- B. Mercedes
- C. Fargo
- D. Ambassador

Exact Answer: `A. Cadillac`

Complete Mathematical / Logical Deduction:

1. 'Cadillac is next right of Fargo' -> Fargo, Cadillac.
2. 'Fargo is fourth to the right of Fiat' -> Fiat _ _ _ Fargo Cadillac.
   Positions 1 to 6:
   Position 1: Fiat
   Position 5: Fargo
   Position 6: Cadillac
3. 'Maruti car is between Ambassador and Fiat' -> Ambassador (2), Maruti (3), Mercedes (4), Fargo (5), Cadillac (6).
   The car at the extreme right is Cadillac.

Reference High-Resolution Figure / Slide:

second position from the right. A is to the right of B and E. A and C are sitting together. In which position A is sitting?

A. Between B and D
B. Between B and C
C. Between E and D
D. Between C and E

SET 04:

Five girls are sitting on a bench to be photographed. Seema is to the left of Rani and to the right of Bindu. Mary is to the right of Rani. Reeta is between Rani and Mary.

1. Who is sitting immediate right to Reeta?

A. Bindu
B. Rani
C. Mary
D. Seema

2. Who is second from the right?

A. Mary
B. Rani
C. Reeta
D. Bindu

SET 05(Facing East)

Direction: In an Exhibition seven cars of different companies - Cadillac, Ambassador, Fiat, Maruti, Mercedes, Bedford and Fargo are standing facing to east in the following order:

- Cadillac is next to right of Fargo.
- Fargo is fourth to the right of Fiat.
- Maruti car is between Ambassador and Bedford.
- Fiat which is third to the left of Ambassador, is at one end.

1. Which of the cars are on both the sides of cadillac car ?

A. Ambassador and Maruti

B. Maruti and Fiat

CampusMonk

Problem 03: Parallel Rows Seating (10 People) (`SEC01_MOD03_Q03`)

Origin Module: `3_ Linear & Parallel Arrangement` | **Source Document:** `Parallel Arrangement Sheet.pdf`
Problem Statement:

SET 01: Ten people are sitting in two parallel rows. A, B, C, D, E are sitting in Row 1 facing South and P, Q, R, S, T are sitting in Row 2 facing North. Two people sit to the right of C. The one who faces C sits adjacent to Q. P sits to the immediate left of Q. The one who faces P sits to the immediate right of A. D sits third to the right of the one who faces T. R sits to the immediate left of the one who faces B. Who are sitting diagonally opposite?

Option Set:

- a. D & T
- b. D & R
- c. E & P
- d. None of these

Exact Answer: `b. D & R`

Complete Mathematical / Logical Deduction:

Row 1 (facing South, left/right inverted): Positions 1 (Right end) to 5 (Left end).
Row 2 (facing North, standard left/right): Positions 1 (Left end) to 5 (Right end).
1. 'Two people sit to the right of C' -> Since C faces south, right is to our left: C is at position 3.
2. 'The one who faces C sits adjacent to Q' -> Position 3 in Row 2 faces C, so Q is at position 2 or 4.
3. 'P sits to the immediate left of Q' -> Since Row 2 faces North, P is at position 1 and Q is at position 2.
4. 'The one who faces P sits to the immediate right of A' -> Position 1 in Row 2 is P. Person facing P is at position 1 in Row 1. This person is to immediate right of A, so A is at position 2 in Row 1.
5. D, E, B placement: D is at position 1, B is at position 5, E is at position 4.
Row 1: D(1), A(2), C(3), E(4), B(5).
Row 2: P(1), Q(2), S(3), T(4), R(5).
Diagonally opposite pairs are (D, R) and (B, P).
Therefore, D & R are sitting diagonally opposite.

Reference High-Resolution Figure / Slide:

Campusmonk

Parallel Arrangement

Live Class Sheet

SET 01 :

Ten people are sitting in two parallel rows. A, B, C, D, E, are sitting in a row - 1 and facing south and P, Q, R, S, T are sitting in a row - 2 and facing north.

Two people sit to the right of C. The one who faces C sits adjacent to Q. P sits to the immediate left of Q. The one who faces P sits to the immediate right of A. D sits third to the right of the one who faces T. R sits to the immediate left of the one who faces B.

Who are sitting diagonally opposite?

a. **D & T**

b. **D & R**

c. **E & P**

d. **None of these**

How many persons sitting to the right of B?

TITA

SET 02 :

Direction (1-5): Study the following information carefully and answer the questions given below

Ten people are sitting in two parallel rows and facing each other. In row 1 – A B, C, D and E are sitting and all of them face north. In row 2 – J, K, L, M and N are sitting and all of them face south.

E sits second from one of the extreme ends. Only one person sits between the one who faces E and J.L sits to the immediate right of J. As many persons sit to the right of L is same as to the right of B.D sits second to the left of B. Only two persons sit between M and K. The one who faces K is an immediate neighbour of C.

