📖 SUBJECT 5: Reading Comprehension (RC) Masterclass & Full Passage Vault (61 Questions)

This subject synthesizes all 61 Reading Comprehension questions and full multi-paragraph passages extracted from PrepInsta, CampusMonk, OnlineStudy4U, and College ITM.

5.1 The 4-Phase RC Decoupling Strategy & Trap Elimination Matrix

Phase	Core Objective	Time Limit	Actionable Tactics
Phase 1	**Question Reconnaissance**	30 Sec	Read question stems first; categorize as Factual, Inferential, or Global.
Phase 2	**Structural Skimming**	90-120 Sec	Read paragraph 1, topic sentences, and summary sentences; mark pivot words.
Phase 3	**Targeted Extraction**	30 Sec / Q	Re-read 1 sentence above and below the keyword for contextual proof.
Phase 4	**Trap Elimination**	15 Sec / Q	Eliminate Extreme Words (*always, never*), Out-of-Scope assertions, and Half-Truths.

5.2 PrepInsta Complete RC Passage Vault & Verified Question Bank

Source Portal: PrepInsta Infosys Preparation Suite (`https://prepinsta.com/infosys/english/reading-comprehension/`)
Target Role: Infosys Systems Engineer (SE) | **Category:** 03_Verbal_Ability_English
Total Verified Questions Extracted: 10
Quizzes Covered: quiz-1, quiz-2, quiz-3, quiz-4, quiz-5, quiz-6, quiz-7

📋 Section 1: Rules to Keep in Mind

These rules and fundamental principles govern all Infosys questions on this topic:

- Skim the first and last paragraph to identify the central thesis and primary purpose.
- Read question stems first to identify keywords before scanning the passage.
- Strictly rely on the author's stated facts and assertions; do not inject outside real-world knowledge.
- Basic Grammar

          - Idioms and Phrases

- Subject Verb Agreement

  - Prepositions and Conjunction

    - Selecting Words

      - Relative Pronoun

        - Sentence Completion

          - Sentence Ordering

⚡ Section 2: How to Solve Quickly

Proven time-saving strategies recommended by PrepInsta for Infosys 2026 examination:

1. **Option Elimination via Unit Digits & Multiples:** Before doing full calculations, inspect the options to see if last digits or divisibility by 3, 7, 9, 11 can eliminate 2 to 3 wrong choices.
2. **Approximation & Magnitude Checks:** When exact arithmetic is tedious, round numbers to neat multiples (e.g., 99 ≈ 100) to find the nearest valid option.
3. **Reverse Option Substitution:** In complex algebraic equations, plug option values directly into the question stem to test validity.

🚀 Section 3: Tricks & Shortcuts

Key mathematical formulas, mental-math shortcuts, and speed axioms:

- Tone identification: Look for emotive adjectives (critical, laudatory, pragmatic, cynical, objective).
- Eliminate options that are partially true but contain one unsupported extreme claim.
- Basic Grammar

    - Speech and Voices

- Tenses

- Articles

- Tenses and Articles

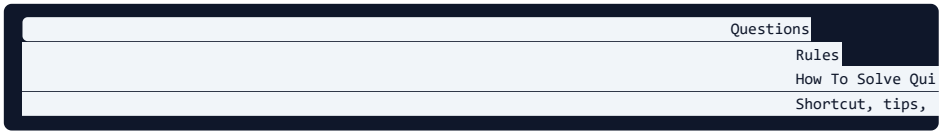

- Idioms and Phrases

- Subject Verb Agreement

- Prepositions and Conjunction

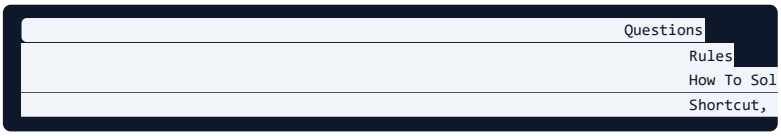

- Selecting Words

- Relative Pronoun

- Sentence Completion

- Sentence Ordering

🗂️ Section 4: Practice Questions, Options & Step-by-Step Solutions

Contains **10** verbatim questions with options, verified answer keys, and complete derivations:

Question 1 (PrepInsta quiz-1 - Q1)

Question Stem:
Read the given passage and answer the questions :

The economic transformation of India is one of the great business stories of our time. As stifling government regulations have been lifted, entrepreneurship has flourished, and the country has become a high-powered center for information technology and pharmaceuticals. Indian companies like Infosys and Wipro are powerful global players, while Western firms like G.E. and I.B.M. now have major research facilities in India employing thousands. India's seemingly endless flow of young, motivated engineers, scientists, and managers offering developed-world skills at developing-world wages is held to be putting American jobs at risk, and the country is frequently heralded as "the next economic superpower."

But India has run into a surprising hitch on its way to superpower status: its inexhaustible supply of workers is becoming exhausted. Although India has one of the youngest workforces on the planet, the head of Infosys said recently that there was an "acute shortage of skilled manpower," and a study by Hewitt Associates projects that this year salaries for skilled workers will rise fourteen and a half per cent, a sure sign that demand for skilled labor is outstripping supply.

How is this possible in a country that every year produces two and a half million college graduates and four hundred thousand engineers? Start with the fact that just ten per cent of Indians get any kind of post-secondary education, compared with some fifty per cent who do in the U.S. Moreover, of that ten per cent, the vast majority go to one of India's seventeen thousand colleges, many of which are closer to community colleges than to four-year institutions. India does have more than three hundred universities, but a recent survey by the London Times Higher Education Supplement put only two of them among the top hundred in the world. Many Indian graduates therefore enter the workforce with a low level of skills. A current study led by Vivek Wadhwa, of Duke University, has found that if you define "engineer" by U.S. standards, India produces just a hundred and seventy thousand engineers a year, not four hundred thousand. Infosys says that, of 1.3 million applicants for jobs last year, it found only two per cent acceptable.

There was a time when many economists believed that post- secondary education didn't have much impact on economic growth. The really important educational gains, they thought, came from giving rudimentary skills to large numbers of people (which India still needs to do—at least thirty per cent of the population is illiterate). They believed that, in economic terms, society got a very low rate of return on its investment in higher education. But lately that assumption has been overturned, and the social rate of return on investment in university education in India has been calculated at an impressive nine or ten per cent. In other words, every dollar India puts into higher education creates value for the economy as a whole. Yet India spends roughly three and a half per cent of its G.D.P. on education, significantly below the percentage spent by the U.S., even though India's population is much younger, and spending on education should be proportionately higher.

The irony of the current situation is that India was once considered to be overeducated. In the seventies, as its economy languished, it seemed to be a country with too many engineers and Ph.D.s working as clerks in government offices. Once the Indian business climate loosened up, though, that meant companies could tap a backlog of hundreds of thousands of eager, skilled workers at their disposal. Unfortunately, the educational system did not adjust to the new realities. Between 1985 and 1997, the number of teachers in India actually fell, while the percentage of students enrolled in high school or college rose more slowly than it did in the rest of the world. Even as the need for skilled workers was increasing, India was devoting relatively fewer resources to producing them. Since the Second World War, the countries that have made successful leaps from developing to developed status have all poured money, public and private, into education. South Korea now spends a higher percentage of its national income on education than nearly any other country in the world. Taiwan had a system of universal primary education before its phase of hypergrowth began. And, more recently, Ireland's economic boom was spurred, in part, by an opening up and expansion of primary and secondary schools and increased funding for universities. Education will be all the more important for India's well-being; the earlier generation of so-called Asian Tigers depended heavily on manufacturing, but India's focus on services and technology will require a more skilled and educated workforce.

India has taken tentative steps to remedy its skills famine—the current government has made noises about doubling spending on education, and a host of new colleges and universities have sprung up since the mid-nineties. But India's impressive economic performance has made the problem seem less urgent than it actually is, and allowed the government to defer difficult choices. (In a country where more than three hundred million people live on a dollar a day, producing college graduates can seem like a low priority.) Ultimately, the Indian government has to pull off a very tough trick, making serious changes at a time when things seem to be going very well. It needs, in other words, a clear sense of everything that can still go wrong. The paradox of the Indian economy today is that the more certain its glowing future seems to be, the less likely that future becomes.

Which of these could you infer according to the passage?

Options:
- **(A)** `Wages in the Developing countries are less as compared to wages in the developed countries.`
- **(B)** `Wages in the Developing countries are more as compared to wages in the developed countries`
- **(C)** `Wages in the Developing countries are same as wages in the developed countries`
- **(D)** `None of these`

Correct Answer: (A) `Wages in the Developing countries are less as compared to wages in the developed countries.`

PrepInsta Detailed Explanation & Mathematical Derivation:

```
According to the passage it inferred that -  Wages in the Developing countries are less as compared to wages in the developed countries
```

Question 2 (PrepInsta quiz-1 - Q2)

Question Stem:
The economic transformation of India is one of the great business stories of our time. As stifling government regulations have been lifted, entrepreneurship has flourished, and the country has become a high-powered center for information technology and pharmaceuticals. Indian companies like Infosys and Wipro are powerful global players, while Western firms like G.E. and I.B.M. now have major research facilities in India employing thousands. India's seemingly endless flow of young, motivated engineers, scientists, and managers offering developed-world skills at developing-world wages is held to be putting American jobs at risk, and the country is frequently heralded as "the next economic superpower."

But India has run into a surprising hitch on its way to superpower status: its inexhaustible supply of workers is becoming exhausted. Although India has one of the youngest workforces on the planet, the head of Infosys said recently that there was an “acute shortage of skilled manpower,” and a study by Hewitt Associates projects that this year salaries for skilled workers will rise fourteen and a half per cent, a sure sign that demand for skilled labor is outstripping supply.

How is this possible in a country that every year produces two and a half million college graduates and four hundred thousand engineers? Start with the fact that just ten per cent of Indians get any kind of post-secondary education, compared with some fifty per cent who do in the U.S. Moreover, of that ten per cent, the vast majority go to one of India’s seventeen thousand colleges, many of which are closer to community colleges than to four-year institutions. India does have more than three hundred universities, but a recent survey by the London Times Higher Education Supplement put only two of them among the top hundred in the world. Many Indian graduates therefore enter the workforce with a low level of skills. A current study led by Vivek Wadhwa, of Duke University, has found that if you define “engineer” by U.S. standards, India produces just a hundred and seventy thousand engineers a year, not four hundred thousand. Infosys says that, of 1.3 million applicants for jobs last year, it found only two per cent acceptable.

There was a time when many economists believed that post- secondary education didn’t have much impact on economic growth. The really important educational gains, they thought, came from giving rudimentary skills to large numbers of people (which India still needs to do—at least thirty per cent of the population is illiterate). They believed that, in economic terms, society got a very low rate of return on its investment in higher education. But lately that assumption has been overturned, and the social rate of return on investment in university education in India has been calculated at an impressive nine or ten per cent. In other words, every dollar India puts into higher education creates value for the economy as a whole. Yet India spends roughly three and a half per cent of its G.D.P. on education, significantly below the percentage spent by the U.S., even though India’s population is much younger, and spending on education should be proportionately higher.

The irony of the current situation is that India was once considered to be overeducated. In the seventies, as its economy languished, it seemed to be a country with too many engineers and Ph.D.s working as clerks in government offices. Once the Indian business climate loosened up, though, that meant companies could tap a backlog of hundreds of thousands of eager, skilled workers at their disposal. Unfortunately, the educational system did not adjust to the new realities. Between 1985 and 1997, the number of teachers in India actually fell, while the percentage of students enrolled in high school or college rose more slowly than it did in the rest of the world. Even as the need for skilled workers was increasing, India was devoting relatively fewer resources to producing them. Since the Second World War, the countries that have made successful leaps from developing to developed status have all poured money, public and private, into education. South Korea now spends a higher percentage of its national income on education than nearly any other country in the world. Taiwan had a system of universal primary education before its phase of hypergrowth began. And, more recently, Ireland’s economic boom was spurred, in part, by an opening up and expansion of primary and secondary schools and increased funding for universities. Education will be all the more important for India’s well-being; the earlier generation of so-called Asian Tigers depended heavily on manufacturing, but India’s focus on services and technology will require a more skilled and educated workforce.

India has taken tentative steps to remedy its skills famine—the current government has made noises about doubling spending on education, and a host of new colleges and universities have sprung up since the mid-nineties. But India’s impressive economic performance has made the problem seem less urgent than it actually is, and allowed the government to defer difficult choices. (In a country where more than three hundred million people live on a dollar a day, producing college graduates can seem like a low priority.) Ultimately, the Indian government has to pull off a very tough trick, making serious changes at a time when things seem to be going very well. It needs, in other words, a clear sense of everything that can still go wrong. The paradox of the Indian economy today is that the more certain its glowing future seems to be, the less likely that future becomes

What does American jobs in the last line of the first paragraph of the passage imply?

