Concept Sheet

$\frac{1}{2} = 50\%$	$\frac{1}{8} = 12.50\%$ or $12\frac{1}{2}\%$
$\frac{1}{3} = 33.33\%$ or $33\frac{1}{3}\%$	$\frac{1}{9} = 11.11\%$ or $11\frac{1}{9}\%$
$\frac{1}{4} = 25\%$	$\frac{1}{11} = 9.09\%$ or $9\frac{1}{11}\%$
$\frac{1}{5} = 20\%$	$\frac{1}{12} = 8.33\%$ or $8\frac{1}{3}\%$
$\frac{1}{6} = 16\frac{2}{3}\%$	$\frac{1}{14} = 7.14\%$ or $7\frac{1}{7}\%$
$\frac{1}{7} = 14.28\%$ or $14\frac{2}{7}\%$	$\frac{1}{15} = 6.66\%$ or $6\frac{2}{3}\%$

NOTE :

$$\frac{1}{3} = 33\frac{1}{3}\% \Rightarrow \frac{2}{3} = 66\frac{2}{3}\%$$

$$\frac{1}{8} = 12.5\% \Rightarrow \frac{3}{8} = 37.5\%$$

Concept Sheet

X is what % of Y ?

Question :

- What percent of 6.3kg is 9gms?_____
- What percent is 2 minutes 24 seconds of an hour?_____

X is what % more/less than Y ?

Question : If Arjun's salary is 20% more than that of Bheem, then how much percent is Bheem's salary less than that of Arjun?
1) 16.66% 2) 20% 3) 40% 4) 10% 5) None of these

Question :
The sale of Company N is 40% less than that of Company T. Then by what per cent is the sale of company T more than that of N?

SET 01

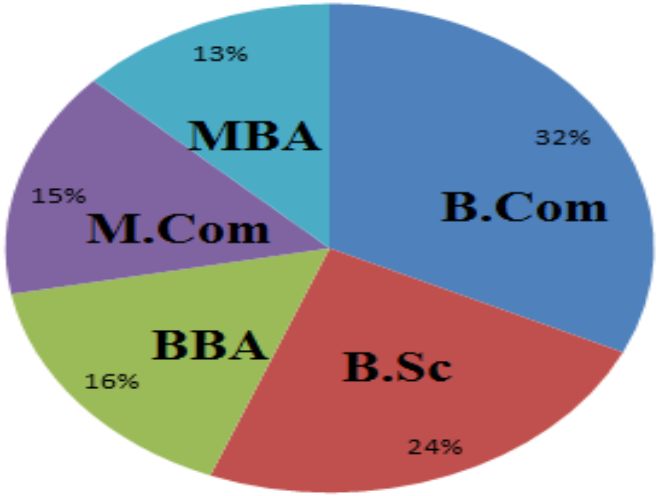

Q1:What is the number of Male student studying in M.Com?

A) 210
B) 195
C) 190
D) 168
E) None

Q2: The number of male student studying in MBA is what per cent of the total number of Students studing in that department?