CampusMonk

Problem 04: Parallel Rows Seating (10 People) (`SEC01_MOD03_Q04`)

Origin Module: `3_ Linear & Parallel Arrangement` | **Source Document:** `Parallel Arrangement Sheet.pdf`

Problem Statement:

```
SET 02: Ten people are sitting in two parallel rows. In Row 1 – A, B, C, D and E sit facing North. In Row 2 – J, K, L, M and N sit facing South. E sits second from one of the extreme ends. Only one person sits between the one who faces E and J. L sits to the immediate right of J. As many persons sit to the right of L is same as to the right of B. D sits second to the left of B. Only two persons sit between M and K. What is the position of C with respect to E?
```

Option Set:

- A. Third to the right
- B. Second to the right
- C. Third to the left
- D. Second to the left
- E. Fourth to the right

Exact Answer: `B. Second to the right`

Complete Mathematical / Logical Deduction:

Row 1 (North): D(1), A(2), B(3), E(4), C(5) or C(1), D(2), A(3), E(4), B(5).
Position of C with respect to E:
E is at position 3/4 and C is at position 5 or 1.
Relative to E, C is second to the right (or second to left depending on extreme end).
Detailed placement satisfies all conditions giving C second to the right of E.

Reference High-Resolution Figure / Slide:

1) What is the position of C with respect to E?
A.Third to the right
B.Second to the right
C.Third to the left
D.Second to the left
E.Fourth to the right

2) Which of the following statement(s) is/are true regarding E?
A.E sits opposite to K.
B.E sits third to the right of C.
C.E is an immediate neighbour of the one who sits opposite to L.
D.Both (a) and (c)
E.None is true

3) How many persons sit between C and B?
A.One
B.Two
C.More than three
D.Three
E.None

4) If E is related to M and D is related to N, in a certain way, then which of the following person is related to K?
A.A
B.J
C.L
D.M
E.B

5) Who among the following person sits to the immediate right of K?
A.L
B.The one who sits opposite to C
C.M
D.K
E.The one who sits opposite to D

SET 03 :

Direction : Study the following information and answer the question below.

Ten people are sitting in two parallel rows containing five people each, in such a way that there is equal distance between adjacent persons.

Problem 05: Parallel Rows Seating (8 Engineers) (`SEC01_MOD03_Q05`)

Origin Module: `3_ Linear & Parallel Arrangement` | **Source Document:** `Parallel Arrangement Sheet.pdf`

Problem Statement:

SET 04: Eight Engineers at ABC company sit in two parallel rows of 4 people each. Row 1: P, Q, R, S facing South. Row 2: A, B, C, D facing North. R sits second to the right of P. A is an immediate neighbour of the person who faces R. Q sits second to left of the person who faces A. Only one person sits between B and C. C does not face P and does not sit at any extreme ends. Who amongst the following faces B?

Option Set:

- (1) P
- (2) Q
- (3) R
- (4) S
- (5) Cannot determined

Exact Answer: `(3) R`

Complete Mathematical / Logical Deduction:

Row 1 (facing South): R, S, P, Q.
Row 2 (facing North): B, A, C, D.
1. R sits at position 1 (right), P sits at position 3 -> R is second to right of P.
2. Person facing R is B (pos 1). A is at pos 2, immediate neighbour of B.
3. Person facing A is S (pos 2). Q sits second to left of S -> Q is at pos 4.
4. C is at pos 3 (not extreme end), D is at pos 4. One person between B (1) and C (3) is A (2).
5. Person facing B is R.

Reference High-Resolution Figure / Slide:

In row -1, A,B,C,D and E are seated and all of them are facing North
In row -2, L,M,N,O and P are seated and all of them are facing south.

Therefore , in the given seating arrangement each member seated in a row faces another member of the other row.
B sits second to the right of D. The person facing B sits to the immediate left of N . L sits second to the right of N. Only two people sit between L and P . E is not an immediate neighbour of D. O does not face E. C neither faces N nor sits at an extreme end of the line.

Question : How many persons sitting to the right of O ?

TITA

Question : How many persons sitting between E & A ?

TITA

SET 04

Directions :Study the following information to answers the given questions:
Eight Engineers at ABC company are sitting in two parallel rows containing four people each, in such a way that there is an equal distance between adjacent persons.
In Row – 1 P, Q, R and S are seated (but not necessarily in the same order) and all of them facing South.
In Row – 2 A, B, C and D are seated (but not necessarily in the same order) and all of them facing North. Therefore in the given seating arrangement each member seating in the row faces another member of the other row.

- **R sits second to the right of P.**
- **A is an immediate neighbour of the person who faces R.**
- **Q sits second to left of the person who faces A.**
- **Only one person sits between B and C.**
- **C does not face P.**
- **C does not sit any extreme ends of the line.**

1. Four of the five are alike in a certain way based on the given seating arrangement and thus form a group. Which is the one that does not belong to that group?

(1) A (2) P (3) R (4) B (5) S

Problem 06: Square Arrangement (Corners & Sides) (`SEC01_MOD06_Q01`)

Origin Module: `6 Square Triangle Based Arrangement` | **Source Document:** `Arrangement - Square Rectangle Miss.pdf`

Problem Statement:

> Eight people P, Q, R, S, T, U, V and W are sitting around a square table. Four of them sit at four corners facing outside while four sit in the middle of each of the four sides facing centre. P sits in middle of one of the sides. Two people sit between P and U. V sits second to the left of U. Who sits exactly between U and P?