Options:

- **(A)** `Jobs provided by American companies`
- **(B)** `Jobs held (or to be held) by American people`
- **(C)** `Jobs open to only American citizens`
- **(D)** `Jobs provided by the American government`

Correct Answer: (B) `Jobs held (or to be held) by American people`

PrepInsta Detailed Explanation & Mathematical Derivation:

```
It is given that - Jobs held (or to be held) by American people.
```

Question 3 (PrepInsta quiz-1 - Q3)

Question Stem:

The economic transformation of India is one of the great business stories of our time. As stifling government regulations have been lifted, entrepreneurship has flourished, and the country has become a high-powered center for information technology and pharmaceuticals. Indian companies like Infosys and Wipro are powerful global players, while Western firms like G.E. and I.B.M. now have major research facilities in India employing thousands. India’s seemingly endless flow of young, motivated engineers, scientists, and managers offering developed-world skills at developing-world wages is held to be putting American jobs at risk, and the country is frequently heralded as “the next economic superpower.”

But India has run into a surprising hitch on its way to superpower status: its inexhaustible supply of workers is becoming exhausted. Although India has one of the youngest workforces on the planet, the head of Infosys said recently that there was an “acute shortage of skilled manpower,” and a study by Hewitt Associates projects that this year salaries for skilled workers will rise fourteen and a half per cent, a sure sign that demand for skilled labor is outstripping supply.

How is this possible in a country that every year produces two and a half million college graduates and four hundred thousand engineers? Start with the fact that just ten per cent of Indians get any kind of post-secondary education, compared with some fifty per cent who do in the U.S. Moreover, of that ten per cent, the vast majority go to one of India’s seventeen thousand colleges, many of which are closer to community colleges than to four-year institutions. India does have more than three hundred universities, but a recent survey by the London Times Higher Education Supplement put only two of them among the top hundred in the world. Many Indian graduates therefore enter the workforce with a low level of skills. A current study led by Vivek Wadhwa, of Duke University, has found that if you define “engineer” by U.S. standards, India produces just a hundred and seventy thousand engineers a year, not four hundred thousand. Infosys says that, of 1.3 million applicants for jobs last year, it found only two per cent acceptable.

There was a time when many economists believed that post- secondary education didn’t have much impact on economic growth. The really important educational gains, they thought, came from giving rudimentary skills to large numbers of people (which India still needs to do—at least thirty per cent of the population is illiterate). They believed that, in economic terms, society got a very low rate of return on its investment in higher education. But lately that assumption has been overturned, and the social rate of return on investment in university education in India has been calculated at an impressive nine or ten per cent. In other words, every dollar India puts into higher education

creates value for the economy as a whole. Yet India spends roughly three and a half per cent of its G.D.P. on education, significantly below the percentage spent by the U.S., even though India's population is much younger, and spending on education should be proportionately higher.

The irony of the current situation is that India was once considered to be overeducated. In the seventies, as its economy languished, it seemed to be a country with too many engineers and Ph.D.s working as clerks in government offices. Once the Indian business climate loosened up, though, that meant companies could tap a backlog of hundreds of thousands of eager, skilled workers at their disposal. Unfortunately, the educational system did not adjust to the new realities. Between 1985 and 1997, the number of teachers in India actually fell, while the percentage of students enrolled in high school or college rose more slowly than it did in the rest of the world. Even as the need for skilled workers was increasing, India was devoting relatively fewer resources to producing them. Since the Second World War, the countries that have made successful leaps from developing to developed status have all poured money, public and private, into education. South Korea now spends a higher percentage of its national income on education than nearly any other country in the world. Taiwan had a system of universal primary education before its phase of hypergrowth began. And, more recently, Ireland's economic boom was spurred, in part, by an opening up and expansion of primary and secondary schools and increased funding for universities. Education will be all the more important for India's well-being; the earlier generation of so-called Asian Tigers depended heavily on manufacturing, but India's focus on services and technology will require a more skilled and educated workforce.

India has taken tentative steps to remedy its skills famine—the current government has made noises about doubling spending on education, and a host of new colleges and universities have sprung up since the mid-nineties. But India's impressive economic performance has made the problem seem less urgent than it actually is, and allowed the government to defer difficult choices. (In a country where more than three hundred million people live on a dollar a day, producing college graduates can seem like a low priority.) Ultimately, the Indian government has to pull off a very tough trick, making serious changes at a time when things seem to be going very well. It needs, in other words, a clear sense of everything that can still go wrong. The paradox of the Indian economy today is that the more certain its glowing future seems to be, the less likely that future becomes

According to the passage, why India does not have enough skilled labour?

Options:

- **(A)** `The total amount of young population is low`
- **(B)** `The total number of colleges are insufficient`
- **(C)** `Students do not want to study`
- **(D)** `Maximum universities and colleges do not match global standards.`

Correct Answer: (D) `Maximum universities and colleges do not match global standards.`

PrepInsta Detailed Explanation & Mathematical Derivation:

```
As in India Maximum universities and colleges do not match global standards.
```

Question 4 (PrepInsta quiz-1 - Q4)

Question Stem:

The economic transformation of India is one of the great business stories of our time. As stifling government regulations have been lifted, entrepreneurship has flourished, and the country has become a high-powered center for information technology and pharmaceuticals. Indian companies like Infosys and Wipro are powerful global players, while Western firms like G.E. and I.B.M. now have major research facilities in India employing thousands. India's seemingly endless flow of young, motivated engineers, scientists, and managers offering developed-world skills at developing-world wages is held to be putting American jobs at risk, and the country is frequently heralded as "the next economic superpower."

But India has run into a surprising hitch on its way to superpower status: its inexhaustible supply of workers is becoming exhausted. Although India has one of the youngest workforces on the planet, the head of Infosys said recently that there was an "acute shortage of skilled manpower," and a study by Hewitt Associates projects that this year salaries for skilled workers will rise fourteen and a half per cent, a sure sign that demand for skilled labor is outstripping supply.

How is this possible in a country that every year produces two and a half million college graduates and four hundred thousand engineers? Start with the fact that just ten per cent of Indians get any kind of post-secondary education, compared with some fifty per cent who do in the U.S. Moreover, of that ten per cent, the vast majority go to one of India's seventeen thousand colleges, many of which are closer to community colleges than to four-year institutions. Education will be all the more important for India's well-being; the earlier generation of so-called Asian Tigers depended heavily on manufacturing, but India's focus on services and technology will require a more skilled and educated workforce.

India has taken tentative steps to remedy its skills famine—the current government has made noises about doubling spending on education, and a host of new colleges and universities have sprung up since the mid-nineties. But India's impressive economic performance has made the problem seem less urgent than it actually is, and allowed the

government to defer difficult choices. (In a country where more than three hundred million people live on a dollar a day, producing college graduates can seem like a low priority.) Ultimately, the Indian government has to pull off a very tough trick, making serious changes at a time when things seem to be going very well. It needs, in other words, a clear sense of everything that can still go wrong. The paradox of the Indian economy today is that the more certain its glowing future seems to be, the less likely that future becomes

What can you infer as the meaning of stifling from the passage?

Options:
- **(A)** `Democratic`
- **(B)** `Liberal`
- **(C)** `Impeding`
- **(D)** `Undemocratic`

Correct Answer: (C) `Impeding`

PrepInsta Detailed Explanation & Mathematical Derivation:

```
The meaning of stifling is Impeding.
```

Question 5 (PrepInsta quiz-1 - Q5)

Question Stem:
The economic transformation of India is one of the great business stories of our time. As stifling government regulations have been lifted, entrepreneurship has flourished, and the country has become a high-powered center for information technology and pharmaceuticals. Indian companies like Infosys and Wipro are powerful global players, while Western firms like G.E. and I.B.M. now have major research facilities in India employing thousands. The paradox of the Indian economy today is that the more certain its glowing future seems to be, the less likely that future becomes

What is an appropriate title to the passage?

Options:
- **(A)** `Growing Indian Economy`
- **(B)** `Higher education in India`
- **(C)** `India's Skill Shortage`
- **(D)** `Entrepreneurship in India`

Correct Answer: (C) `India's Skill Shortage`

PrepInsta Detailed Explanation & Mathematical Derivation:

```
As per the facts of passage the best title will be - India's Skill Shortage.
```

Question 6 (PrepInsta quiz-1 - Q6)

Question Stem:
The economic transformation of India is one of the great business stories of our time. As stifling government regulations have been lifted, entrepreneurship has flourished, and the country has become a high-powered center for information technology and pharmaceuticals. Indian companies like Infosys and Wipro are powerful global players, while Western firms like G.E. and I.B.M. now have major research facilities in India employing thousands. India's seemingly endless flow of young, motivated engineers, scientists, and managers offering developed-world skills at developing-world wages is held to be putting American jobs at risk, and the country is frequently heralded as "the next economic superpower."

But India has run into a surprising hitch on its way to superpower status: its inexhaustible supply of workers is becoming exhausted. Although India has one of the youngest workforces on the planet, the head of Infosys said recently that there was an "acute shortage of skilled manpower," and a study by Hewitt Associates projects that this year salaries for skilled workers will rise fourteen and a half per cent, a sure sign that demand for skilled labor is outstripping supply.

How is this possible in a country that every year produces two and a half million college graduates and four hundred thousand engineers? Start with the fact that just ten per cent of Indians get any kind of post-secondary education, compared with some fifty per cent who do in the U.S. Moreover, of that ten per cent, the vast majority go to one of India's seventeen thousand colleges, many of which are closer to community colleges than to four-year institutions. India does have more than three hundred universities, but a recent survey by the London Times Higher Education Supplement put only two of them among the top hundred in the world. Many Indian graduates therefore enter the workforce with a low level of skills. A current study led by Vivek Wadhwa, of Duke University, has found that if you define "engineer" by U.S. standards, India produces just a hundred and seventy thousand engineers a year, not four hundred thousand. Infosys says that, of 1.3 million applicants for jobs last year, it found only two per cent acceptable.

There was a time when many economists believed that post- secondary education didn't have much impact on economic growth. The really important educational gains, they thought, came from giving rudimentary skills to large numbers of people (which India still needs to do—at least thirty per cent of the population is illiterate). They believed that, in economic terms, society got a very low rate of return on its investment in higher education. But lately that assumption has been overturned, and the social rate of return on investment in university education in India has been calculated at an impressive nine or ten per cent. In other words, every dollar India puts into higher education creates value for the economy as a whole. Yet India spends roughly three and a half per cent of its G.D.P. on education, significantly below the percentage spent by the U.S., even though India's population is much younger, and spending on education should be proportionately higher.

The irony of the current situation is that India was once considered to be overeducated. In the seventies, as its economy languished, it seemed to be a country with too many engineers and Ph.D.s working as clerks in government offices. Once the Indian business climate loosened up, though, that meant companies could tap a backlog of hundreds of thousands of eager, skilled workers at their disposal. Unfortunately, the educational system did not adjust to the new realities. Between 1985 and 1997, the number of teachers in India actually fell, while the percentage of students enrolled in high school or college rose more slowly than it did in the rest of the world. Even as the need for skilled workers was increasing, India was devoting relatively fewer resources to producing them. Since the Second World War, the countries that have made successful leaps from developing to developed status have all poured money, public and private, into education. South Korea now spends a higher percentage of its national income on education than nearly any other country in the world. Taiwan had a system of universal primary education before its phase of hypergrowth began. And, more recently, Ireland's economic boom was spurred, in part, by an opening up and expansion of primary and secondary schools and increased funding for universities. Education will be all the more important for India's well-being; the earlier generation of so-called Asian Tigers depended heavily on manufacturing, but India's focus on services and technology will require a more skilled and educated workforce.

India has taken tentative steps to remedy its skills famine—the current government has made noises about doubling spending on education, and a host of new colleges and universities have sprung up since the mid-nineties. But India's impressive economic performance has made the problem seem less urgent than it actually is, and allowed the government to defer difficult choices. (In a country where more than three hundred million people live on a dollar a day, producing college graduates can seem like a low priority.) Ultimately, the Indian government has to pull off a very tough trick, making serious changes at a time when things seem to be going very well. It needs, in other words, a clear sense of everything that can still go wrong. The paradox of the Indian economy today is that the more certain its glowing future seems to be, the less likely that future becomes

In the third sentence of the third paragraph of the passage, the phrase closer to community colleges is used. What does it imply?

Options:
- **(A)** `Near to community colleges`
- **(B)** `Like community colleges`
- **(C)** `Close association to community colleges`
- **(D)** `None of these`

Correct Answer: (B) `Like community colleges`

PrepInsta Detailed Explanation & Mathematical Derivation:

```
It implies that - Like community colleges.
```

Question 7 (PrepInsta quiz-1 - Q7)

Question Stem:
The economic transformation of India is one of the great business stories of our time. As stifling government regulations have been lifted, entrepreneurship has flourished, and the country has become a high-powered center for information technology and pharmaceuticals. Indian companies like Infosys and Wipro are powerful global players, while Western firms like G.E. and I.B.M. now have major research facilities in India employing thousands. India's seemingly endless flow of young, motivated engineers, scientists, and managers offering developed-world skills at developing-world wages is held to be putting American jobs at risk, and the country is frequently heralded as "the next economic superpower."