A) 32%
B) 25%
C) 66 2/3%
D) 33 1/3%
E) None

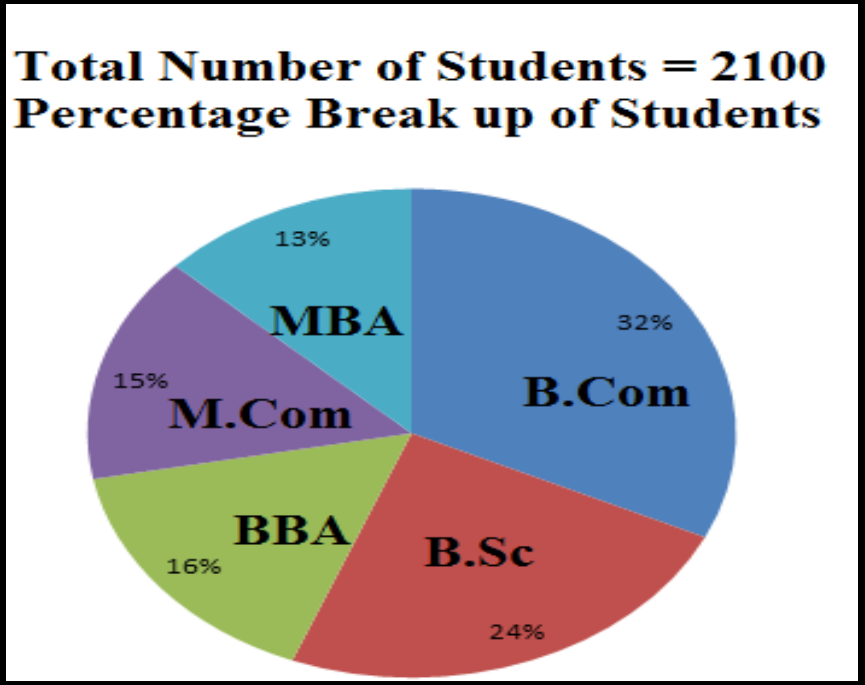

Total Number of Students = 2100
Percentage Break up of Students

Department	Ratio of Male to Female
B.Com	5 : 7
B.Sc	3 : 4
BBA	7 : 5
M.Com	13 : 8
MBA	2 : 1

Q3: What is the respective ratio of the number of female student studying in B.Sc to the the number of female student studying in B.Com?

A) 35:27
B) 14:23
C) 27:35
D) 21:16
E) None

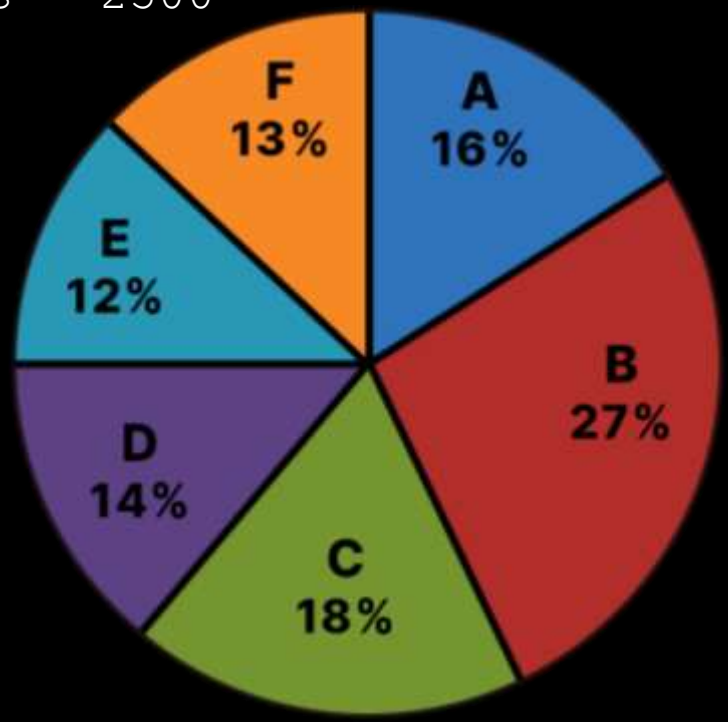

Department	Ratio of Male to Female
B.Com	5 : 7
B.Sc	3 : 4
BBA	7 : 5
M.Com	13 : 8
MBA	2 : 1

SET 02

SET:01- (PIE GRAPH)

Total Number of Biscuits sold is = 2500

Pie-chart shown below shows distribution of biscuits sold by six sellers. Study the chart carefully and answer the following questions

Q1:Average number of biscuits sold by B, C and E all together is how much percentage more than biscuit sold by A?