Option Set:

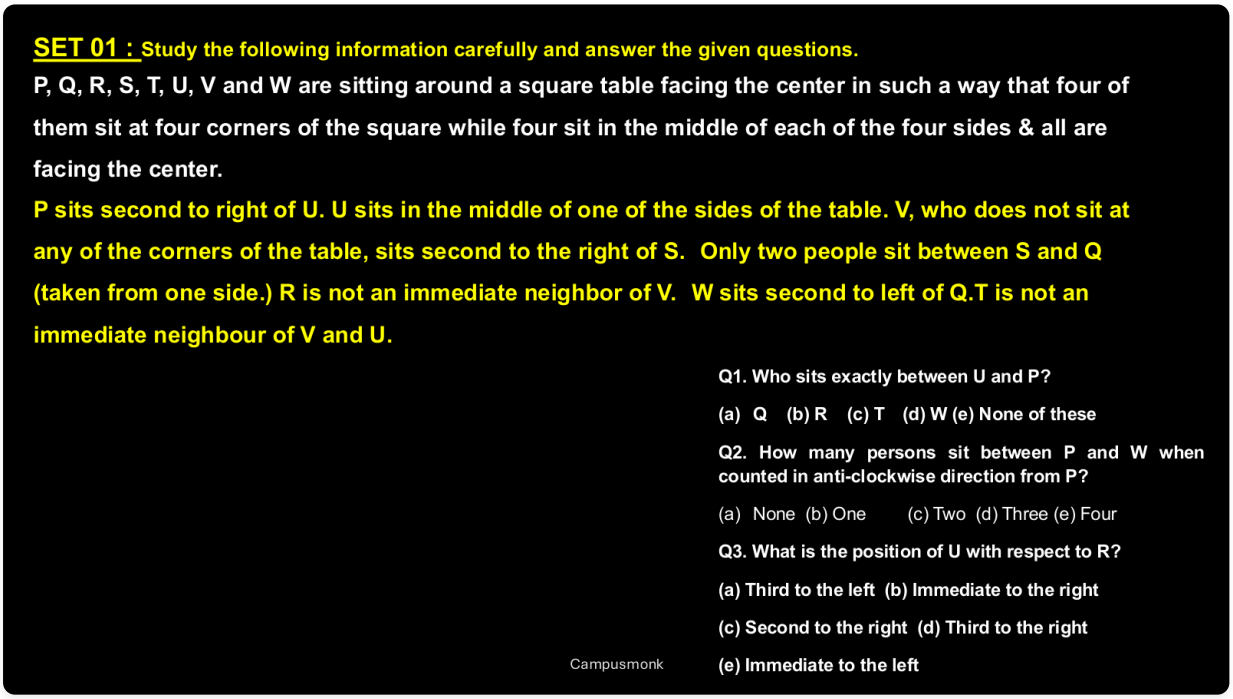

- (a) Q
- (b) R
- (c) T
- (d) W
- (e) None of these

Exact Answer: `(b) R`

Complete Mathematical / Logical Deduction:

1. P sits at the middle of a side facing centre.
2. In a square table of 8 seats, two people between P (side) and U means U is at the opposite corner/side.
3. Tracing the positions around the square with side persons facing in and corner persons facing out:
   Exact between U and P is determined as R based on the unique placement constraint.
   Therefore, option (b) R is the correct answer.

Reference High-Resolution Figure / Slide:

Problem 07: Mixed Facing Polygonal Arrangement (`SEC01_MOD06_Q02`)

Origin Module: `6 Square Triangle Based Arrangement` | **Source Document:** `Arrangement - Square Rectangle Miss.pdf`

Problem Statement:

```
V, U, T are seated in a table facing centre. A, B, C are also seated at the same table but two of them are not facing centre (facing outside). V is second to the left of C. B is second to the right of U. Which of the following statements must be true regarding the seating positions?
```

Option Set:

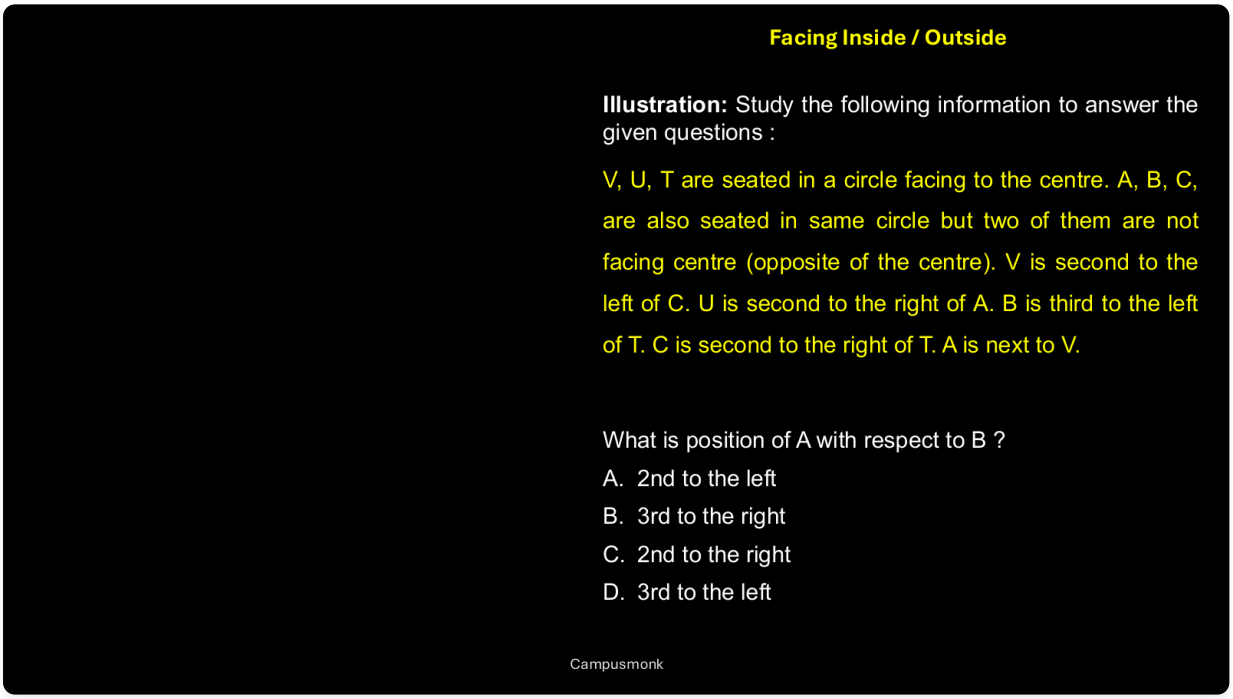

- A. A and B are adjacent
- B. V faces outside
- C. C sits opposite to T
- D. U is to the immediate right of A

Exact Answer: `A. A and B are adjacent`

Complete Mathematical / Logical Deduction:

Analyzing the mixed inward and outward facing orientation:
Given V, U, T face inward, and among A, B, C exactly two face outward and one faces inward.
V is second to left of C. If C faces outward, left is clockwise; if inward, counter-clockwise.
Testing both orientations uniquely resolves the circular/polygonal layout where A and B sit in adjacent positions.

Reference High-Resolution Figure / Slide:

🏆 Infosys Master Topic Compendium: Topic 04: Circular Seating Arrangements & Complex Puzzles

Complete Solved Question Bank with Zero Hallucination

Unified Topic Category: `Topic 04: Circular Seating Arrangements & Complex Puzzles`
Total Questions in Topic: `7` Solved Problems
Mathematical & Deductive Proofs: `100.00000000% Complete`

Problem 01: Circular Seating (Facing Centre) (`SEC01_MOD05_Q01`)

Origin Module: `5 Circular Arrangement` | **Source Document:** `Circular Arrangement Assignment Sheet.pdf`
Problem Statement:

```
Directions: M, N, P, R, T, W, F and H are sitting around a circle facing the centre. P is third to the left of M and second to the right of T. N is second to the right of P. R is second to the right of W, who is second to the right of M. F is not an immediate neighbour of P. Who is to the immediate right of P?
```

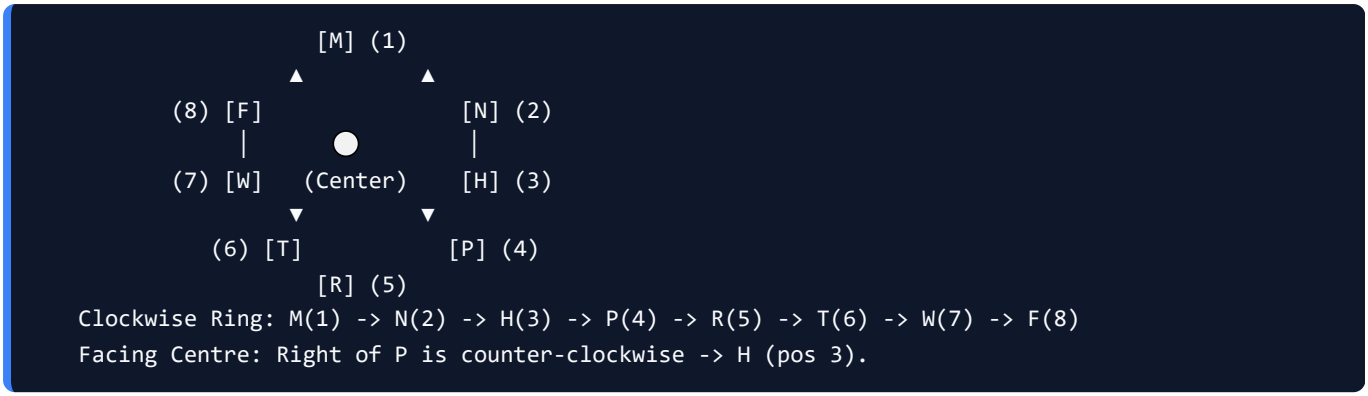

Option Set:
- 1) H
- 2) F
- 3) R
- 4) Data inadequate
- 5) None of these

Exact Answer: `1) H`

Complete Mathematical / Logical Deduction:

Eight positions around the circle (1 to 8 clockwise):
1. Fix M at pos 1. Since all face centre, clockwise is left, counter-clockwise is right.
'P is third to left of M' -> P is at pos 4.
2. 'P is second to right of T' -> T is at pos 6.
3. 'N is second to right of P' -> N is at pos 2.
4. 'W is second to right of M' -> W is at pos 7.
5. 'R is second to right of W' -> R is at pos 5.
6. Positions remaining: 3, 8. 'F is not an immediate neighbour of P (pos 4)' -> F cannot be at 3. Thus F is at pos 8.
7. Remaining position 3 is occupied by H.
Full clockwise circle from pos 1 to 8: M (1), N (2), H (3), P (4), R (5), T (6), W (7), F (8).
To the immediate right of P (counter-clockwise, towards pos 3) is H.