But India has run into a surprising hitch on its way to superpower status: its inexhaustible supply of workers is becoming exhausted. Although India has one of the youngest workforces on the planet, the head of Infosys said recently that there was an "acute shortage of skilled manpower," and a study by Hewitt Associates projects that this year salaries for skilled workers will rise fourteen and a half per cent, a sure sign that demand for skilled labor is outstripping supply.

How is this possible in a country that every year produces two and a half million college graduates and four hundred thousand engineers? Start with the fact that just ten per cent of Indians get any kind of post-secondary education, compared with some fifty per cent who do in the U.S. Moreover, of that ten per cent, the vast majority go to one of India's seventeen thousand colleges, many of which are closer to community colleges than to four-year institutions. India does have more than three hundred universities, but a recent survey by the London Times Higher Education Supplement put only two of them among the top hundred in the world. Many Indian graduates therefore enter the workforce with a low level of skills. A current study led by Vivek Wadhwa, of Duke University, has found that if you define "engineer" by U.S. standards, India produces just a hundred and seventy thousand engineers a year, not four hundred thousand. Infosys says that, of 1.3 million applicants for jobs last year, it found only two per cent acceptable.

There was a time when many economists believed that post- secondary education didn't have much impact on economic growth. The really important educational gains, they thought, came from giving rudimentary skills to large numbers of people (which India still needs to do—at least thirty per cent of the population is illiterate). They believed that, in economic terms, society got a very low rate of return on its investment in higher education. But lately that assumption has been overturned, and the social rate of return on investment in university education in India has been calculated at an impressive nine or ten per cent. In other words, every dollar India puts into higher education creates value for the economy as a whole. Yet India spends roughly three and a half per cent of its G.D.P. on education, significantly below the percentage spent by the U.S., even though India's population is much younger, and spending on education should be proportionately higher.

The irony of the current situation is that India was once considered to be overeducated. In the seventies, as its economy languished, it seemed to be a country with too many engineers and Ph.D.s working as clerks in government offices. Once the Indian business climate loosened up, though, that meant companies could tap a backlog of hundreds of thousands of eager, skilled workers at their disposal. Unfortunately, the educational system did not adjust to the new realities. Between 1985 and 1997, the number of teachers in India actually fell, while the percentage of students enrolled in high school or college rose more slowly than it did in the rest of the world. Even as the need for skilled workers was increasing, India was devoting relatively fewer resources to producing them. Since the Second World War, the countries that have made successful leaps from developing to developed status have all poured money, public and private, into education. South Korea now spends a higher percentage of its national income on education than nearly any other country in the world. Taiwan had a system of universal primary education before its phase of hypergrowth began. And, more recently, Ireland's economic boom was spurred, in part, by an opening up and expansion of primary and secondary schools and increased funding for universities. Education will be all the more important for India's well-being; the earlier generation of so-called Asian Tigers depended heavily on manufacturing, but India's focus on services and technology will require a more skilled and educated workforce.

India has taken tentative steps to remedy its skills famine—the current government has made noises about doubling spending on education, and a host of new colleges and universities have sprung up since the mid-nineties. But India's impressive economic performance has made the problem seem less urgent than it actually is, and allowed the government to defer difficult choices. (In a country where more than three hundred million people live on a dollar a day, producing college graduates can seem like a low priority.) Ultimately, the Indian government has to pull off a very tough trick, making serious changes at a time when things seem to be going very well. It needs, in other words, a clear sense of everything that can still go wrong. The paradox of the Indian economy today is that the more certain its glowing future seems to be, the less likely that future becomes

According to the passage, what is the paradox of the Indian economy today?

Options:
- **(A)** `The economic progress is impressive, but the poor (earning one dollar per day) are not benefited.`
- **(B)** `The economic progress is impressive disallowing the government to take tough decisions.`
- **(C)** `There is not enough skilled workforce and the government does not realize this.`
- **(D)** `Government is not ready to invest in setting up new universities.`

Correct Answer: (B) `The economic progress is impressive disallowing the government to take tough decisions.`

PrepInsta Detailed Explanation & Mathematical Derivation:

```
As given in passage it is -  The economic progress is impressive disallowing the government to take tough decisions.
```

Question 8 (PrepInsta quiz-1 - Q8)

Question Stem:
The economic transformation of India is one of the great business stories of our time. As stifling government regulations have been lifted, entrepreneurship has flourished, and the country has become a high-powered center for information technology and pharmaceuticals. Indian companies like Infosys and Wipro are powerful global players, while Western firms like G.E. and I.B.M. now have major research facilities in India employing thousands. India's seemingly endless flow of young, motivated engineers, scientists, and managers offering developed-world skills at developing-world wages is held to be putting American jobs at risk, and the country is frequently heralded as "the next economic superpower."

But India has run into a surprising hitch on its way to superpower status: its inexhaustible supply of workers is becoming exhausted. Although India has one of the youngest workforces on the planet, the head of Infosys said recently that there was an "acute shortage of skilled manpower," and a study by Hewitt Associates projects that this year salaries for skilled workers will rise fourteen and a half per cent, a sure sign that demand for skilled labor is outstripping supply.

How is this possible in a country that every year produces two and a half million college graduates and four hundred thousand engineers? Start with the fact that just ten per cent of Indians get any kind of post-secondary education, compared with some fifty per cent who do in the U.S. Moreover, of that ten per cent, the vast majority go to one of India's seventeen thousand colleges, many of which are closer to community colleges than to four-year institutions. India does have more than three hundred universities, but a recent survey by the London Times Higher Education Supplement put only two of them among the top hundred in the world. Many Indian graduates therefore enter the workforce with a low level of skills. A current study led by Vivek Wadhwa, of Duke University, has found that if you define "engineer" by U.S. standards, India produces just a hundred and seventy thousand engineers a year, not four hundred thousand. Infosys says that, of 1.3 million applicants for jobs last year, it found only two per cent acceptable.

There was a time when many economists believed that post- secondary education didn't have much impact on economic growth. The really important educational gains, they thought, came from giving rudimentary skills to large numbers of people (which India still needs to do—at least thirty per cent of the population is illiterate). They believed that, in economic terms, society got a very low rate of return on its investment in higher education. But lately that assumption has been overturned, and the social rate of return on investment in university education in India has been calculated at an impressive nine or ten per cent. In other words, every dollar India puts into higher education creates value for the economy as a whole. Yet India spends roughly three and a half per cent of its G.D.P. on education, significantly below the percentage spent by the U.S., even though India's population is much younger, and spending on education should be proportionately higher.

The irony of the current situation is that India was once considered to be overeducated. In the seventies, as its economy languished, it seemed to be a country with too many engineers and Ph.D.s working as clerks in government offices. Once the Indian business climate loosened up, though, that meant companies could tap a backlog of hundreds

of thousands of eager, skilled workers at their disposal. Unfortunately, the educational system did not adjust to the new realities. Between 1985 and 1997, the number of teachers in India actually fell, while the percentage of students enrolled in high school or college rose more slowly than it did in the rest of the world. Even as the need for skilled workers was increasing, India was devoting relatively fewer resources to producing them. Since the Second World War, the countries that have made successful leaps from developing to developed status have all poured money, public and private, into education. South Korea now spends a higher percentage of its national income on education than nearly any other country in the world. Taiwan had a system of universal primary education before its phase of hypergrowth began. And, more recently, Ireland's economic boom was spurred, in part, by an opening up and expansion of primary and secondary schools and increased funding for universities. Education will be all the more important for India's well-being; the earlier generation of so-called Asian Tigers depended heavily on manufacturing, but India's focus on services and technology will require a more skilled and educated workforce.

India has taken tentative steps to remedy its skills famine—the current government has made noises about doubling spending on education, and a host of new colleges and universities have sprung up since the mid-nineties. But India's impressive economic performance has made the problem seem less urgent than it actually is, and allowed the government to defer difficult choices. (In a country where more than three hundred million people live on a dollar a day, producing college graduates can seem like a low priority.) Ultimately, the Indian government has to pull off a very tough trick, making serious changes at a time when things seem to be going very well. It needs, in other words, a clear sense of everything that can still go wrong. The paradox of the Indian economy today is that the more certain its glowing future seems to be, the less likely that future becomes

Why are salaries for skilled workers rising?

Options:
- **(A)** `Companies are paying hire to lure skilled people to jobs`
- **(B)** `American companies are ready to pay higher to skilled workers.`
- **(C)** `Entrepreneurship is growing in India.`
- **(D)** `There is not enough skilled workers, while the demand for them is high.`

Correct Answer: (D) `There is not enough skilled workers, while the demand for them is high.`

PrepInsta Detailed Explanation & Mathematical Derivation:

```
The reason for this is there is not enough skilled workers, while the demand for them is high.
```

Question 9 (PrepInsta quiz-1 - Q9)

Question Stem:
Read the following passage and answer the following questions :

If a person suddenly encounters any terrible danger, the change of nature one undergoes is equally great. Sometimes fear numbs our senses. Like animals, one stands still, powerless to move a step in fright or to lift a hand in defense of our lives, and sometimes one is seized with panic, and again, act more like the inferior animals than rational beings. On the other hand, frequently in cases of sudden extreme peril, which cannot be escaped by flight, and must be instantly faced, even the most timid men at once as if by miracle, become possessed of the necessary courage, sharp quick apprehension and swift decision. This is a miracle very common in nature. Man and the inferior animals alike, when confronted with almost certain death ' gather resolution from despair' but there can really be no trace of so debilitating a feeling in the person fighting, or prepared to fight for dear life. At such times the mind is clearer than it has ever been; the nerves are steel, there is nothing felt but a wonderful strength and daring. Looking back at certain perilous moments in my own life, I remember them with a kind of joy, not that there was any joyful excitement then, but because they broadened my horizon, lifted me for a time above myself.

The title that best suits the passage would be:-

Options:
- **(A)** `The Will to Fight`
- **(B)** `The Miracle of Confronting Danger`
- **(C)** `The Change of Nature`
- **(D)** `Courage and Panic`

Correct Answer: (B) `The Miracle of Confronting Danger`

PrepInsta Detailed Explanation & Mathematical Derivation:

```
The best title for given passage is - The Miracle of Confronting Danger.
```

Question 10 (PrepInsta quiz-1 - Q10)

Question Stem:
If a person suddenly encounters any terrible danger, the change of nature one undergoes is equally great. Sometimes fear numbs our senses. Like animals, one stands still, powerless to move a step in fright or to lift a hand in defense of our lives, and sometimes one is seized with panic, and again, act more like the inferior animals than rational beings. On the other hand, frequently in cases of sudden extreme peril, which cannot be escaped by flight, and must be instantly faced, even the most timid men at once as if by miracle, become possessed of the necessary courage, sharp quick apprehension and swift decision. This is a miracle very common in nature. Man and the inferior animals alike, when confronted with almost certain death ' gather resolution from despair' but there can really be no trace of so debilitating a feeling in the person fighting, or prepared to fight for dear life. At such times the mind is clearer than it has ever been; the nerves are steel, there is nothing felt but a wonderful strength and daring. Looking back at certain perilous moments in my own life, I remember them with a kind of joy, not that there was any joyful excitement then, but because they broadened my horizon, lifted me for a time above myself.

A man may react to sudden danger in three different ways . What are they?

Options:
- **(A)** `He may flee in panic, or fight back or stand still`

- **(B)** `He may be paralyzed with fear, seized with panic or act like an inferior animal.`
- **(C)** `He may be paralyzed with fear, or seized with panic, or as if by miracle, become possessed of the necessary courage, and face the danger.`
- **(D)** `He may be paralyzed with fear, run away or fight.`

Correct Answer: (C) `He may be paralyzed with fear, or seized with panic, or as if by miracle, become possessed of the necessary courage, and face the danger.`

PrepInsta Detailed Explanation & Mathematical Derivation:

```
The three types are as - He may be paralyzed with fear, or seized with panic, or as if by miracle, become possessed of the necessary courage, and face t
```

5.3 Master Reading Comprehension Passages & Analytical Question Bank

---

Strategic Methodology: The Infosys Reading Comprehension Engine

Reading Comprehension in Infosys SE evaluates critical reading speed, inferential deduction, central idea synthesis, and vocabulary-in-context under stringent time constraints (typically 2 passages of 400-600 words each, accompanied by 5 to 8 questions each).

The 4 Core Question Taxonomies

1. **Factual / Direct Retrieval Questions**: Requiring pinpoint location of explicit facts, dates, names, or metrics in the text.
2. **Inferential / Deductive Questions**: Probing what is logically implied but not explicitly stated ("*It can be inferred from the second paragraph that...*").
3. **Central Idea & Author's Tone / Primary Purpose**: Determining the overarching thesis (*Analytical, Cynical, Objective, Laudatory, Skeptical, Didactic*).
4. **Vocabulary-in-Context & Tone Indicators**: Unpacking specific metaphorical or technical usage within the passage.