a) 12.25% b) 16.5% c) 18.75

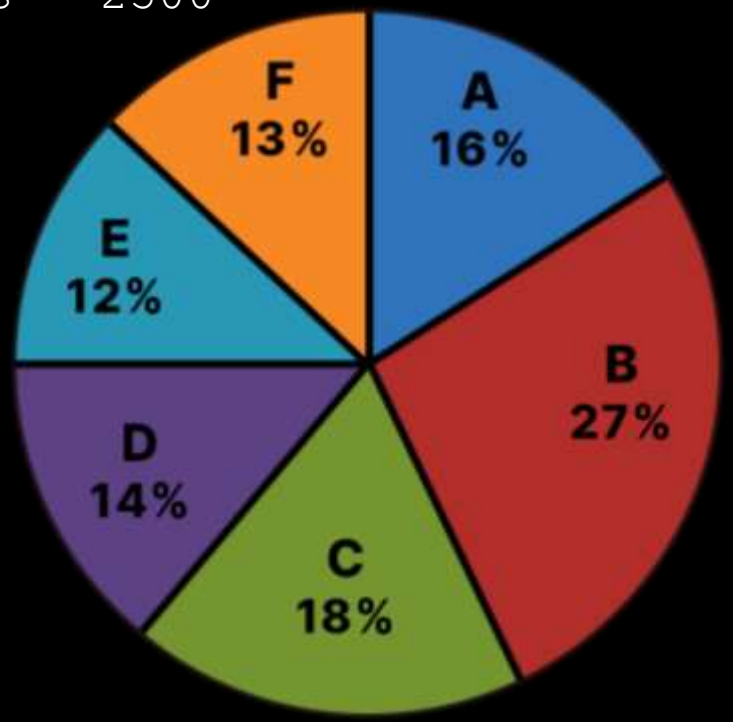

d) 20% e) 22.5%

Campusmonk

Q2: B sold three types of biscuit i.e X, Y and Z in the ratio 2:3:4. Find the difference between Z type biscuit and X type biscuit sold by B?

a) 120 b) 130 c) 140 d) 150 e) 160

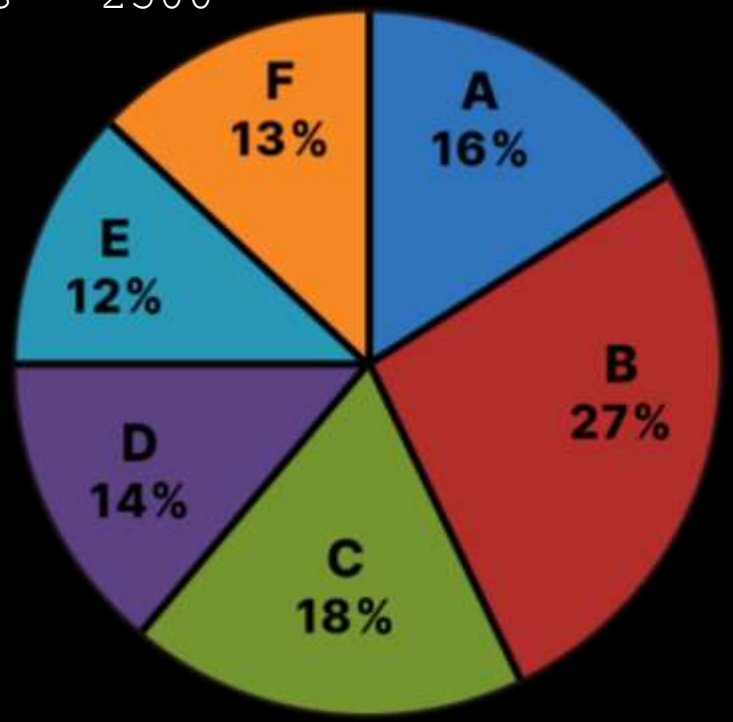

Total Number of Biscuits sold is = 2500

Pie-chart shown below shows distribution of biscuits sold by six sellers. Study the chart carefully and answer the following questions

Campusmonk

Total Number of Biscuits sold is = 2500

Pie-chart shown below shows distribution of biscuits sold by six sellers. Study the chart carefully and answer the following questions