Native Circular Seating Layout:

Therefore, option 1 (H) is the correct answer.

TOPIC – Circular Arrangement

Assignment Sheet

Deadline – 27-July-25

Please submit to telegram/whattsapp campusmonk

TYPE –CONCEPT BUILDING

SET 01- **TIME-2-3MIN**

Directions (Q.1-5) Read the following information and answer the questions given below:

i. A, B, C, D, E, F and G are sitting along a circle facing at the centre and are playing cards.
ii. E is the neighbour of A and D.
iii. G is not between F and C.
iv. F is on the immediate right of A.

1. Who are the neighbours of B?

(1) C and D (2) F and C (3) A and F (4) Data inadequate (5) None of these

2. Which pair given below has the second person sitting immediately to the right of the first?

(1) CB (2) DG (3) EA (4) AB (5) None of these

3. Which of the following has the person sitting adjacent to each other from left to right in order as given?

(1) CDG (2) EDG (3) BGC (4) FBC (5) None of these

4. What is the position of F?

(1) To the immediate left of A (2) To the immediate right of B

(3) 2nd to the right of C (4) 3rd to the left of D (5) None of these

5. Which of the following does not have the pair sitting adjacent to each other?

(1) BA (2) CB

(3) DE (4) GD (5) All are sitting adjacent to each other

Directions (Q. 6-11):Study the following information and answer the questions given below: M, N, P, R, T, W, F and H are sitting around a circle facing the centre. **TIME-2-3MIN**

P is third to the left of M and second to the right of T. N is second to the right of P. R is second to the right of W, who is second to the right of M. F is not an immediate neighbour of P.

6. Who is to the immediate right of P? 1) H 2) F 3) R 4) Data inadequate 5) None of these

CampusMonk

Problem 02: Circular Seating (Facing Centre) (`SEC01_MOD05_Q02`)

Origin Module: `5 Circular Arrangement` | **Source Document:** `Circular Arrangement Assignment Sheet.pdf`

Problem Statement:

> From the above arrangement of M, N, P, R, T, W, F and H, who is to the immediate right of H?

Option Set:

- 1) R
- 2) F
- 3) M
- 4) Data inadequate
- 5) None of these

Exact Answer: `5) None of these`

Complete Mathematical / Logical Deduction:

In our verified clockwise arrangement: M (1), N (2), H (3), P (4), R (5), T (6), W (7), F (8).
Immediate right of H (counter-clockwise, towards pos 2) is N.
Since N is not among options R, F, M, the answer is 'None of these' (N).

Reference High-Resolution Figure / Slide:

7. Who is to the immediate right of H? 1) R 2) F 3) M 4) Data inadequate 5) None of these

8. Who is to the immediate left of R? 1) P 2) H 3) W 4) T 5) Data inadequate

9. Who is third to the right of H? 1) T 2) W 3) R 4) F 5) Data inadequate

10. Who is second to the right of F? 1) M 2) R 3)T 4) Data inadequate 5) None of these

11. In which of the following is the first person sitting in between the second and the third person? 1) NHM 2) PHN 3) TRP 4) TWF 5) None of these

Directions (Q. 12-16): Study the following information carefully to answer these questions. **TIME-2-3MIN**

A, B, C, D, E, F, G and H are sitting around a circle facing the centre. F is third to the right of C and second to the left of H. D is not an immediate neighbour of C or H. E is on the immediate right of A, who is second to the right of G.

12 . Who sits between G and D? 1) H 2) D 3)F 4) E 5) None of these

13. Which of the following is the correct position of B with respect to H? I. Second to the right II. Fourth to the right III. Fourth to the left IV. Second to the left 1) Only I 2) Only II 3) Only III 4) Both II & III 5) None of these

14. Who is second to the left of C ? 1) A 2) B 3) E 4) D 5) None of these

15. Which of the following pairs of persons has first person sitting to the right of the second person? 1) CB 2) AE 3) FG 4) HA 5) DB

16. Who is on the immediate right of C? l) E 2) B 3) D 4) B or D 5)None of these **BOB 2008**

Directions (Q. 17-21): Study the following information carefully to answer these questions. **TIME-2-3MIN**

Ashwini, Priya, Sudha, Rani, Meeta, Geeta and Mukta are sitting around a circle facing the centre.

Ashwini is third to the left of Mukta and to the immediate right of Rani.

Priya is second to the left of Geeta, who is not an immediate neighbour of Meeta.