Below is the definitive, unabridged archive of all reading comprehension passages, complete textual plates, associated multiple-choice questions, and forensic rationales extracted across all preparation vaults.

Part 1: CampusMonk Premier Reading Comprehension Vault

Problem 001 (ID: `SEC0405_RC_P1_Q01`)

- **Source Module**: `Live _ Infosys Previous year / Practice Sets`
- **Source File**: `Reading Comprehension2311.pdf`
- **Topic Domain**: **Reading Comprehension: AI & Workforce Transformation**

Question Statement

Read the passage and answer the question below:

[Passage Excerpt]:
The adoption of Artificial Intelligence (AI) across industries has transformed operational workflows and decision-making processes. While AI can automate routine tasks, reduce human error, and increase efficiency, its integration raises significant ethical and practical concerns. Critics argue that AI can inadvertently perpetuate biases present in training data, leading to unfair outcomes. Furthermore, rapid automation may render certain job roles obsolete, necessitating workforce reskilling. Proponents, however, contend that AI augments human capabilities rather than replacing them, allowing employees to focus on strategic, creative, and interpersonal functions that machines cannot replicate. Organizations that successfully implement AI balance technological innovation with employee empowerment, cultivating an adaptive, forward-thinking culture.

Question:
The primary purpose of the passage is to:

Options

- A. Advocate for the unconditional replacement of humans by AI systems.
- B. Discuss both the advantages and ethical/workforce challenges of AI integration.
- C. Critique machine learning algorithms for inherent statistical biases.
- D. Recommend that companies halt technological automation immediately.

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `B. Discuss both the advantages and ethical/workforce challenges of AI integration.`

Grammatical Rule, Lexical Analysis & Detailed Proof

Paragraph Reference: The passage explicitly explores both dimensions: benefits ('automate routine tasks, reduce human error, increase efficiency') and challenges ('ethical and practical concerns, job displacement, training bias'). Thus, Option B accurately identifies the primary objective.

Proponents, however, contend that AI augments human capabilities rather than replacing them, allowing employees to focus on strategic, creative, and interpersonal functions that machines cannot replicate. Organizations that successfully implement AI balance technological innovation with employee empowerment, cultivating an adaptive, forward-thinking culture.

Question:
According to the passage, proponents of AI argue that technology:

Options

- A. Completely eliminates the need for organizational leadership.
- B. Solves all ethical challenges without human intervention.
- C. Augments human capabilities rather than replacing them entirely.
- D. Forces workers to take lower-paying roles.

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `C. Augments human capabilities rather than replacing them entirely.`

Grammatical Rule, Lexical Analysis & Detailed Proof

- **Topic Domain**: **Reading Comprehension: AI & Workforce Transformation**

Question Statement

Read the passage and answer the question below:

[Passage Excerpt]:
The adoption of Artificial Intelligence (AI) across industries has transformed operational workflows and decision-making processes. While AI can automate routine tasks, reduce human error, and increase efficiency, its integration raises significant ethical and practical concerns. Critics argue that AI can inadvertently perpetuate biases present in training data, leading to unfair outcomes. Furthermore, rapid automation may render certain job roles obsolete, necessitating workforce reskilling. Proponents, however, contend that AI augments human capabilities rather than replacing them, allowing employees to focus on strategic, creative, and interpersonal functions that machines cannot replicate. Organizations that successfully implement AI balance technological innovation with employee empowerment, cultivating an adaptive, forward-thinking culture.

Question:
Which of the following is cited as a major risk of AI in the workplace?

Options

- A. Insufficient processing speeds in cloud servers.
- B. Perpetuation and amplification of biases present in training data.
- C. Inability of computers to store vast historical datasets.

- D. Immediate bankruptcy of manufacturing industries.

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `B. Perpetuation and amplification of biases present in training data.`

Grammatical Rule, Lexical Analysis & Detailed Proof

Paragraph Reference: 'Critics argue that AI can inadvertently perpetuate biases present in training data, leading to unfair outcomes.'

Problem 004 (ID: `SEC0405_RC_P1_Q04`)

- **Source Module**: `Live _ Infosys Previous year / Practice Sets`
- **Source File**: `Reading Comprehension2311.pdf`
- **Topic Domain**: **Reading Comprehension: AI & Workforce Transformation**

Question Statement

Read the passage and answer the question below:

[Passage Excerpt]:
The adoption of Artificial Intelligence (AI) across industries has transformed operational workflows and decision-making processes. While AI can automate routine tasks, reduce human error, and increase efficiency, its integration raises significant ethical and practical concerns. Critics argue that AI can inadvertently perpetuate biases present in training data, leading to unfair outcomes. Furthermore, rapid automation may render certain job roles obsolete, necessitating workforce reskilling. Proponents, however, contend that AI augments human capabilities rather than replacing them, allowing employees to focus on strategic, creative, and interpersonal functions that machines cannot replicate. Organizations that successfully implement AI balance technological innovation with employee empowerment, cultivating an adaptive, forward-thinking culture.

Question:
What does the word 'obsolete' most nearly mean as used in the passage?

Options

- A. Highly esteemed and sought-after.
- B. No longer produced or used; out of date.
- C. Technologically superior.
- D. Inherently expensive.

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `B. No longer produced or used; out of date.`

Grammatical Rule, Lexical Analysis & Detailed Proof

Vocabulary in Context: 'render certain job roles obsolete' means that automation makes those routine positions outdated or no longer needed.

Problem 006 (ID: `SEC0405_RC01_Q01`)

- **Source Module**: `Module 3_ Reading Comprehension`
- **Source File**: `VERBAL ABILITY_RC 01_QUESTIONS.json`
- **Topic Domain**: **Reading Comprehension: Passage Analysis & Contextual Inference**

Question Statement

Directions (01- 10): Read the following passage carefully and answer the questions given below it. Certain words are given in bold to help you locate them while answering some of the questions.
When we are children growing up, our imagination is the key to untold worlds. And it has been shown that kids with very active imaginations are more likely to dream and strive for greater things as adults. It is a sad fact that all too often, as we grow up, we are told to “get our heads out of the clouds”, to "stop daydreaming", and that living in an imaginary world is not good for us. But stifling your imagination is the worst thing you can do to yourself, as it will only pave the way for accelerated aging, and all too often a life that feels unfulfilled.
Though many take creativity for granted, it is a trait not possessed by everyone. Many people are labelled as primarily “right brained” or “left brained” (if such a thing exists): It is argued that highly intellectual, logical types are less likely to be creative, have less wild imaginations and are typically rule followers who do not believe in much of anything that cannot be logically quantified. Regardless of the left brain / right brain argument, imagination unleashes creativity, allowing you to live a life filled with potential. The creative individual does not see the sky as the limit, instead the limit is as far as he or she can imagine. They not only think outside the box, for them there is no box, and so their brains are constantly challenged, humming and conjuring up all sorts of goodies. Anything the mind can conjure is good enough to become true, be it work, life, personal goals accomplishments or anything. A very good trait to cultivate from childhood.
Empathy is the act of being truly sympathetic to another person, without ever actually experiencing what they are going through yourself. Sadly, many people do not know how to express empathy, and the reason for this is simple; it is not because that person is a bad individual, or mean spirited. It simply means that individual cannot imagine the feelings of the person experiencing a particular event, and thus cannot truly relate. Your imagination may leave you in a good position to offer a shoulder for comfort and support, as you are able to envision going through the same thing as the person suffering, and thus able to demonstrate what you think a person needs at that time. Being of service towards other people in that way, promotes your own mental health and emotional well being.
Those brain connections are a part of what makes you who you are, and forming new connections supports memory functions and keeps the brain vibrant and strong. Your imagination can be a useful tool for strengthening these connections, in order to form long-term memories. Here are two explanations of how memory works; an intellectual will harness and strengthen memory by repetition. Studying work day after day enhances these connections bit by bit, or via physical practice. On the other hand, someone who uses their imagination may know something well, and be able to recall everything without seeming to make an effort. Take for example planning for their wedding. Years and years beforehand, that person could have meticulously planned and imagined their dream wedding, so that when the actual time comes, the planning step and what they want pops up like clockwork.
Q1. What, according to the passage, is/are the disadvantage(s) of constraining the children to be realistic and not imaginative?
(I) it will lead to an unfulfilled life.
(II) They lack empathy
(III) It limits the growth of their brain

Options

- Only (I)
- Only (II)
- Both (I) and (II)
- Both (II) and (III)
- All

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `Both (I) and (II)`

Grammatical Rule, Lexical Analysis & Detailed Proof

Refer the last few lines of first paragraph "But stifling your imagination is the worst thing you can do to yourself, as it will only pave the way for accelerated aging, and all too often a life that feels unfulfilled." Hence option (c) is the correct choice.

Many people are labelled as primarily “right brained” or “left brained” (if such a thing exists): It is argued that highly intellectual, logical types are less likely to be creative, have less wild imaginations and are typically rule followers who do not believe in much of anything that cannot be logically quantified. Regardless of the left brain / right brain argument, imagination unleashes creativity, allowing you to live a life filled with potential. The creative individual does not see the sky as the limit, instead the limit is as far as he or she can imagine. They not only think outside the box, for them there is no box, and so their brains are constantly challenged, humming and conjuring up all sorts of goodies. Anything the mind can conjure is good enough to become true, be it work, life, personal goals accomplishments or anything. A very good trait to cultivate from childhood.
Empathy is the act of being truly sympathetic to another person, without ever actually experiencing what they are going through yourself. Sadly, many people do not know how to express empathy, and the reason for this is simple; it is not because that person is a bad individual, or mean spirited. It simply means that individual cannot imagine the feelings of the person experiencing a particular event, and thus cannot truly relate. Your imagination may leave you in a good position to offer a shoulder for comfort and support, as you are able to envision going through the same thing as the person suffering, and thus able to demonstrate what you think a person needs at that time. Being of service towards other people in that way, promotes your own mental health and emotional well being.
Those brain connections are a part of what makes you who you are, and forming new connections supports memory functions and keeps the brain vibrant and strong. Your imagination can be a useful tool for strengthening these connections, in order to form long-term memories. Here are two explanations of how memory works; an intellectual will harness and strengthen memory by repetition. Studying work day after day enhances these connections bit by bit, or via physical practice. On the other hand, someone who uses their imagination may know something well, and be able to recall everything without seeming to make an effort. Take for example planning for their wedding. Years and years beforehand, that person could have meticulously planned and imagined their dream wedding, so that when the actual time comes, the planning step and what they want pops up like clockwork.
Q2. “Imagination unleashes Creativity”. Justify.

Options

- They become sympathetic.
- They (imaginative people) believe in things that can not be logically quantified.
- They (imaginative people) set their own limit.
- It protects us from day dreaming
- All are correct

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `They (imaginative people) set their own limit.`

Grammatical Rule, Lexical Analysis & Detailed Proof

Refer second paragraph of the passage " The creative individual does not see the sky as the limit, instead the limit is as far as he or she can imagine. They not only think outside the box, for them there is no box, and so their brains are constantly challenged, humming and conjuring up all sorts of goodies". Other options are incorrect and not true or definite.

- **Source Module**: `Module 3_ Reading Comprehension`
- **Source File**: `VERBAL ABILITY_RC 01_QUESTIONS.json`
- **Topic Domain**: **Reading Comprehension: Passage Analysis & Contextual Inference**

Question Statement

Directions (01- 10): Read the following passage carefully and answer the questions given below it. Certain words are given in bold to help you locate them while answering some of the questions.
When we are children growing up, our imagination is the key to untold worlds. And it has been shown that kids with very active imaginations are more likely to dream and strive for greater things as adults. It is a sad fact that all too often, as we grow up, we are told to “get our heads out of the clouds”, to "stop daydreaming", and that living in an imaginary world is not good for us. But stifling your imagination is the worst thing you can do to yourself, as it will only pave the way for accelerated aging, and all too often a life that feels unfulfilled.
Though many take creativity for granted, it is a trait not possessed by everyone. Many people are labelled as primarily “right brained” or “left brained” (if such a thing exists): It is argued that highly intellectual, logical types are less likely to be creative, have less wild imaginations and are typically rule followers who do not believe in much of anything that cannot be logically quantified. .
Q3. According to the passage, how can a person express empathy?

Options

- by not being mean spirited
- by visualising or imagining the same suffering as others.
- By giving some time to them
- Both (a) and (b)
- All are correct

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `by visualising or imagining the same suffering as others.`

Grammatical Rule, Lexical Analysis & Detailed Proof

Refer the third paragraph of the passage "our imagination may leave you in a good position to offer a shoulder for comfort and support, as you are able to envision going through the same thing as the person suffering." Hence option (b) is the correct choice.

Q4. Which of the following is an appropriate title of the passage?