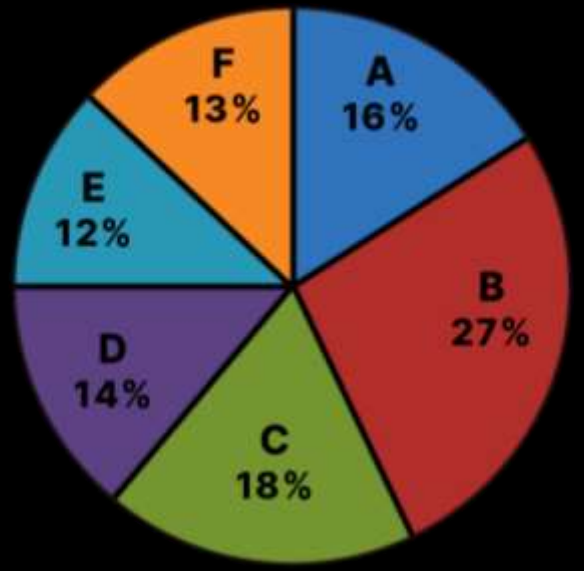

Q3: What is difference between the number of biscuits sold by E, F and D together to the number of biscuits sold by A and C together?

a) 150 b) 175 c) 100 d) 80 e) 125

SET 03

Study the following pie chart showing the distribution of sports budget among various sports to answer the questions that follow.

Spending of total Sport budget 144 crore.

1.What percentage of total spending is spent on Tennis?

(a) 12.5% (b) 18%

(c) 14% (d) 10%

(e) 8%

2. How much more is spent on Hockey than on Basketball?

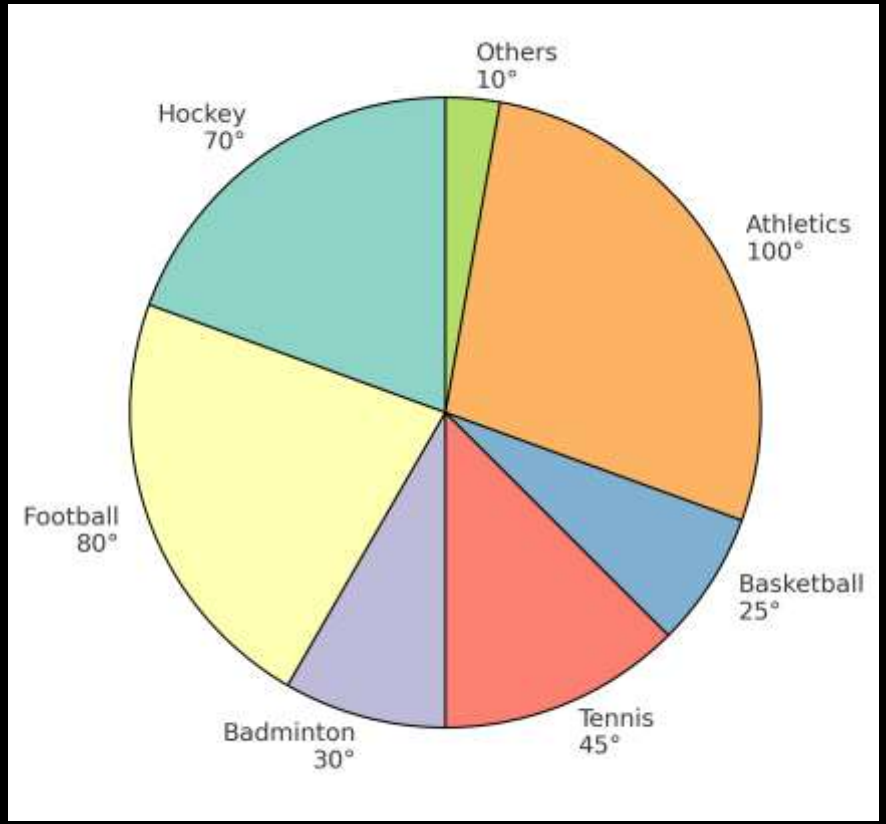

(a) 15 cr (b)12 cr

(c) 18 cr (d) 20 cr

(e) 10 cr

Study the following pie chart showing the distribution of sports budget among various sports to answer the questions that follow.