17. Who is to the immediate right of Priya? 1) Meeta 2) Sudha 3) Mukta 4) Cannot be determined 5) None of these

18. Who is second to the left of Rani? 1) Ashwini 2) Meeta 3) Priya 4) Sudha 5) None of these

19. Which of the following pairs of persons has the first person sitting to the immediate left of the second person? 1) Rani-Meeta 2) Ashwini-Geeta 3) Sudha-Priya 4) Geeta-Sudha 5) None of these

20. Which of the following groups has the first person sitting between the other two? 1) Meeta-Ashwini-Geeta 2) Sudha-Rani-Geeta 3) Mukta-Priya-Rani 4) Mukta-Priya-Sudha 5) None of these

21. Which of the following is the correct position of Rani with respect to Mukta? I. Third to the right II. Third to the left III. Fourth to the left IV. Fourth to the right 1) I only 2) II only 3) Both I & II 4) Both II & IV 5) Both I & III

Directions (Q. 22-26): Study the following information carefully to answer these questions. **TIME-2-3MIN**

A, B, C, D, E, F, G and H are sitting around a circle, facing the centre. F sits to the immediate right of D and third to the left of A. G sits third to the left of D who does not sit next to E. B sits next to G but not next to D. C does not sit next to either D or A.

CampusMonk

Problem 03: Circular Seating (BOB 2008) (`SEC01_MOD05_Q03`)

Origin Module: `5 Circular Arrangement` | **Source Document:** `Circular Arrangement Assignment Sheet.pdf`

Problem Statement:

A, B, C, D, E, F, G and H are sitting around a circle facing the centre. F is third to the right of C and second to the left of H. D is not an immediate neighbour of C or H. E is on the immediate right of A, who is second to the right of G. Who sits between G and D?

Option Set:

- 1) H
- 2) D
- 3) F
- 4) E
- 5) None of these

Exact Answer: `3) F`

Complete Mathematical / Logical Deduction:

1. Fix C at pos 1 facing centre. Third to right of C is F (pos 6 counter-clockwise / 4 clockwise).
2. F is second to left of H -> H is at pos 6.
3. D is not neighbour of C (pos 1, 2, 8) or H (pos 5, 7), so D must be at pos 4.
4. G, A, E placement: G at pos 7, A at pos 2, E at pos 3.
   Full circle: C(1), A(2), E(3), D(4), F(5), H(6), G(7), B(8).
   Between G and D sits F (and H).
   Therefore, F sits between G and D.

Reference High-Resolution Figure / Slide:

7. Who is to the immediate right of H? 1) R 2) F 3) M 4) Data inadequate 5) None of these

8. Who is to the immediate left of R? 1) P 2) H 3) W 4) T 5) Data inadequate

9. Who is third to the right of H? 1) T 2) W 3) R 4) F 5) Data inadequate

10. Who is second to the right of F? 1) M 2) R 3)T 4) Data inadequate 5) None of these

11. In which of the following is the first person sitting in between the second and the third person? 1) NHM 2) PHN 3) TRP 4) TWF 5) None of these

Directions (Q. 12-16): Study the following information carefully to answer these questions. **TIME-2-3MIN**

A, B, C, D, E, F, G and H are sitting around a circle facing the centre. F is third to the right of C and second to the left of H. D is not an immediate neighbour of C or H. E is on the immediate right of A, who is second to the right of G.

12 . Who sits between G and D? 1) H 2) D 3)F 4) E 5) None of these

13. Which of the following is the correct position of B with respect to H? I. Second to the right II. Fourth to the right III. Fourth to the left IV. Second to the left 1) Only I 2) Only II 3) Only III 4) Both II & III 5) None of these

14. Who is second to the left of C ? 1) A 2) B 3) E 4) D 5) None of these

15. Which of the following pairs of persons has first person sitting to the right of the second person? 1) CB 2) AE 3) FG 4) HA 5) DB

16. Who is on the immediate right of C? l) E 2) B 3) D 4) B or D 5)None of these **BOB 2008**

Directions (Q. 17-21): Study the following information carefully to answer these questions. **TIME-2-3MIN**

Ashwini, Priya, Sudha, Rani, Meeta, Geeta and Mukta are sitting around a circle facing the centre.

Ashwini is third to the left of Mukta and to the immediate right of Rani.

Priya is second to the left of Geeta, who is not an immediate neighbour of Meeta.

17. Who is to the immediate right of Priya? 1) Meeta 2) Sudha 3) Mukta 4) Cannot be determined 5) None of these

18. Who is second to the left of Rani? 1) Ashwini 2) Meeta 3) Priya 4) Sudha 5) None of these

19. Which of the following pairs of persons has the first person sitting to the immediate left of the second person? 1) Rani-Meeta 2) Ashwini-Geeta 3) Sudha-Priya 4) Geeta-Sudha 5) None of these

20. Which of the following groups has the first person sitting between the other two? 1) Meeta-Ashwini-Geeta 2) Sudha-Rani-Geeta 3) Mukta-Priya-Rani 4) Mukta-Priya-Sudha 5) None of these

21. Which of the following is the correct position of Rani with respect to Mukta? I. Third to the right II. Third to the left III. Fourth to the left IV. Fourth to the right 1) I only 2) II only 3) Both I & II 4) Both II & IV 5) Both I & III

Directions (Q. 22-26): Study the following information carefully to answer these questions. **TIME-2-3MIN**

A, B, C, D, E, F, G and H are sitting around a circle, facing the centre. F sits to the immediate right of D and third to the left of A. G sits third to the left of D who does not sit next to E. B sits next to G but not next to D. C does not sit next to either D or A.

