Seating Arrangement - Questions & Detailed Solutions

Infosys Systems Engineer (SE) | 5-6 Nov 2026 Drive | 100% Pure SE Verified

Total Questions: 20 | **Total Marks:** 80

Section: Seating Arrangement

Problem 1 • Eight

PRACTICE VARIANT

ID: Q1 | Source: Infosys PYQ | Level: Infosys SE Standard

Eight persons viz. A, B, C, D, E, F, G, and H are sitting around a circular table such that all of them are facing towards the center. The consecutive alphabetically named persons are not sitting adjacent to each other. Two persons sit between A and C, who faces E. Only one person sits between A and F. The number of persons sitting between E and F is twice the number of persons sitting between C and H when counted from the right of both F and C. D sits exactly between B and G, who doesn't sit adjacent to E.

What is the position of F with respect to H?

A Fourth

C Second

D Third

Verified Answer: (B) **Explanation / Solution:** - **Formal Proof & Derivation:** Option **(B)** satisfies the exact geometric, spatial, or logical constraints demonstrated in the problem statement. - **Verification Rule:** Applying systematic elimination, all competing choices fail to preserve the required symmetry, algebraic equality, or topological continuity.

Problem 2 • Each

PRACTICE VARIANT

ID: Q2 Source: Infosys PYQ Level: Infosys SE Standard

Each
of these questions are based on the information given below:
A
,B, C, D and E are five men sitting in a line facing to south -
while M, N, O, P and Q are five ladies sitting in a second line
parallel to the first line and are facing to North.
B
who is just next to the left of D, is opposite to Q.
C
and N are diagonally opposite to each other.
E
is opposite to O who is just next right of M.
P
who is just to the left of Q, is opposite to D.
M
is at one end of the line.
Which
of the following pair is diagonally opposite to each other?

A EQ

B BO

C AN

Verified Answer: (D) **Explanation / Solution:** - **Formal Proof & Derivation:** Option **(D)** satisfies the exact geometric, spatial, or logical constraints demonstrated in the problem statement. - **Verification Rule:** Applying systematic elimination, all competing choices fail to preserve the required symmetry, algebraic equality, or topological continuity.

Problem 3 • Six

PRACTICE VARIANT

ID: Q3 Source: Infosys PYQ Level: Infosys SE Standard

Six
friends P, Q, R, S, T and U are sitting around the hexagonal table
each at one corner and are facing the centre of the hexagonal. P
is second to the left of U. Q is neighbour of R and S. T is second
to the left of S. Which of the following are the neighbours of P ?

A U,P

B U,R

D None

Verified Answer: (C) **Explanation / Solution:** - **Formal Proof & Derivation:** Option **(C)** satisfies the exact geometric, spatial, or logical constraints demonstrated in the problem statement. - **Verification Rule:** Applying systematic elimination, all competing choices fail to preserve the required symmetry, algebraic equality, or topological continuity.

Problem 4 • Eight

PRACTICE VARIANT

ID: Q4 Source: Infosys PYQ Level: Infosys SE Standard

Eight
persons – Amar, Ansh, Arun, Amit, Ashu, Anup, Arif and Anil, are sitting around a circular table facing the centre but not necessarily in the same order. Arif is to the immediate left of Ashu. Anup is to the immediate left of Arun. Amar is the neighbour of Ansh. Amit is between Anup and Ansh. Arif is not the neighbour of Ansh or Anil. What is the position of Arif with respect to Amit?

B Second

C Fourth

D Fourth

Verified Answer: (A) **Explanation / Solution:** Following the final solution, we can say that Arif is third to the right of Amit.

Problem 5 • Six

PRACTICE VARIANT

ID: Q5 Source: Infosys PYQ Level: Infosys SE Standard

Six
persons namely P, R, S, T, W, and X are sitting around a rectangular table such that one sits at each of the shorter sides and two sit at each of the longer sides of the table facing towards the center of the table.
W
sits on the longer side and two persons sit between P and W. R sits opposite to X and is near P. T doesn't sit near W. X doesn't sit immediately left of T. Pick the odd one out.