Spending of total Sport budget 144 crore.

3. If total spending on Hockey is increased by 20% while that of football is decreased by 30%, what will be different between the spending on hockey and football now?

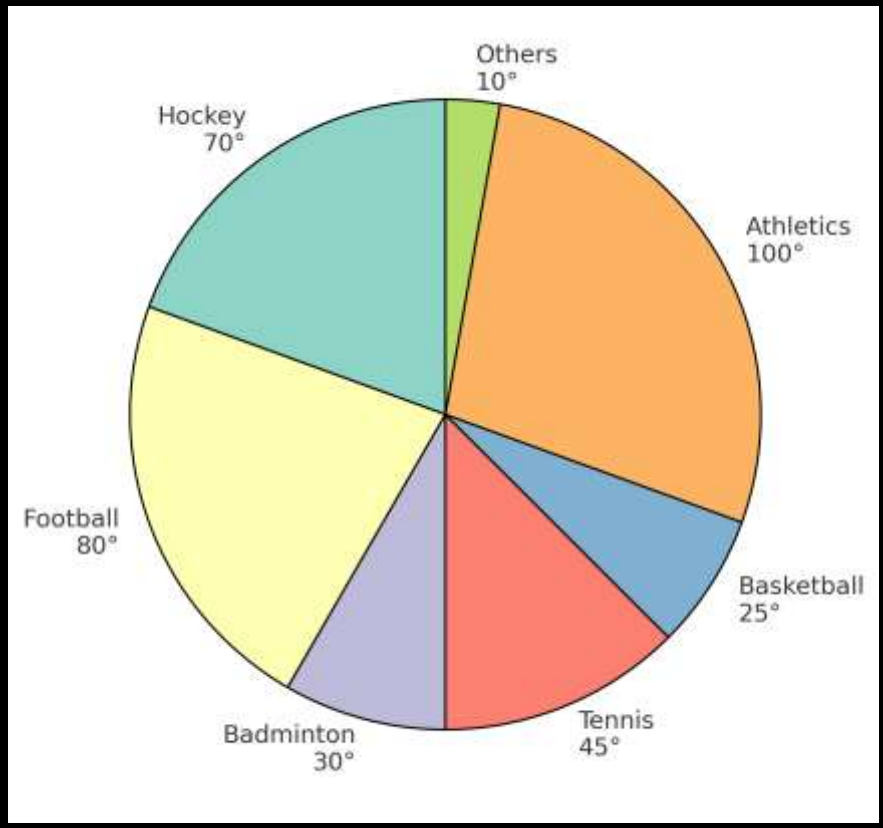

(a) 11.8 cr **(b) 11.2 cr**

(c) 10.9 cr **(d) 12.1 cr**

(e) 12.8 cr

Study the following pie chart showing the distribution of sports budget among various sports to answer the questions that follow.

Spending of total Sport budget 144 crore.

4.What is the ratio of amount spent on Hockey, football and Tennis together to Rs. 84 crore?

5. **If for another game, billiards with additional budget of 17 crore is allocated, what is the difference between amount spend on Others & Billiards?**