Options

- Harmful effects of stiflings the imagination
- The power of using your imagination
- Expressing empathy
- Imagination and creativity
- Imagining beyond the limit of the sky.

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `The power of using your imagination`

Grammatical Rule, Lexical Analysis & Detailed Proof

" The power of using your imagination" is an appropriate title of the passage as the passage revolves around the theme of advantages of being imaginative.

Years and years beforehand, that person could have meticulously planned and imagined their dream wedding, so that when the actual time comes, the planning step and what they want pops up like clockwork.
Q6. How imagination can be a useful tool in strengthening the brain connections?

Options

- By using various means of imagination to communicate for strengthening the connections.
- As it helps us to interact day after day which can help them in strengthening the connections.
- As it becomes easier to recollect
- Both (a) and (c)
- All are correct

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `As it becomes easier to recollect`

Grammatical Rule, Lexical Analysis & Detailed Proof

Refer the last paragraph of the passage "On the other hand, someone who uses their imagination may know something well, and be able to recall everything without seeming to make an effort." Recollect means to remember and is similar in meaning to recall. Hence option (c) is the correct choice.

Q7. Choose the word/group of words which is most SIMILAR in meaning to the word/group of words printed in bold as used in passage.
Conjure

Options

- fatuous
- adjure
- abstruse
- dogmatic
- abject

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `adjure`

Grammatical Rule, Lexical Analysis & Detailed Proof

Conjure means implore (someone) to do something. Hence it has same meaning as adjure. Abject means of the most contemptible kind. Abstruse means difficult to penetrate. Dogmatic means pertaining to a code of beliefs accepted as authoritative.

Quantified

Options

- extraneous
- incumbent
- appraise
- Inchoate
- Expiate

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `appraise`

Grammatical Rule, Lexical Analysis & Detailed Proof

Quantified means express or measure the quantity of. Hence it has same meaning as appraise. Extraneous means not belonging to that in which it is contained. Expiate means make amends for. Incumbent means necessary as a duty or responsibility, morally binding.

Studying work day after day enhances these connections bit by bit, or via physical practice. On the other hand, someone who uses their imagination may know something well, and be able to recall everything without seeming to make an effort. Take for example planning for their wedding. Years and years beforehand, that person could have meticulously planned and imagined their dream wedding, so that when the actual time comes, the planning step and what they want pops up like clockwork.
Q10. Choose the word/group of words which is most OPPOSITE in meaning to the word/group of words printed in bold as used in passage.
Envision

Options

- pithy
- scurrilous
- requisition
- pernicious
- disregard

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `disregard`

Grammatical Rule, Lexical Analysis & Detailed Proof

Envision means imagine as a future possibility, visualize.. Hence it has opposite meaning as disregard. Pernicious means exceedingly harmful. Pithy means concise and full of meaning. Requisition means an authoritative request or demand

- **Topic Domain**: **Reading Comprehension: Passage Analysis & Contextual Inference**

Question Statement

Directions (11-15): Read each sentence to find out whether there is any grammatical or idiomatic error in it. The error, if any, will be in one part of the sentence. The number of that part is the answer. If there is 'No error', the answer is (e). (Ignore errors of punctuation, if any.)
Q11. As soon as we (A)/enter the hotel the (B)/Manager welcomes us and (C)/took us to the table. (D)/No Error (E)

Options

- A
- B
- C
- D
- E

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `D`

Grammatical Rule, Lexical Analysis & Detailed Proof

'takes' will be used in place of 'took' as the sentence is in present tense.

- **Source Module**: `Module 3_ Reading Comprehension`
- **Source File**: `VERBAL ABILITY _RC 02_QUESTIONS.json`
- **Topic Domain**: **Reading Comprehension: Passage Analysis & Contextual Inference**

Question Statement

Directions (1-5): Read the given passage and answer the following questions based on the passage.
For almost two decades, the Central Ground Water Board (CGWB) has been reporting on the increasing number of over-exploited blocks across India, the 'dark' category blocks. The recent annual book of CGWB has reported 1,034 units, out of the 6,584 units it monitors, as over-exploited. If this is the 'crisis', then we have had it for long. What has this not received enough attention? Is it because these zones are not in cities?
Just to be sure how critical the 'crisis' is, CGWB's 2013 estimates say that the groundwater development in India is just about 62% of the utilisable groundwater reserves. Similarly, a recent report by the Central Water Commission, prepared in collaboration with the Indian Space Research Organisation (ISRO), asserted that India is not yet in "water scarcity condition". But it is certainly in a "water-stressed condition", with reducing per capita water availability. Here, we certainly don't mean to say that India can continue with the present ways of water management. We also cannot remain in a state of denial that a crisis is not in the making. However, certain steps need to be taken to ensure a more useful and productive discourse about water governance challenges.
First, India needs to reconsider the institutional processes for dissemination of knowledge about water resource management. There is a certain amount of danger inherent in the casual manner in which knowledge about water resources is legitimised and consumed, particularly in these days of 'viral' information.
Second, we need to recognise the crisis is not as much of scarcity as of delivery. The challenge is to ensure an adequate access to quality water, more so in urban areas where inequities over space and time are acute. We need to also realise that with the country's rapid urbanisation, demand cannot be met by groundwater reserves alone. For instance, according to the Delhi Jal Board estimates, groundwater meets just 10% of Delhi's drinking water needs. The rest is met by surface water sources, most of it transported from outside Delhi. The urban needs, which underpin much reporting on 'water crises', need to be met by robust long-term planning and preparation for droughts and other contingencies.
Finally, we need to reconsider our approaches to water governance. We must recognise that the fulcrum of change and action is with the States. For long, water resource

departments in States have continued to follow the conventional approaches of supply augmentation. The challenge is that of reorienting themselves towards deploying strategies of demand management, conservation and regulation. The Centre has to work with States towards an institutional change for the necessary course-shift. The Finance Minister, in her budget, repeatedly stated that the government will work with States to address India's national water security challenges. Let us hope that the government intends to _____ (A) federal governance of water resources towards long-term water security.
Q1. What could be the appropriate title of this passage?

Options

- Water crisis
- water crisis: Inadequate rainfall
- Preserving water
- Water governance strategies
- None of These

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `Water governance strategies`

Grammatical Rule, Lexical Analysis & Detailed Proof

Refer to the last and second last paragraph of this passage, it states that crisis of water is not due to scarcity but it is due to lack of preservation measures for delivering the same. As only groundwater is not sufficient due to expanding urbanisation, there needs to be long term planning and alongside staying prepared for drought. Also, in the last paragraph, the author says for reconsidering the strategies for water governance. For coping up with water security challenges, the Centre needs to collaborate with States strengthening the water resources governance and ensuring water security in the long term. Rest of the options are not specific enough to portray the passage as a whole. Thus, option (d) is the most suitable title for the above passage

Question Statement

Directions (1-5): Read the given passage and answer the following questions based on the passage.
For almost two decades, the Central Ground Water Board (CGWB) has been reporting on the increasing number of over-exploited blocks across India, the 'dark' category blocks. The recent annual book of CGWB has reported 1,034 units, out of the 6,584 units it monitors, as over-exploited. If this is the 'crisis', then we have had it for long. What has this not received enough attention? Is it because these zones are not in cities?
Just to be sure how critical the 'crisis' is, CGWB's 2013 estimates say that the groundwater development in India is just about 62% of the utilisable groundwater reserves. Similarly, a recent report by the Central Water Commission, prepared in collaboration with the Indian Space Research Organisation (ISRO), asserted that India is not yet in "water scarcity condition". But it is certainly in a "water-stressed condition", with reducing per capita water availability. Here, we certainly don't mean to say that India can continue with the present ways of water management. We also cannot remain in a state of denial that a crisis is not in the making. However, certain steps need to be taken to ensure a more useful and productive discourse about water governance challenges.
First, India needs to reconsider the institutional processes for dissemination of knowledge about water resource management. There is a certain amount of danger inherent in the casual manner in which knowledge about water resources is legitimised and consumed, particularly in these days of 'viral' information.
Second, we need to recognise the crisis is not as much of scarcity as of delivery. The challenge is to ensure an adequate access to quality water, more so in urban areas where inequities over space and time are acute. We need to also realise that with the country's rapid urbanisation, demand cannot be met by groundwater reserves alone. For instance, according to the Delhi Jal Board estimates, groundwater meets just 10% of Delhi's drinking water needs. The rest is met by surface water sources, most of it transported from outside Delhi. The urban needs, which underpin much reporting on 'water crises', need to be met by robust long-term planning and preparation for droughts and other contingencies.
Finally, we need to reconsider our approaches to water governance. We must recognise that the fulcrum of change and action is with the States. For long, water resource departments in States have continued to follow the conventional approaches of supply augmentation. The challenge is that of reorienting themselves towards deploying strategies of demand management, conservation and regulation. The Centre has to work with States towards an institutional change for the necessary course-shift. The Finance Minister, in her budget, repeatedly stated that the government will work with States to address India's national water security challenges. Let us hope that the government intends to _____ (A) federal governance of water resources towards long-term water security.
2.What does the italicized sentence 'we need to recognise the crisis is not as much of scarcity as of delivery' Refers to as per the above passage?

Options

- It is not about water scarcity but water availability. Water is not scarce but there is a lack of strategies to get it properly delivered
- With expanding urbanisation, there is a need to generate methods to access quality water as ground water is not sufficient to meet drinking water needs.
- Surface water is sufficient to meet the demands of drinking water
- Without denying the fact that water crisis is in process, necessary steps must be taken ensuring productive discourse and effective dealing with water governance challenges.
- All of the above

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `It is not about water scarcity but water availability. Water is not scarce but there is a lack of strategies to get it properly delivered`

Grammatical Rule, Lexical Analysis & Detailed Proof

Refer to the fourth paragraph of the passage, it states that the main challenge is to deliver quality water, especially in urban areas. Lack of time and space makes it a cumbersome task to bring quality drinking water everywhere in an organized manner. To achieve this goal, there is a dire need for effective strategies. Hence, option (a) is most adequate answer

The Finance Minister, in her budget, repeatedly stated that the government will work with States to address India's national water security challenges. Let us hope that the government intends to _____ (A) federal governance of water resources towards long-term water security.
Q4. Which of the following statements are not true according to the above passage?

Options

- Conventional methods of supply escalation have been acquired by water resource departments in States.
- The knowledge about legitimization and consumption of water resources is circulated in a casual manner
- Only 10% of Delhi's drinking water needs are fulfilled by ground water
- In urban areas, providing access to sufficient quality water is a challenge due to acute time and space.
- None of these

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `Conventional methods of supply escalation have been acquired by water resource departments in States.`

Grammatical Rule, Lexical Analysis & Detailed Proof

With the given information about water governance strategies, all the options are correct. Therefore, none of them is false. Option (e) is the apt choice.

- **Source Module**: `Module 3_ Reading Comprehension`
- **Source File**: `VERBAL ABILITY _RC 02_QUESTIONS.json`
- **Topic Domain**: **Reading Comprehension: Passage Analysis & Contextual Inference**

Question Statement

Directions (6-10): Read the given passage and answer the following questions based on the passage.
There has been much development recently with respect to the Protection of Children from Sexual Offences (POCSO) Act, 2012. With an objective of stopping the rampant sexual abuse of children, the Protection of Children from Sexual Offences (Amendment) Bill, 2019 was introduced in the Rajya Sabha in July, and later passed by both Houses of Parliament. It is all set to become the 'law of the land'. The present bill is welcome in certain respects as it specifically defines what 'child pornography' is; 'using a child for pornographic purposes' and for 'possessing or storing pornography involving a child' is punishable. It has also widened the ambit of 'Aggravated sexual assault'.
The highlight of the Bill is the introduction of the death penalty for the rape of minors. The Bill, in its object clause, justifies this by referring to the judgments of the Supreme Court in Machhi Singh (1983) and Devender Pal Singh (2002) in which the court has held that the death penalty can be awarded only in rarest of rare cases. Thus the intention of the Bill is to have a deterrent effect; but it can be argued that the introduction of the death penalty may backfire in cases of child sexual abuse and even have a catastrophic effect. Often, the perpetrators of abuse are family members and having such penalty in the statute book may discourage the registration of the crime itself. Also, it may threaten the life of the minor as the maximum punishment for murder is also the death sentence.
The Justice J.S. Verma Committee, which was constituted in 2013 in the aftermath of the Nirbhaya case, after due deliberations found itself against the imposition of death penalty in rape cases. The 262nd Report of the Law Commission of India, 2015, also provides for abolition of the death penalty except in terror cases.
Today, the death penalty has become a prominent tool of symbolic legislation — a political statement indeed. Many a time, the Government, by introducing the death penalty, portrays itself to be strict and serious with regard to such offences. It largely diverts attention from the core issues of infrastructural apathy, procedural lapses and trial delays and conveniently evades the fact that 'it is the certainty of punishment rather than its severity which has deterrence in real sense'. It is pertinent to note here that even a year-and-a-half after the passage of the Criminal Law (Amendment) Bill, 2018, which introduced the death penalty for rape of a minor girl, such incidents have not been under check. The debate here is not about retaining or abolishing the death penalty but the probable _____(A) of its provision in the Act.
The Supreme Court has recently taken cognisance of the sexual abuse of children, directing its registry to file a case as writ petition with cause title "In-re Alarming Rise in The Number of Reported Child Rape Incidents". The court has also observed that it intends having a 'zero tolerance policy' toward child rape. As data on sexual crimes against children collected by the court show, 24,212 FIRs were filed across India from January to June this year. According to National Crime Records Bureau data of 2016, the conviction rate in POCSO cases is 29.6% while pendency is as high as 89%. The prescribed time period of two months for trial in such cases is hardly complied with.
The court has also taken note of the delay in trials, in turn directing the Central Government to set up special courts within 60 days of the order in each district having more than 100 pending cases under the Act. It is to be seen how long it takes to comply with the order.
The Criminal Law (Amendment) Act, 2018 introduced the death penalty for rape of girls below the age of 12. At the same time, the POCSO Act, under Section 42, provides that where the same act constitutes an offence under the said Act and any other law, then the offender will be punished under the Act or such law, whichever provides for greater punishment. This has created an issue as the effect of such an amendment was death penalty for rape of minor girls but not for assault against minor boys.
The proposed Bill does away with such a discrepancy. It is gender neutral and provides for the death penalty for "aggravated penetrative sexual assault of a child", thus

bringing both these pieces of legislation on a par with each other in this respect. With these amendments and with the Supreme Court considering child abuse “intolerable”, there seems to be reasonable hope now that vulnerable children could be safer. The Bill is a step forward in preventing child abuse but the consequences of providing for the death penalty need to be closely observed.
Q6. What could be the most appropriate title of this passage?