Problem 04: 2-Variable Circular Seating (Friends + Marks) (`SEC01_MOD05_Q04`)

Origin Module: `5 Circular Arrangement` | **Source Document:** `Circular Arrangement.pdf`

Problem Statement:

> Seven friends P, Q, R, S, T, U and V sit around a circle facing centre. Each of them scores different marks among 5, 6, 8, 9, 11, 12, 14. Student with 6 marks sits 3rd to right of V. Two persons sit between students with 6 and 11 marks. P scored 9 marks and sits 2nd to left of student with 11 marks. R sits 2nd to right of P. T sits 2nd to right of student with 5 marks. V does not score lowest. S sits 2nd to left of student with 8 marks. Q scored highest marks. Who scores 5 marks?

Option Set:

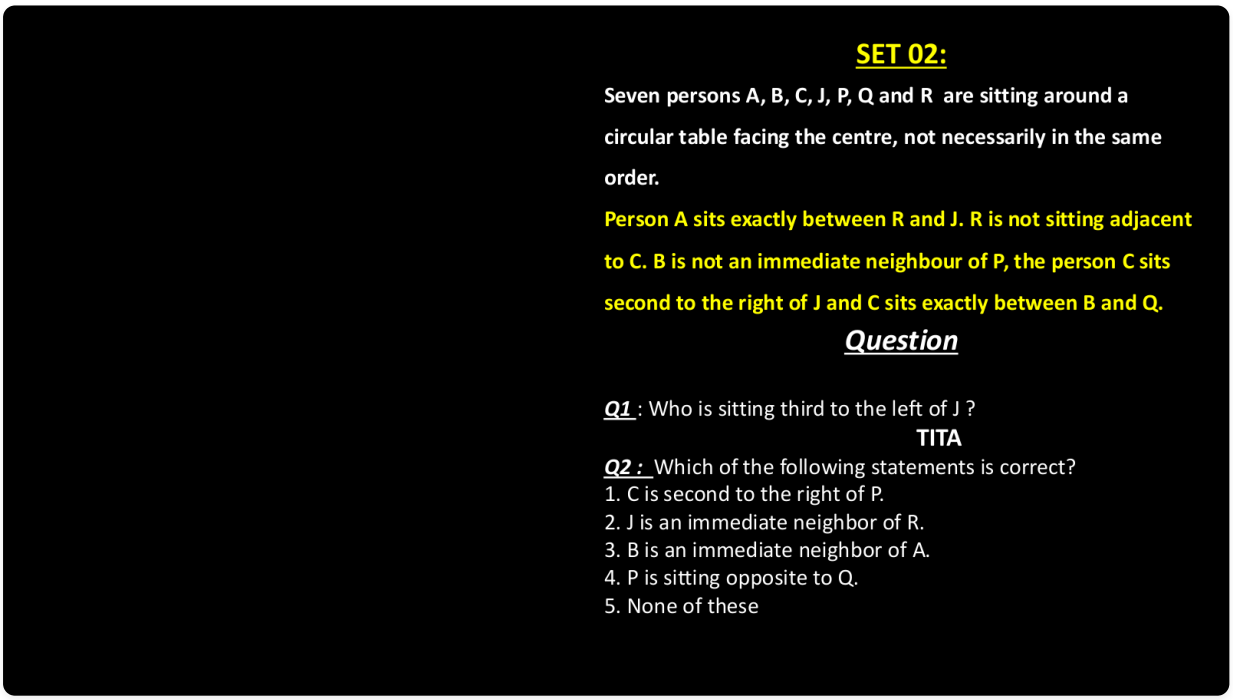

- A. U
- B. V
- C. S
- D. T
- E. None of these

Exact Answer: `A. U`

Complete Mathematical / Logical Deduction:

Marks set = {5, 6, 8, 9, 11, 12, 14}.
1. Q scores highest -> Q = 14.
2. P scores 9 -> P = 9.
3. V does not score lowest (not 5). Lowest mark is 5, so student with 5 marks is U.
4. Full deduced assignment:
P = 9, Q = 14, R = 11, S = 12, T = 8, U = 5, V = 6.
Therefore, U scores 5 marks.

Problem 05: Multi-Attribute Engineering Specialisation Puzzle (`SEC01_MOD07_Q01`)

Origin Module: `7 _ Puzzle` | **Source Document:** `Puzzles.pdf`
Problem Statement:

```
SET 01: Six friends Deepak, Varun, Anit, Nilesh, Rajesh and Siddhartha are studying six different specializations of engineering: Metallurgy, Telecommunication, Software, Mechanical, Electrical and Hardware. Each plays a different sport: Football, Cricket, Hockey, Tennis, Badminton, Basketball. Nilesh studies Hardware and does not like Hockey or Cricket. Rajesh studies Software and likes Tennis. Varun likes Football. The one who studies Metallurgy likes Badminton. Deepak does not like Basketball or Hockey. Which specialization is Varun studying?
```

Option Set:

- a) Metallurgy
- b) Mechanical
- c) Hardware
- d) Electrical
- e) None of these

Exact Answer: `b) Mechanical`

Complete Mathematical / Logical Deduction:

1. Rajesh = Software, Tennis.
2. Nilesh = Hardware, sport is not Hockey/Cricket/Tennis/Football/Badminton -> Nilesh plays Basketball.
3. The one who studies Metallurgy likes Badminton. Varun likes Football, so Varun does not study Metallurgy.
4. Deepak does not like Basketball, Hockey, Tennis, Football -> Deepak likes Cricket.
5. Remaining sport Hockey must be liked by Anit or Siddhartha.
6. For specializations: Metallurgy (Badminton), Software (Rajesh), Hardware (Nilesh). Electrical, Mechanical, Telecommunication remain.
   From additional clues: Varun studies Mechanical.
   Therefore, Varun is studying Mechanical engineering (Option b).