TITA

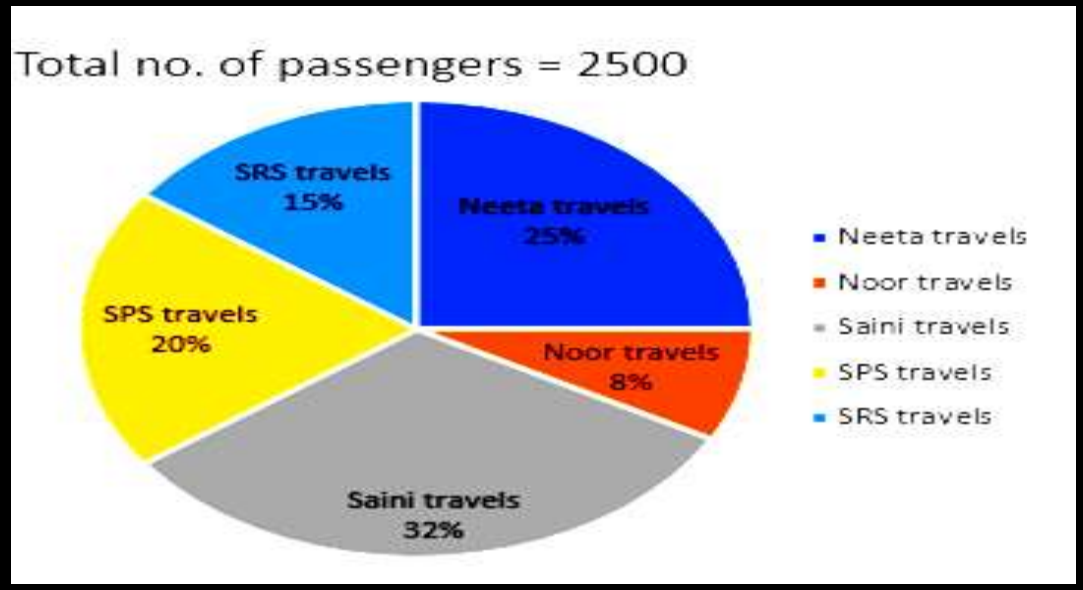

SET 04

Q1. Find the average number of passengers traveling from SPS travels, SRS travels and Neeta travels

(a) 750 (b) 445
(c) 500 (d) 520
(e) 525

Q2. If male and female traveling from Neeta travels and SRS travels are in ratio 2 : 3 and 3 : 2 respectively than find the female passengers travelling from SRS travel and Neeta travels together.

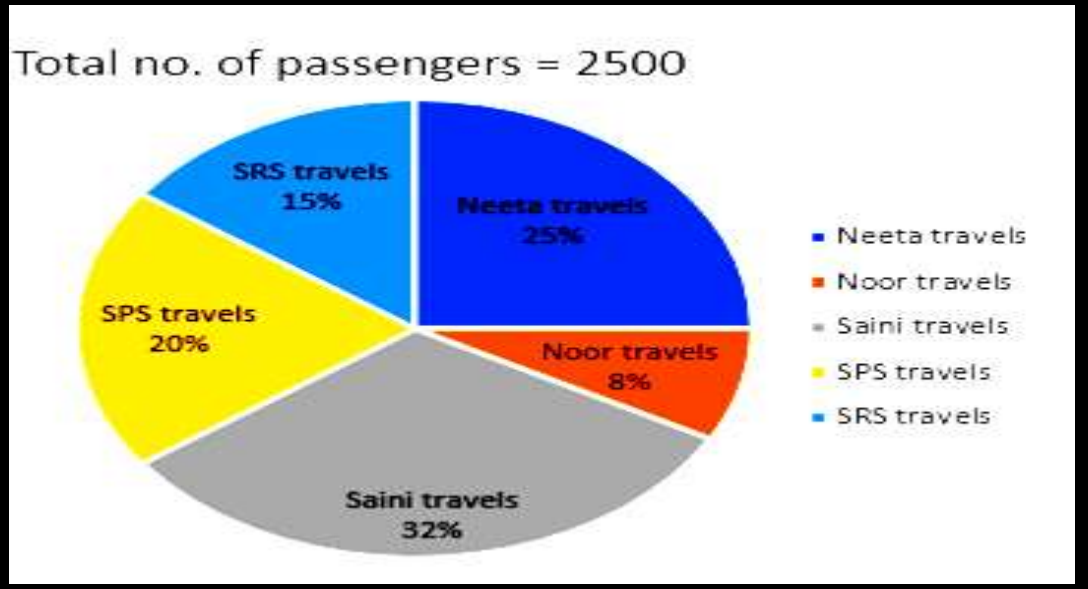

(a) 525 (b) 384
(c) 465 (d) 625 (e) 685

Q3. Find the central angle made by Saini travels in the given pie chart.