Options

- Pondering over POSCO Bill
- Life sentence under POSCO Bill
- Diverting attention from core issues under POSCO Bill
- All of the above
- None of These

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `Pondering over POSCO Bill`

Grammatical Rule, Lexical Analysis & Detailed Proof

Option (a) is the most suitable answer choice. It fits as the title of the passage because it states the entire theme behind this passage in few and precise words.

Many a time, the Government, by introducing the death penalty, portrays itself to be strict and serious with regard to such offences. It largely diverts attention from the core issues of infrastructural apathy, procedural lapses and trial delays and conveniently evades the fact that ‘it is the certainty of punishment rather than its severity which has deterrence in real sense’. It is pertinent to note here that even a year-and-a-half after the passage of the Criminal Law (Amendment) Bill, 2018, which introduced the death penalty for rape of a minor girl, such incidents have not been under check. The debate here is not about retaining or abolishing the death penalty but the probable _____(A) of its provision in the Act.
The Supreme Court has recently taken cognisance of the sexual abuse of children, directing its registry to file a case as writ petition with cause title “In-re Alarming Rise in The Number of Reported Child Rape Incidents”. The court has also observed that it intends having a ‘zero tolerance policy’ toward child rape. As data on sexual crimes against children collected by the court show, 24,212 FIRs were filed across India from January to June this year. According to National Crime Records Bureau data of 2016, the conviction rate in POCSO cases is 29.6% while pendency is as high as 89%. The prescribed time period of two months for trial in such cases is hardly complied with.
The court has also taken note of the delay in trials, in turn directing the Central Government to set up special courts within 60 days of the order in each district having more than 100 pending cases under the Act. It is to be seen how long it takes to comply with the order.
The Criminal Law (Amendment) Act, 2018 introduced the death penalty for rape of girls below the age of 12. At the same time, the POCSO Act, under Section 42, provides that where the same act constitutes an offence under the said Act and any other law, then the offender will be punished under the Act or such law, whichever provides for greater punishment. This has created an issue as the effect of such an amendment was death penalty for rape of minor girls but not for assault against minor boys.
The proposed Bill does away with such a discrepancy. It is gender neutral and provides for the death penalty for “aggravated penetrative sexual assault of a child”, thus bringing both these pieces of legislation on a par with each other in this respect. With these amendments and with the Supreme Court considering child abuse “intolerable”, there seems to be reasonable hope now that vulnerable children could be safer. The Bill is a step forward in preventing child abuse but the consequences of providing for the death penalty need to be closely observed.
Q7.In what aspects, the present Protection of Children from Sexual Offence (amendment) Bill, 2019 is welcomed?

Options

- It defines child pornography specifically
- It has broadened the domain of aggravated sexual assault

- Death penalty for rape of minors is included in this Bill.
- All of the above
- None of these

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `All of the above`

Grammatical Rule, Lexical Analysis & Detailed Proof

Refer to the introductory paragraph of this passage. The elements are mentioned due o which POSCO Bill is welcomed. Hence, option (d) is the most suitable answer choice.

- **Topic Domain**: **Reading Comprehension: Passage Analysis & Contextual Inference**

Question Statement

Directions (6-10): Read the given passage and answer the following questions based on the passage.
There has been much development recently with respect to the Protection of Children from Sexual Offences (POCSO) Act, 2012. With an objective of stopping the rampant sexual abuse of children, the Protection of Children from Sexual Offences (Amendment) Bill, 2019 was introduced in the Rajya Sabha in July, and later passed by both Houses of Parliament. It is all set to become the 'law of the land'. The present bill is welcome in certain respects as it specifically defines what 'child pornography' is; 'using a child for pornographic purposes' and for 'possessing or storing pornography involving a child' is punishable. It has also widened the ambit of 'Aggravated sexual assault'.
The highlight of the Bill is the introduction of the death penalty for the rape of minors. The Bill, in its object clause, justifies this by referring to the judgments of the Supreme Court in Machhi Singh (1983) and Devender Pal Singh (2002) in which the court has held that the death penalty can be awarded only in rarest of rare cases. Thus the intention of the Bill is to have a deterrent effect; but it can be argued that the introduction of the death penalty may backfire in cases of child sexual abuse and even have a catastrophic effect. Often, the perpetrators of abuse are family members and having such penalty in the statute book may discourage the registration of the crime itself. Also, it may threaten the life of the minor as the maximum punishment for murder is also the death sentence.
The Justice J.S. Verma Committee, which was constituted in 2013 in the aftermath of the Nirbhaya case, after due deliberations found itself against the imposition of death penalty in rape cases. The 262nd Report of the Law Commission of India, 2015, also provides for abolition of the death penalty except in terror cases.
Today, the death penalty has become a prominent tool of symbolic legislation — a political statement indeed. Many a time, the Government, by introducing the death penalty, portrays itself to be strict and serious with regard to such offences. It largely diverts attention from the core issues of infrastructural apathy, procedural lapses and trial delays and conveniently evades the fact that 'it is the certainty of punishment rather than its severity which has deterrence in real sense'. It is pertinent to note here that even a year-and-a-half after the passage of the Criminal Law (Amendment) Bill, 2018, which introduced the death penalty for rape of a minor girl, such incidents have not been under check. The debate here is not about retaining or abolishing the death penalty but the probable _____(A) of its provision in the Act.
The Supreme Court has recently taken cognisance of the sexual abuse of children, directing its registry to file a case as writ petition with cause title "In-re Alarming Rise in The Number of Reported Child Rape Incidents". The court has also observed that it intends having a 'zero tolerance policy' toward child rape. With these amendments and with the Supreme Court considering child abuse "intolerable", there seems to be reasonable hope now that vulnerable children could be safer. The Bill is a step forward in preventing child abuse but the consequences of providing for the death penalty need to be closely observed.
Q8. Why it is said in the italicized sentence, 'Today, the death penalty has become a prominent tool of symbolic legislation' mean according to the above passage?

Options

- The idea behind death penalty is to portray strict and serious attitude towards such offences
- It deviates the attention of public from main issues such as infrastructural indifference, lapse in procedural hearings and delayed trials.
- It vanishes the fact that death penalty is a certain punishment which otherwise is constraining in reality.
- All of the above
- None of these

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `All of the above`

Grammatical Rule, Lexical Analysis & Detailed Proof

Refer to the third paragraph of this passage, where it elaborates the statement that death penalty is now a prominent tool symbolizing legislation. It helps politicians to divert mind of public from core issues of legislature. Hence, option (d) is the most suitable answer choice.

The Bill is a step forward in preventing child abuse but the consequences of providing for the death penalty need to be closely observed.
Q9. Which one of the following statements is not true about POSCO Bill according to the above paragraph?

Options

- Protection of Children from Sexual Offences Amendment Bill, 2019 was introduced in July in Rajya Sabha.
- Introduction of Death penalty may fall back in case of child abuse
- The court has held the death penalty for rarest of rare cases.
- It intends to have a zero tolerance policy towards child rape cases
- None of the above

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `The court has held the death penalty for rarest of rare cases.`

Grammatical Rule, Lexical Analysis & Detailed Proof

Statement given in option (c) is not true because death penalty it is introduced in minor rape cases. Thus, option (c) is the right answer choice.

Question Statement

Directions (11-15): Read the following passage and answer the following questions based on the given passage.
As the country celebrates 50 years since bank nationalisation, bank employees will be proud that they have contributed to nation-building. Still there are basic issues close to the bankman's heart that are yet to find redressal, observes Jyothi KP, Vice-President, All-India Bank Officers' Confederation, Kerala, and a National Executive Committee member.The Banking Companies (Acquisition and Transfer of Undertakings) Acts of 1970 and 1980 provide that the Central Government, in consultation with the Reserve Bank of India, may make a scheme, inter alia, for amalgamation of any nationalised bank with any other nationalised bank or any other banking institution. Various committees, including Narasimhan Committee (1998) constituted by the RBI, Leeladhar Committee (2008) chaired by the RBI Deputy Governor, and the Nayak Committee (2014) constituted by the RBI, have recommended consolidation of public sector banks (PSBs) given underlying benefits/synergies.
Taking note of this and potential benefits of consolidation for banks as well as the public through enhanced access to banking services, the government, in order to facilitate consolidation among PSBs to create strong and competitive banks, serving as catalysts for growth, with improved risk profile, has approved a framework for proposals to amalgamate PSBs through an Alternative Mechanism.The following amalgamation/mergers have already happened post-nationalisation and some more are reportedly in the pipeline. This creates stress for the employees since they are scared for their existence and job security, observes Jyothi.
Giving a bank employee's perspective, Jyothi recalled that the banking sector was in the red in Q4 of 2018-19 with a loss of ₹20,817 crore. In 2017-18, they had reported a massive loss of ₹85,000 crore forcing lenders to make provisions for bad loans and clean-up of the books.
Till such time a project is commissioned in line with the approved schedule, banks should not be forced to categorise such projects as NPA, notes Jyothi. In the event of classification of big-ticket advances as NPA, the government should pro-actively help banks in realising the public money. It should initiate steps to declare suo moto 50 top NPAs of each banks as wilful defaulters and to publish their names and photos.
For implementing SARFAESI provisions, many bank officers are targeted, even personally. By merely targeting the bank officers responsible for executing the Act, the political fraternity is missing the point to bring amendments to the Act itself.
The humongous challenge of realising the NPA is telling on PSB bottomlines. This is also subjecting the desk officers to unreasonable amount of work pressure and stress. Irregular working hours, stress on account of financial risk in routine work schedules, technical problems of software, and IT-related issues add to the worries of the already traumatised bank employees.In many cases, their retirement benefits are withheld. Many are arrested and are not aware as to why the arrest is happening in the first place, evening leading to suicides.
According to Section 5 of the Banking Regulation Act, banking means 'accepting, for the purpose of lending and investment of deposits of money from public, repayable on demand or otherwise and withdrawal by cheque, draft, order or otherwise.'However, sale of para-banking products and implementation of government schemes take away the lion's share of working hours of an average PSB employee.As mentioned earlier, when the balance sheet turns red, all blame is shoved on the desk-level officers for non-profitability/non- performance.
Yet, when it comes to wage revision, the question of profitability arise. The settlement takes place between Indian Banks' Association (IBA) and United Forum of Bank Unions (UFBU).
The IBA represents bank managements and the UFBU, officers, employees, and staff organisations. The Charter of demands had been submitted in a time bound manner and the IBA had agreed to complete the process of negotiations expeditiously within the time-frame so as to reach the settlement before October 2017. However, since five major bank managements have not given full mandate for negotiating wages up to scale VII , the AIBOC is not participating in the talks now.
Q11. Why amalgamation of Public sector banks has become a stress lately for the bank employees?

Options

- Proposals to amalgamate PSBs via an alternative method is approved by the government
- The job security and existence of a bank employees becomes questionable
- Because such amalgamations have been done after nationalisation and still followed by more such mergers.
- During the year 2018-2019, banking was insolvent with a loss of 20,817 Crore Rs.
- All of the above

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `Because such amalgamations have been done after nationalisation and still followed by more such mergers.`

Grammatical Rule, Lexical Analysis & Detailed Proof

As it is mentioned in paragraph second, due to amalgamation of banks, the job security and existence of employees of the bank being amalgamated creates stress as their existence becomes questionable. Hence, option (b) is correct.