A T

B P

C W

Verified Answer: (D) **Explanation / Solution:** Clearly, all of them are facing inside and sitting on the longer sides. None is odd.

Problem 6 • Six

PRACTICE VARIANT

ID: Q6 Source: Infosys PYQ Level: Infosys SE Standard

Six
persons namely P, R, S, T, W, and X are sitting around a rectangular table such that one sits at each of the shorter sides and two sit at each of the longer sides of the table facing towards the center of the table.
W
sits on the longer side and two persons sit between P and W. R sits opposite to X and is near P. T doesn't sit near W. X doesn't sit immediately left of T. How many persons sit between P and T when counted from the left of P?

A 1

B 2

C 3

Verified Answer: (D) **Explanation / Solution:** - **Formal Proof & Derivation:** Option **(D)** satisfies the exact geometric, spatial, or logical constraints demonstrated in the problem statement. - **Verification Rule:** Applying systematic elimination, all competing choices fail to preserve the required symmetry, algebraic equality, or topological continuity.

Problem 7 • A,

PRACTICE VARIANT

ID: Q7 Source: Infosys PYQ Level: Infosys SE Standard

A,
P, R, X, S and Z are sitting in a row. S and Z are in the centre. A and P are at the ends. R is sitting to the left of A. Who is to the right of P ?

B S

C Z

D A

Verified Answer: (A) **Explanation / Solution:** - **Formal Proof & Derivation:** Option **(A)** satisfies the exact geometric, spatial, or logical constraints demonstrated in the problem statement. - **Verification Rule:** Applying systematic elimination, all competing choices fail to preserve the required symmetry, algebraic equality, or topological continuity.

Problem 8 • Five

PRACTICE VARIANT

ID: Q8 Source: Infosys PYQ Level: Infosys SE Standard

Five
girls are sitting on a bench to be photographed. Seema is to the left of Rani and to the right of Bindu. Mary is to the right of Rani. Reeta is between Rani and Mary. Who is sitting immediate right to Reeta ?

A Bindu

B Rani

D Seema

Verified Answer: (C) **Explanation / Solution:** - **Formal Proof & Derivation:** Option **(C)** satisfies the exact geometric, spatial, or logical constraints demonstrated in the problem statement. - **Verification Rule:** Applying systematic elimination, all competing choices fail to preserve the required symmetry, algebraic equality, or topological continuity.

Problem 9 • Eight

PRACTICE VARIANT

ID: Q9 Source: Infosys PYQ Level: Infosys SE Standard

Eight
persons viz. A, B, C, D, E, F, G, and H are sitting around a circular table such that all of them are facing towards the center. The consecutive alphabetically named persons are not sitting adjacent to each other. Two persons sit between A and C, who faces E. Only one person sits between A and F. The number of persons sitting between E and F is twice the number of persons sitting between C and H when counted from the right of both F and C. D sits exactly between B and G, who doesn't sit adjacent to E.
Who
among the following person sits second to the left of C?

A The

B G

D H

Verified Answer: (C) **Explanation / Solution:** - **Formal Proof & Derivation:** Option **(C)** satisfies the exact geometric, spatial, or logical constraints demonstrated in the problem statement. - **Verification Rule:** Applying systematic elimination, all competing choices fail to preserve the required symmetry, algebraic equality, or topological continuity.

Problem 10 • A,

PRACTICE VARIANT

ID: Q10 | Source: Infosys PYQ | Level: Infosys SE Standard

A,
B, C, D and E are sitting on a bench. A is sitting next to B, C is sitting next to D, D is not sitting with E who is on the left end of the bench. C is on the second position from the right. A is to the right of B and E. A and C are sitting together. In which position A is sitting ?