(a) 100.8° (b) 126°

(c) 86.4° (d) 115.2° (e) None of these

Question 12:

Five persons A, B, C, D and E are sitting around a circular table with all of them facing towards the center. Who sits immediate left of B ?

I. A sits third to right of B. C sits third to right of A.

II. B sits immediate left of C who sits second to left of A. D does not sit adjacent to B.

a) The data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question

(b) The data even in both statements I and II together are not sufficient to answer the question

(c) The data either in statement I alone or in statement II alone are sufficient to answer the question

(d) The data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question

(e) The data in both statements I and II together are necessary to answer the question

Question 17:

Among six persons A, B, C, D, E and F standing around a circle, some of them are facing the centre while others are facing outside (i.e. opposite to the centre). What is the position of A with respect of E?

I. C stands second to the right of E. E faces outside. C is an immediate neighbour of both D and B. F stands second to the left of D. D faces the same direction as E.

II. Only two persons stand between B and E. Both B and E face outside. E is an immediate neighbour of both D and F. B is an immediate neighbour of both C and A. A is not an immediate neighbour of D.

(a)The data in both statements I and II together are necessary to answer the question

(b) The data in statement II alone are sufficient to answer the question while the data in statement I alone are not sufficient to answer the question

(c) The data even in both statements I and II together are not sufficient to answer the question

(d)The data either in statement I alone or in statement II alone are sufficient to answer the question

(e) The data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question

TYPE : IV

Question 13:

Is M the mother of L?

I. T is the mother of M. M is married to J. K is the son of J. F is the sister of K. L is the sister of F.

II. K is the grandson of T. K is the bother of F. F is the sister of L. L is daughter of J. J is the son-in-law of T.

(a) The data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question
(b) The data even in both statements I and II together are not sufficient to answer the question
(c) The data either in statement I alone or in statement II alone are sufficient to answer the question
(d) The data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question
(e) The data in both statements I and II together are necessary to answer the question

Question 14:

How is Y related to P?

I. P is the mother of X, who is the only brother of Y.

II. Q is the father of Z, who is the sister of Y.

III. P has three children in which only one is son.

(a) Only I and III are sufficient to answer the question.

(b) All I, II and III are required to answer the question.

(c) Only II and III are sufficient to answer the question.

(d) Question cannot be answered even with all I, II and III.

(e) Only I and II are sufficient to answer the question

TYPE : V

Question 15:

How is ‘go’ written in a code language?

I. ‘now or never again’ is written as ‘to ka na sa’ in that code language.

II. ‘you come again now’ is written as ‘ja ka ta sa’ in that code language.

III. ‘again go now or never’ is written as ‘na ho ka sa to’ in that code language.

(a) Only I and III are sufficient to answer the question.
(b) Only II and III are sufficient to answer the question.
(c) Only I and II are sufficient to answer the question.
(d) All I, II and III are required to answer the question.
(e) None of these

Question 16:

How is the word ‘plant’ written in the given code language?

I. ‘Buy a new plant today’ is written as ‘4 $ % 7 2’ and ‘not the plant she said’ is written as ‘@ # 5 $ 9’.

II. ‘Plant is always good’ is written as ‘> 6 3 $’ and ‘is good buy always’ is written as ‘3 > 2 6’.

(a) The data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question
(b) The data even in both statements I and II together are not sufficient to answer the question
(c) The data either in statement I alone or in statement II alone are sufficient to answer the question
(d) The data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question
(e) The data in both statements I and II together are necessary to answer the question