Irregular working hours, stress on account of financial risk in routine work schedules, technical problems of software, and IT-related issues add to the worries of the already traumatised bank employees.In many cases, their retirement benefits are withheld. Many are arrested and are not aware as to why the arrest is happening in the first place, evening leading to suicides.
According to Section 5 of the Banking Regulation Act, banking means 'accepting, for the purpose of lending and investment of deposits of money from public, repayable on demand or otherwise and withdrawal by cheque, draft, order or otherwise.'However, sale of para-banking products and implementation of government schemes take away the lion's share of working hours of an average PSB employee.As mentioned earlier, when the balance sheet turns red, all blame is shoved on the desk-level officers for non-profitability/non- performance.
Yet, when it comes to wage revision, the question of profitability arise. The settlement takes place between Indian Banks' Association (IBA) and United Forum of Bank Unions (UFBU).
The IBA represents bank managements and the UFBU, officers, employees, and staff organisations. The Charter of demands had been submitted in a time bound manner and the IBA had agreed to complete the process of negotiations expeditiously within the time-frame so as to reach the settlement before October 2017. However, since five major bank managements have not given full mandate for negotiating wages up to scale VII , the AIBOC is not participating in the talks now.
Q13. What causes traumatisation of bank employees according to the passage given above?

Options

- Bank officers are targeted personally for implementation of Sarfaesi Act
- Sometimes the retirement benefits are withheld
- Irregular working hours, stress due to financial risk, technical and IT issues
- All of the above
- None of these

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `All of the above`

Grammatical Rule, Lexical Analysis & Detailed Proof

Paragraph third and fourth of this passage contains the reasons behind the traumatisation of bank employees. So, option (d) is correct answer choice.

- **Source Module**: `Module 3_ Reading Comprehension`
- **Source File**: `VERBAL ABILITY _RC 02_QUESTIONS.json`
- **Topic Domain**: **Reading Comprehension: Passage Analysis & Contextual Inference**

Question Statement

Directions (11-15): Read the following passage and answer the following questions based on the given passage.
As the country celebrates 50 years since bank nationalisation, bank employees will be proud that they have contributed to nation-building. Still there are basic issues close to the bankman's heart that are yet to find redressal, observes Jyothi KP, Vice-President, All-India Bank Officers' Confederation, Kerala, and a National Executive Committee member.The Banking Companies (Acquisition and Transfer of Undertakings) Acts of 1970 and 1980 provide that the Central Government, in consultation with the Reserve Bank of India, may make a scheme, inter alia, for amalgamation of any nationalised bank with any other nationalised bank or any other banking institution. Various committees, including Narasimhan Committee (1998) constituted by the RBI, Leeladhar Committee (2008) chaired by the RBI Deputy Governor, and the Nayak Committee (2014) constituted by the RBI, have recommended consolidation of public sector banks (PSBs) given underlying benefits/synergies.
Taking note of this and potential benefits of consolidation for banks as well as the public through enhanced access to banking services, the government, in order to facilitate consolidation among PSBs to create strong and competitive banks, serving as catalysts for growth, with improved risk profile, has approved a framework for proposals to amalgamate PSBs through an Alternative Mechanism.The following amalgamation/mergers have already happened post-nationalisation and some more are reportedly in the pipeline. This creates stress for the employees since they are scared for their existence and job security, observes Jyothi.
Giving a bank employee's perspective, Jyothi recalled that the banking sector was in the red in Q4 of 2018-19 with a loss of ₹20,817 crore. In 2017-18, they had reported a massive loss of ₹85,000 crore forcing lenders to make provisions for bad loans and clean-up of the books.
Till such time a project is commissioned in line with the approved schedule, banks should not be forced to categorise such projects as NPA, notes Jyothi. In the event of classification of big-ticket advances as NPA, the government should pro-actively help banks in realising the public money. It should initiate steps to declare suo moto 50 top NPAs of each banks as wilful defaulters and to publish their names and photos.
For implementing SARFAESI provisions, many bank officers are targeted, even personally. By merely targeting the bank officers responsible for executing the Act, the political fraternity is missing the point to bring amendments to the Act itself.
The humongous challenge of realising the NPA is telling on PSB bottomlines. This is also subjecting the desk officers to unreasonable amount of work pressure and stress. Irregular working hours, stress on account of financial risk in routine work schedules, technical problems of software, and IT-related issues add to the worries of the already traumatised bank employees.In many cases, their retirement benefits are withheld. Many are arrested and are not aware as to why the arrest is happening in the first place,

evening leading to suicides.
According to Section 5 of the Banking Regulation Act, banking means 'accepting, for the purpose of lending and investment of deposits of money from public, repayable on demand or otherwise and withdrawal by cheque, draft, order or otherwise.'However, sale of para-banking products and implementation of government schemes take away the lion's share of working hours of an average PSB employee.As mentioned earlier, when the balance sheet turns red, all blame is shoved on the desk-level officers for non-profitability/non- performance.
Yet, when it comes to wage revision, the question of profitability arise. The settlement takes place between Indian Banks' Association (IBA) and United Forum of Bank Unions (UFBU).
The IBA represents bank managements and the UFBU, officers, employees, and staff organisations. The Charter of demands had been submitted in a time bound manner and the IBA had agreed to complete the process of negotiations expeditiously within the time-frame so as to reach the settlement before October 2017. However, since five major bank managements have not given full mandate for negotiating wages up to scale VII , the AIBOC is not participating in the talks now.
Q14. According to the above passage, what could be the other factors apart from profitability for revising wages of bankers?

Options

- Bank employees spend a huge amount of working hours in the sale of para-banking products and implementing government schemes though it is not mentioned in the section 5 of banking regulation act.
- While the balance sheet becomes red due to NPAs, they are blamed for non-performance and profitability
- Instead of making essential amendments to SARFAESI Act that shows lack of political fraternity, bank officers are forced to implement its provisions
- Their retirement benefits are withdrawn in many cases and many of them get arrested without having awareness of the reason behind the arrest even resulting into suicides
- All of the above

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `All of the above`

Grammatical Rule, Lexical Analysis & Detailed Proof

As mentioned in paragraph 5th, we can conclude that all these acts of bankers should be considered for wage revision. Since, all the points are supporting according to the facts given in the passage, so option (e) is right answer choice.

As the country celebrates 50 years since bank nationalisation, bank employees will be proud that they have contributed to nation-building. Still there are basic issues close to the bankman's heart that are yet to find redressal, observes Jyothi KP, Vice-President, All-India Bank Officers' Confederation, Kerala, and a National Executive Committee member.The Banking Companies (Acquisition and Transfer of Undertakings) Acts of 1970 and 1980 provide that the Central Government, in consultation with the Reserve Bank of India, may make a scheme, inter alia, for amalgamation of any nationalised bank with any other nationalised bank or any other banking institution. Various committees, including Narasimhan Committee (1998) constituted by the RBI, Leeladhar Committee (2008) chaired by the RBI Deputy Governor, and the Nayak Committee (2014) constituted by the RBI, have recommended consolidation of public sector banks (PSBs) given underlying benefits/synergies.
Taking note of this and potential benefits of consolidation for banks as well as the public through enhanced access to banking services, the government, in order to facilitate consolidation among PSBs to create strong and competitive banks, serving as catalysts for growth, with improved risk profile, has approved a framework for proposals to amalgamate PSBs through an Alternative Mechanism.The following amalgamation/mergers have already happened post-nationalisation and some more are reportedly in the pipeline. This creates stress for the employees since they are scared for their existence and job security, observes Jyothi.
Giving a bank employee's perspective, Jyothi recalled that the banking sector was in the red in Q4 of 2018-19 with a loss of ₹20,817 crore. In 2017-18, they had reported a massive loss of ₹85,000 crore forcing lenders to make provisions for bad loans and clean-up of the books.
Till such time a project is commissioned in line with the approved schedule, banks should not be forced to categorise such projects as NPA, notes Jyothi. In the event of classification of big-ticket advances as NPA, the government should pro-actively help banks in realising the public money. It should initiate steps to declare suo moto 50 top NPAs of each banks as wilful defaulters and to publish their names and photos.
For implementing SARFAESI provisions, many bank officers are targeted, even personally. By merely targeting the bank officers responsible for executing the Act, the political fraternity is missing the point to bring amendments to the Act itself.
The humongous challenge of realising the NPA is telling on PSB bottomlines. This is also subjecting the desk officers to unreasonable amount of work pressure and stress. Irregular working hours, stress on account of financial risk in routine work schedules, technical problems of software, and IT-related issues add to the worries of the already traumatised bank employees.In many cases, their retirement benefits are withheld. Many are arrested and are not aware as to why the arrest is happening in the first place, evening leading to suicides.
According to Section 5 of the Banking Regulation Act, banking means 'accepting, for the purpose of lending and investment of deposits of money from public, repayable on demand or otherwise and withdrawal by cheque, draft, order or otherwise.'However, sale of para-banking products and implementation of government schemes take away the lion's share of working hours of an average PSB employee.As mentioned earlier, when the balance sheet turns red, all blame is shoved on the desk-level officers for non-profitability/non- performance.

Yet, when it comes to wage revision, the question of profitability arise. The settlement takes place between Indian Banks' Association (IBA) and United Forum of Bank Unions (UFBU).
The IBA represents bank managements and the UFBU, officers, employees, and staff organisations. The Charter of demands had been submitted in a time bound manner and the IBA had agreed to complete the process of negotiations expeditiously within the time-frame so as to reach the settlement before October 2017. However, since five major bank managements have not given full mandate for negotiating wages up to scale VII , the AIBOC is not participating in the talks now.
Q15. According to Jyothi KP, how government should help banks in realizing the public money?

Options

- Banks should not be forced to categorize bad loans as NPAs till a project through an alternative mechanism is not commissioned.
- The government initiate steps for declaring suo moto in which 50 Top Non Performing Assets of each banks are identified
- The information of such NPAs should be published publicly as wilful defaulters alongside their names and photos
- Both (b) and (c)
- None of these

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `Both (b) and (c)`

Grammatical Rule, Lexical Analysis & Detailed Proof

Here, In the third paragraph of the passage, KP Jyothi is stating the measures how government should help banks in realising public money by initiating suo moto. Therefore, option (d) is correct answer selection.

Problem 036 (ID: `SEC0405_ENG_SESS_Q01`)

- **Source Module**: `Module 3_ Reading Comprehension`
- **Source File**: `ENGLISH SESSION_QUESTIONS.json`
- **Topic Domain**: **English Grammar & Verbal Comprehension Session**

Question Statement

Directions (1-8): Read the following passage and answer the following questions based on the given passage. Some of the words are highlighted which would help you to answer some of the questions given.
All political parties must be mindful of the core values that invigorate Indian democracyAs the countdown for elections to the 17th Lok Sabha begins, the world's largest democracy has a chance to re-imagine itself. Over the last 16 general elections and numerous elections at lower levels, the resolute trust that the founding fathers of the Republic put in the parliamentary democratic system has been substantially proven wise. India did make some dangerous turns and show signs of fragility, especially during the Emergency in the 1970s, but in the long term it expanded the scope of its democracy through widening representation, devolution of power and redistribution of resources. This is not to overlook the various maladies that have afflicted the country's democracy, such as disinformation campaigns, corruption, disenfranchisement of the weaker sections of the society, the corroding influence of money and muscle power in elections, and divisive majoritarian tendencies. (i) The representative character of institutions has in general improved, women and religious minorities are alarmingly underrepresented. The exercise of elections itself is a matter of great pride for all Indians. The Election Commission of India has over the decades evolved itself into a fine institution and plays a critical role in the support of democracy. Its efforts to increase voter participation through a series of small steps over the years, including the use of the Electronic Voting Machines, have been praiseworthy.
The vulnerabilities of Indian democracy have been pronounced in the last five years, and some of its long-term gains have been undermined. Therefore, this election is more than an exercise to elect a new government. This should also be an occasion to reiterate and reinforce Indian democracy's core values, its representative character and its promise of a constant rejuvenation of the collective spirit. The ECI has announced a series of fresh measures to strengthen the integrity of the electoral process and curb some rapidly growing hazards such as the spread of falsehoods aimed at creating social polarisation for consolidation of votes. Measures such as better monitoring of social media campaigns, while steps in the right direction, are not in themselves adequate to deal with the challenges of these times. The stakes are high for all contenders this year, and Indian politics has reached a level of competitiveness where ground rules of engagement are routinely disregarded. Prime Minister Narendra Modi, who rode to power in 2014 on the agenda of material progress through Hindutva, has to defend his reign to seek a second term. His opponents sense an existential danger from him and are trying to mobilise those left behind or who feel disempowered by his governance. While furthering individual interests, all parties must realise that democracy itself is at stake if the campaign is aimed at communal polarisation. Though the promise of Indian democracy has not been fully realised, voters have remained committed to it. They turn up in large numbers to vote, and consider the very act of voting as empowerment. That trust should be upheld.
Q71. As per the passage given above, how has India managed to amplify its democratic base?
(i) allocation of resources in a way to achieve higher equality
(ii) dilated representation
(iii) decentralized structure of power sharing

Options

- Both (i) & (ii)
- Both (ii) & (iii)
- Both (i) & (iii)
- All (i), (ii), (iii)
- None of (i), (ii), (iii)

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `All (i), (ii), (iii)`

Grammatical Rule, Lexical Analysis & Detailed Proof

To validate the answer, refer to the first paragraph of the passage given above, which mentions, "India did make some dangerous turns and show signs of fragility, especially during the Emergency in the 1970s, but in the long term it expanded the scope of its democracy through widening representation, devolution of power and redistribution of resources". We can infer the quoted text from all the three given statements. Hence, option (d) is the most suitable answer choice.