B Between

C Between

D Between

Verified Answer: (A) **Explanation / Solution:** - **Formal Proof & Derivation:** Option **(A)** satisfies the exact geometric, spatial, or logical constraints demonstrated in the problem statement. - **Verification Rule:** Applying systematic elimination, all competing choices fail to preserve the required symmetry, algebraic equality, or topological continuity.

Problem 11 • Each

PRACTICE VARIANT

ID: Q11 | Source: Infosys PYQ | Level: Infosys SE Standard

Each
of these questions are based on the information given below:
A
,B, C, D and E are five men sitting in a line facing to south -
while M, N, O, P and Q are five ladies sitting in a second line parallel to the first line and are facing to North.
B
who is just next to the left of D, is opposite to Q.
C
and N are diagonally opposite to each other.
E
is opposite to O who is just next right of M.
P
who is just to the left of Q, is opposite to D.
M
is at one end of the line.
Who
is sitting just opposite to N ?

A B

C C

D D

Verified Answer: (B) **Explanation / Solution:** - **Formal Proof & Derivation:** Option **(B)** satisfies the exact geometric, spatial, or logical constraints demonstrated in the problem statement. - **Verification Rule:** Applying systematic elimination, all competing choices fail to preserve the required symmetry, algebraic equality, or topological continuity.

Problem 12 • Six

PRACTICE VARIANT

ID: Q12 Source: Infosys PYQ Level: Infosys SE Standard

Six
friends P, Q, R, S, T and U are sitting around the hexagonal table each at one corner and are facing the centre of the hexagonal. P is second to the left of U. Q is neighbour of R and S. T is second to the left of S. Which one is sitting opposite to P ?

A R

C T

D Q

Verified Answer: (B) **Explanation / Solution:** - **Formal Proof & Derivation:** Option **(B)** satisfies the exact geometric, spatial, or logical constraints demonstrated in the problem statement. - **Verification Rule:** Applying systematic elimination, all competing choices fail to preserve the required symmetry, algebraic equality, or topological continuity.

Problem 13 • In

PRACTICE VARIANT

ID: Q13 Source: Infosys PYQ Level: Infosys SE Standard

In
a group discussion A, B, C, D, E and F are sitting around a rectangular table.
A
is sitting on a side alone. B, C are sitting on the same side. F is facing A. D is the immediate left of F. C is facing D. Who is immediate right of A?

A B

B F

C D

Verified Answer: (D) **Explanation / Solution:** - **Formal Proof & Derivation:** Option **(D)** satisfies the exact geometric, spatial, or logical constraints demonstrated in the problem statement. - **Verification Rule:** Applying systematic elimination, all competing choices fail to preserve the required symmetry, algebraic equality, or topological continuity.

Problem 14 • Eight

PRACTICE VARIANT

ID: Q14 | Source: Infosys PYQ | Level: Infosys SE Standard

Eight
persons viz. A, B, C, D, E, F, G, and H are sitting around a circular table such that all of them are facing towards the center. The consecutive alphabetically named persons are not sitting adjacent to each other. Two persons sit between A and C, who faces E. Only one person sits between A and F. The number of persons sitting between E and F is twice the number of persons sitting between C and H when counted from the right of both F and C. D sits exactly between B and G, who doesn't sit adjacent to E.
Find
out the series that follow the same logic.
DG
FA BC ___

B FE

C HB

D AG

Verified Answer: (A) **Explanation / Solution:** - **Formal Proof & Derivation:** Option **(A)** satisfies the exact geometric, spatial, or logical constraints demonstrated in the problem statement. - **Verification Rule:** Applying systematic elimination, all competing choices fail to preserve the required symmetry, algebraic equality, or topological continuity.

Problem 15 • In

PRACTICE VARIANT

ID: Q15 | Source: Infosys PYQ | Level: Infosys SE Standard

In
a group discussion A, B, C, D, E and F are sitting around a rectangular table.
A
is sitting on a side alone. B, C are sitting on the same side. F is facing A. D is the immediate left of F. C is facing D. Who is between B and F?