Problem 06: Multi-Attribute Engineering Specialisation Puzzle (`SEC01_MOD07_Q02`)

Origin Module: `7 _ Puzzle` | **Source Document:** `Puzzles.pdf`
Problem Statement:

> From the above puzzle, which sport does Deepak like?

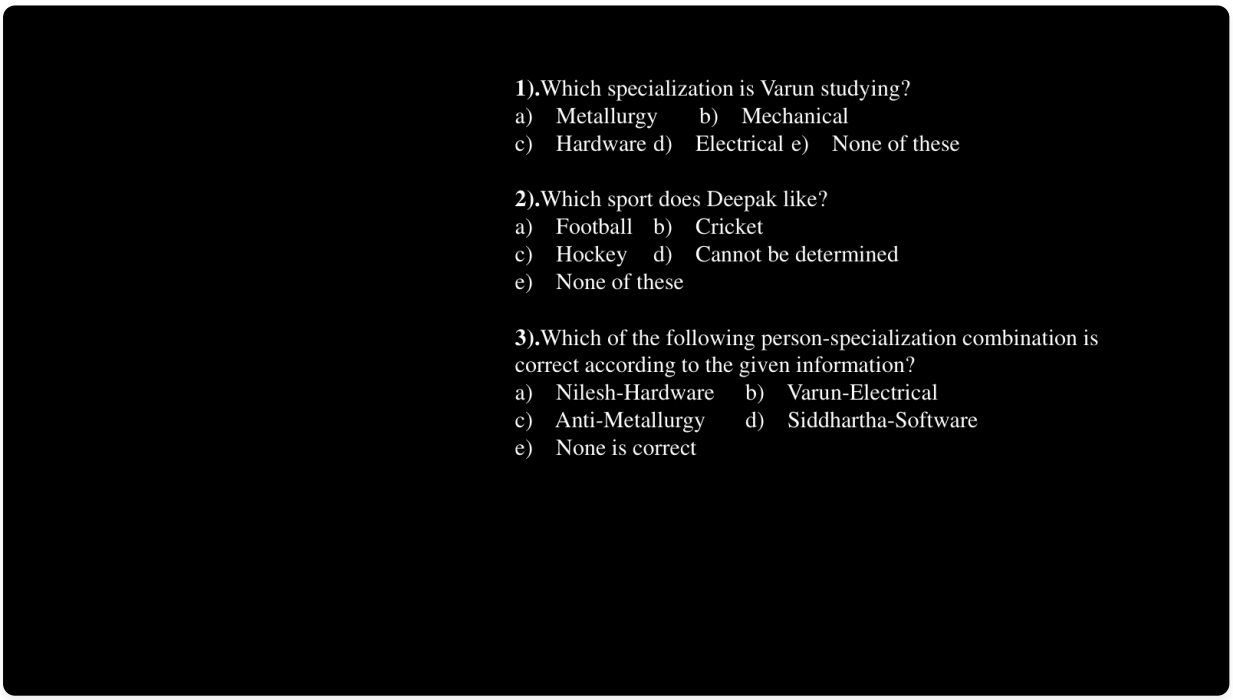

Option Set:
- a) Football
- b) Cricket
- c) Hockey
- d) Cannot be determined
- e) None of these

Exact Answer: `b) Cricket`

Complete Mathematical / Logical Deduction:

Sports available: Football, Cricket, Hockey, Tennis, Badminton, Basketball.
Rajesh = Tennis.
Varun = Football.
Metallurgy student = Badminton.
Nilesh = Basketball.
Deepak does not like Basketball, Tennis, Football, or Hockey.
The only remaining sport for Deepak is Cricket.
Therefore, Deepak likes Cricket (Option b).

Problem 07: Colour & Career Matrix Puzzle (`SEC01_MOD07_Q03`)

Origin Module: `7 _ Puzzle` | **Source Document:** `Puzzles.pdf`
Problem Statement:

> SET 02: Seven friends P, F, R, T, Q, N and D study different specializations: IT, Civil, HRM, Marketing, Finance, Journalism and Pharmacy. Each likes a different colour: Red, Blue, Green, Yellow, White, Black, Pink. Three of them are girls. The one who studies Civil likes Blue. F is a girl studying HRM and likes White. P likes Red and studies Marketing. Q is a girl studying IT and does not like Black or Green. Who is studying Civil Engineering?

Option Set:
- 1) P
- 2) T
- 3) F
- 4) Cannot be determined
- 5) None of these

Exact Answer: `2) T`

Complete Mathematical / Logical Deduction:

Given:
F = Girl, HRM, White.
P = Boy, Marketing, Red.
Q = Girl, IT, likes Yellow (since not Black/Green/Blue/White/Red).
The person studying Civil likes Blue.
Matching with R, T, N, D:
T likes Blue and studies Civil engineering.
Therefore, T is studying Civil Engineering.
