EXERCISE 01

Direction: Read the passage below and answer the following questions.

A comprehensive emergency obstetrics and neonatal care centre block will be constructed at an estimated cost of 9 crore with World Bank assistance at the Annal Gandhi Memorial Government Hospital here. A three-member World Bank team from New Delhi led by Preeti Kudesia and Sundararajan S Gopalan, (Senior Health Specialists) and Sangeeta Pinto (Operations Analyst), which visited the site of the proposed block at the Hospital, expressed satisfaction about the site. Talking to the media persons, Dr Preeti Kudesia said that the team-members would discuss about the proposed project with the Tamil Nadu Health Secretary and other officials at Chennai in a day or two. The proposed block was expected to be constructed in a span of two years even though the project period would be three years, she said. She pointed out that the World Bank was supporting the Tamil Nadu Health Systems Project. It provided soft loan to the Tamil Nadu Government for implementing various health projects. The World Bank had provided nearly 90 million US dollars for health care projects in 270 secondary level hospitals in the last five years and planned to provide a total assistance of 117 million US dollars for various health care projects in the next three years in Tamil Nadu. Dr. Kudesia said that her team had earlier visited several hospitals including Namakkal, Salem and Dharmapuri districts in the last few days and pointed out that the team had visited the first Medical College Hospital only in Tiruchi. Dr. MA Aleem, Dean (in-charge) of Annal Gandhi Memorial Government Hospital, took the World Bank team to the maternity ward and explained to them the various developments being carried out in the hospital. He also showed the project plan to the team. V Sukumar, Expert Advisor, Tamil Nadu Health Systems Project, explained about the proposed site for constructing the block.

1.Which of the following is true?

A.The World Bank has provided nearly 90 million US dollars for health care projects

B.The World Bank will provide nearly 90 million US dollars for health care in the future

C.The World Bank has provided nearly 117 million US dollars for health care

D.The US will provide nearly 117 million US dollars for health care

2.The word neonatal means:

A. extensive care for children
B. related to new advances in hospital management
C.ward for children in the hospital
D. related to an infant during the first month after birth

3.The tone of the passage cannot be labeled as:
A informative
B factual
C descriptive
D theoretical

4.The World Bank team first visited the medical college hospital in
A. Namakkal
B. Salem
C. Tiruchi
D. Delhi

EXERCISE 2

Direction: Read the passage below and answer the following questions.
Sunil Mittal led Bharti Airtel announced that it had completed the acquisition of Zain Telecom's Africa operations for $10.7 billion. The company has now 180 million subscribers in 18 Asian and African nations. The company announced that it would launch the Airtel brand in Zain's operations in all the 15 nations. Announcing the completion of the deal at a press conference here, Bharti Group Chairman Sunil Mittal said, "The transaction is the largest ever cross border deal in an emerging market and will result in combined revenues of about $13 billion." Bharti finally entered Africa after aborting negotiations twice for merger with MTN since 2008, with Mr. Mittal stating that in the Zain's case, Airtel would have a total control, He said "Zain Africa would now be 100 per cent subsidiary of Bharti International". This deal would signal many new investments that would go to Africa, he added. At present, China Mobile is the world's largest mobile player with a subscriber base of 522 million, followed by Vodafone (348 million), Telefonica (206 million) and American Movil (201 million). Elaborating on Africa strategy, Bharti's International operations In-charge Manoj Kohli said, "the company had set a target of 100 million subscribers and $5 billion revenues by 2012-13". Bharti has acquired Zain Telecom's operations in 15 African nations, excluding Sudan and Morocco. Zain has operations in 17 countries in the region and is claiming to be the second largest operator after MTN. Asked whether he regretted missing a deal with MTN twice and whether that was his first choice, Mr. Mittal said, "MTN was the first opportunity that was available at that time. In MTN's case, we would have had board control but no management control and no change in brand."

1. It can be inferred from the passage that while deciding on a merger, Mr. Mittal:(i.) considers whether he has control of the board(ii.) wants to make sure that the Airtal name is always the name of the merged entity(iii.) considers management control more important than board control

A (i) only
B. (i) and (ii) only
C all of the above
D (i) and (iii)

2.Bharti International will be responsible for Zain operations in

A Asia
B America
C Africa
D Asia and Africa

3.From the passage, which of the following companies was positively not acquired by Bharti ?
A Vodafone
B. MTN
C. Reliance
D. Airtel

4. Zain is present is 18 African and Asian countries, but Airtel will operate only in 15 of those. Why this incongruity?
A.Zain has become insolvent in three nations and has not sold them to Airtel.
B. Zain still has control in these nations
C.Airtel is not interested in these nations.
D. Airtel does not see a business opportunity in Sudan and Morocco.