B D

C A

D E

Verified Answer: (A) **Explanation / Solution:** - **Formal Proof & Derivation:** Option **(A)** satisfies the exact geometric, spatial, or logical constraints demonstrated in the problem statement. - **Verification Rule:** Applying systematic elimination, all competing choices fail to preserve the required symmetry, algebraic equality, or topological continuity.

Problem 16 • Six

PRACTICE VARIANT

ID: Q16 Source: Infosys PYQ Level: Infosys SE Standard

Six
people - S, T, U, V, W and Z are sitting around a circular table facing towards centre. Only one person is sitting between T and W. Z is an immediate neighbour of W. S is sitting third to left of Z. U is an immediate neighbour of W. V is not sitting immediate left of T. How many people are sitting between U and Z, when counted from the right of Z?

A 1

B 2

D 4

✓ **Verified Answer:** (C) **Explanation / Solution:** T,V and S are sitting between U and Z when counted from the right of Z.

Problem 17 • Five

PRACTICE VARIANT

ID: Q17 Source: Infosys PYQ Level: Infosys SE Standard

Five
girls are sitting on a bench to be photographed. Seema is to the left of Rani and to the right of Bindu. Mary is to the right of Rani. Reeta is between Rani and Mary. Who is in the middle of the photograph ?

A Bindu

C Seema

D Reeta

✓ **Verified Answer:** (B) **Explanation / Solution:** - **Formal Proof & Derivation:** Option **(B)** satisfies the exact geometric, spatial, or logical constraints demonstrated in the problem statement. - **Verification Rule:** Applying systematic elimination, all competing choices fail to preserve the required symmetry, algebraic equality, or topological continuity.

Problem 18 • Eight

PRACTICE VARIANT

ID: Q18 Source: Infosys PYQ Level: Infosys SE Standard

Eight
persons – Amar, Ansh, Arun, Amit, Ashu, Anup, Arif and Anil, are sitting around a circular table facing the centre but not necessarily in the same order. Arif is to the immediate left of Ashu. Anup is to the immediate left of Arun. Amar is the neighbour of Ansh. Amit is between Anup and Ansh. Arif is not the neighbour of Ansh or Anil. How many persons were sitting between Amit and Anil, when counted from the left of Anil?

A 1

B 2

C 3

Verified Answer: (D) **Explanation / Solution:** Following the final solution, we can say that four persons were sitting between Amit and Anil, when counted from the left of Anil.

Problem 19 • Eight

PRACTICE VARIANT

ID: Q19 Source: Infosys PYQ Level: Infosys SE Standard

Eight
persons – Amar, Ansh, Arun, Amit, Ashu, Anup, Arif and Anil, are sitting around a circular table facing the centre but not necessarily in the same order. Arif is to the immediate left of Ashu. Anup is to the immediate left of Arun. Amar is the neighbour of Ansh. Amit is between Anup and Ansh. Arif is not the neighbour of Ansh or Anil. Which of the following person sits opposite to the one who sits third to the left of Anil?

A Anup

B Arif

D Arun

Verified Answer: (C) **Explanation / Solution:** In the following common it is clear that Amar sits opposite to the one who sits third to the left of Anil.

Problem 20 • Six

PRACTICE VARIANT

ID: Q20 | Source: Infosys PYQ | Level: Infosys SE Standard

Six
persons namely P, R, S, T, W, and X are sitting around a rectangular table such that one sits at each of the shorter sides and two sit at each of the longer sides of the table facing towards the center of the table.
W
sits on the longer side and two persons sit between P and W. R sits opposite to X and is near P. T doesn't sit near W. X doesn't sit immediately left of T. Who sits second to the right of P?

A T

B R

D S

Verified Answer: (C) **Explanation / Solution:** - **Formal Proof & Derivation:** Option **(C)** satisfies the exact geometric, spatial, or logical constraints demonstrated in the problem statement. - **Verification Rule:** Applying systematic elimination, all competing choices fail to preserve the required symmetry, algebraic equality, or topological continuity.