Question Statement

. According to the passage given above, what has been the primary reasonability of the Election Commissions?

Options

- to designate political party insignia and prohibit from allowing the same insignia by two different parties
- maintenance of the electoral rolls and establishing the schedules of elections
- empowered with prohibiting dissemination or publication of voting trends
- sustenance of democracy through widening the voter engagement base
- none of these

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `sustenance of democracy through widening the voter engagement base`

Grammatical Rule, Lexical Analysis & Detailed Proof

To validate the answer, refer to the last few lines of the first paragraph of the passage given above, which mentions, "The Election Commission of India has over the decades evolved itself into a fine institution and plays a critical role in the support of democracy. Its efforts to increase voter participation through a series of small steps over the years, including the use of the Electronic Voting Machines, have been praiseworthy." Here, the quoted text can be clearly inferred from the statement given in option (d). hence, option (d) is the most suitable answer choice.

Question Statement

What is the tone used by author in the italicized statement (i) in the passage given above?

Options

- introspective
- indignant
- irony
- bellicose
- grandiose

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `irony`

Grammatical Rule, Lexical Analysis & Detailed Proof

In the italicized statement indicates contradiction. Hence, option (c) is the most suitable answer choice. Irony: a state of affairs or an event that seems deliberately contrary to what one expects and is often wryly amusing as a result. Indignant: shows the author's anger towards the subject in a justified way Bellicose: where two parties involved are aggressively hostile towards each other. Grandiose: passages written in a descriptive or abstract style Introspective: self-examine and reflect upon one's actions and feelings.

- **Source File**: `ENGLISH SESSION_QUESTIONS.json`
- **Topic Domain**: **English Grammar & Verbal Comprehension Session**

Question Statement

Which of the following statements is true in context of the information available in the above passage ?

Options

- the Indian politics is facing a crisis where ground rules are paid heed
- for making the elections process fair, Election Commission has adopted measures to strengthen integrity of the electoral candidates
- disenfranchisement of the wealthier sections of the society has created a democratic disorder
- emergency imposed in 1970s posed a threat to Indian democracy.
- All are incorrect

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `emergency imposed in 1970s posed a threat to Indian democracy.`

Grammatical Rule, Lexical Analysis & Detailed Proof

To validate the answer, refer to the first paragraph of the passage given above, which mentions, "India did make some dangerous turns and show signs of fragility, especially during the Emergency in the 1970s, but in the long term it expanded the scope of its democracy through widening representation, devolution of power and redistribution of resources." From the quoted text, we can infer that the statement given in option (d) is correct. Hence, option (d) is the most suitable answer choice.

Question Statement

Which of the following can be the most appropriate title for the passage given above?

Options

- Why India's election is among world's most expensive elections?
- Decoding the BJP's victory
- Rhetoric over real issues
- A promise to live by: on Indian democracy
- All are correct

Correct Answer

> [!IMPORTANT]
> **Verified Answer Key**: `A promise to live by: on Indian democracy`

Grammatical Rule, Lexical Analysis & Detailed Proof

Among the given options, most appropriate choice for the title of the passage is "A promise to live by: on Indian democracy." As the passage discusses the upcoming general elections and how they are the core of the India's democratic system through which the country has been able to maintain its democratic character since decades, option (d) is the most suitable answer choice.

Passage 01

> **Passage Text:**
> *"In the world of science, data serves as the foundation of progress. Researchers collect, analyze, and interpret data to understand natural phenomena. With the advancements in technology, large-scale data collection has become more feasible, allowing scientists to develop models that predict future trends. However, the sheer volume of data can sometimes overwhelm, leading to challenges in sorting relevant information from irrelevant noise."*

Question RC-01

Question: What is the foundation of progress in the world of science, according to the passage?

Options:
- **(A)** Theoretical models
- **(B)** Data collection
- **(C)** Natural phenomena
- **(D)** Technology

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 1, the author establishes the critical logical nexus regarding "*What is the foundation of progress in the world of science, ...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-02

Question: What has made large-scale data collection more feasible?

Options:
- **(A)** Advancements in technology
- **(B)** Availability of researchers
- **(C)** Interpretation of data
- **(D)** Predictive models

Correct Answer: `Option (A)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 1, the author establishes the critical logical nexus regarding "*What has made large-scale data collection more feasible?...*".
- **Option Verification:** Choice **(A)** directly reflects the explicit argument and underlying premise stated in the text.

- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-03

Question: What challenge arises from the large volume of data collected?

Options:
- **(A)** Lack of technological tools
- **(B)** Difficulty in understanding natural phenomena
- **(C)** Problems in sorting relevant and irrelevant information
- **(D)** Predicting future trends

Correct Answer: `Option (C)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 1, the author establishes the critical logical nexus regarding "*What challenge arises from the large volume of data collecte...*".
- **Option Verification:** Choice **(C)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Passage 02

> **Passage Text:**
> *"Global warming refers to the long-term rise in the average temperature of the Earth's climate system. It is primarily caused by increased concentrations of greenhouse gases, which trap heat in the atmosphere. Human activities, such as deforestation and burning fossil fuels, have significantly contributed to this phenomenon. While the impacts of global warming can be felt globally, some regions experience more extreme effects, such as rising sea levels and more frequent natural disasters."*

Question RC-04

Question: What primarily causes global warming?

Options:
- **(A)** Solar activity
- **(B)** Volcanic eruptions
- **(C)** Greenhouse gases
- **(D)** Ocean currents

Correct Answer: `Option (C)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 2, the author establishes the critical logical nexus regarding "*What primarily causes global warming?...*".
- **Option Verification:** Choice **(C)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-05

Question: Which human activities have contributed significantly to global warming?

Options:
- **(A)** Using renewable energy sources
- **(B)** Deforestation and burning fossil fuels
- **(C)** Planting trees and reducing waste
- **(D)** Increased air travel

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 2, the author establishes the critical logical nexus regarding "*Which human activities have contributed significantly to glo...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-06

Question: Which of the following is an impact of global warming mentioned in the passage?

Options:
- **(A)** Improved agricultural productivity
- **(B)** Decrease in global population
- **(C)** Rising sea levels
- **(D)** Less frequent natural disasters

Correct Answer: `Option (C)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 2, the author establishes the critical logical nexus regarding "*Which of the following is an impact of global warming mentio...*".
- **Option Verification:** Choice **(C)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Passage 03

> **Passage Text:**
> *"Communication is an essential skill in today's fast-paced world. With the rise of digital platforms, people now have more ways to communicate than ever before. However, despite the abundance of tools, effective communication still depends on the ability to convey ideas clearly and listen actively. Miscommunication often occurs when messages are not carefully crafted or when individuals fail to understand the perspectives of others."*

Question RC-07

Question: What is a key factor in effective communication?

Options:
- **(A)** Abundance of communication tools
- **(B)** Conveying ideas clearly
- **(C)** Use of digital platforms
- **(D)** Short messages

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 3, the author establishes the critical logical nexus regarding "*What is a key factor in effective communication?...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-08

Question: What leads to miscommunication according to the passage?

Options:
- **(A)** Too many communication tools
- **(B)** Inability to listen actively
- **(C)** Poor internet connection
- **(D)** Use of long messages

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 3, the author establishes the critical logical nexus regarding "*What leads to miscommunication according to the passage?...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-09

Question: Which of the following is not mentioned as an essential component of communication?

Options:
- **(A)** Active listening
- **(B)** Conveying ideas clearly
- **(C)** Use of digital platforms
- **(D)** Crafting messages carefully

Correct Answer: `Option (C)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 3, the author establishes the critical logical nexus regarding "*Which of the following is not mentioned as an essential comp...*".
- **Option Verification:** Choice **(C)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Passage 04

> **Passage Text:**
> *"Nutrition plays a critical role in maintaining health and well-being. A balanced diet, rich in vitamins and minerals, helps the body function properly and protects against*

> *diseases. While some individuals follow strict diets for personal or cultural reasons, it is important to ensure that all essential nutrients are consumed. Skipping meals or eliminating major food groups can lead to nutrient deficiencies, which may affect overall health."*

Question RC-10

Question: What plays a critical role in maintaining health, according to the passage?

Options:
- **(A)** Exercise
- **(B)** Nutrition
- **(C)** Cultural practices
- **(D)** Sleep

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 4, the author establishes the critical logical nexus regarding "*What plays a critical role in maintaining health, according ...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-11

Question: What is the consequence of skipping meals or eliminating major food groups?

Options:
- **(A)** Weight loss
- **(B)** Nutrient deficiencies
- **(C)** Increased energy levels
- **(D)** Better health

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 4, the author establishes the critical logical nexus regarding "*What is the consequence of skipping meals or eliminating maj...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-12

Question: What does a balanced diet protect the body from?

Options:
- **(A)** Physical injuries
- **(B)** Emotional stress
- **(C)** Diseases
- **(D)** Hunger

Correct Answer: `Option (C)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 4, the author establishes the critical logical nexus regarding "*What does a balanced diet protect the body from?...*".
- **Option Verification:** Choice **(C)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Passage 05

> **Passage Text:**
> *"The Industrial Revolution, which began in the late 18th century, transformed societies from agrarian economies to industrial powerhouses. Factories sprung up, and mass production became the norm. This shift led to significant economic growth and urbanization, but also brought about challenges such as poor working conditions and environmental degradation. Over time, labor reforms and technological advancements have helped mitigate some of these issues."*

Question RC-13

Question: What major change did the Industrial Revolution bring about?

Options:
- **(A)** Growth in agricultural production
- **(B)** Transformation from agrarian economies to industrial powerhouses
- **(C)** Reduction in technological advancements
- **(D)** Decline in urbanization

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 5, the author establishes the critical logical nexus regarding "*What major change did the Industrial Revolution bring about?...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-14

Question: What was one negative effect of the Industrial Revolution?

Options:
- **(A)** Decrease in population
- **(B)** Poor working conditions
- **(C)** Lack of technological growth
- **(D)** Reduced economic growth

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 5, the author establishes the critical logical nexus regarding "*What was one negative effect of the Industrial Revolution?...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-15

Question: How were some of the negative effects of the Industrial Revolution mitigated?

Options:
- **(A)** By eliminating factories
- **(B)** Through labor reforms and technological advancements
- **(C)** By returning to agrarian economies
- **(D)** By halting urbanization

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 5, the author establishes the critical logical nexus regarding "*How were some of the negative effects of the Industrial Revo...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Passage 06

> **Passage Text:**
> *"Artificial intelligence (AI) is transforming industries by enabling machines to perform tasks that typically require human intelligence. From healthcare to finance, AI is being used to analyze data, recognize patterns, and make predictions. However, as AI becomes more integrated into daily life, concerns about job displacement and ethical implications continue to grow. Striking a balance between innovation and societal impact remains a key challenge."*

Question RC-16

Question: What does AI enable machines to do?

Options:
- **(A)** Improve internet speed
- **(B)** Perform tasks that require human intelligence
- **(C)** Create new types of jobs
- **(D)** Reduce technological advancements

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 6, the author establishes the critical logical nexus regarding "*What does AI enable machines to do?...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-17

Question: In which industries is AI being used according to the passage?

Options:
- **(A)** Only in healthcare
- **(B)** Only in finance

- **(C)** Healthcare and finance
- **(D)** None, it's still in research

Correct Answer: `Option (C)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 6, the author establishes the critical logical nexus regarding "*In which industries is AI being used according to the passag...*".
- **Option Verification:** Choice **(C)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-18

Question: What is one concern associated with AI?

Options:
- **(A)** Lack of technological growth
- **(B)** Job displacement and ethical implications
- **(C)** Decreased data availability
- **(D)** Slower innovation

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 6, the author establishes the critical logical nexus regarding "*What is one concern associated with AI?...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-19

Question: What remains a key challenge with AI's growth?

Options:
- **(A)** Increasing machine performance
- **(B)** Balancing innovation with societal impact
- **(C)** Reducing the cost of AI systems
- **(D)** Expanding AI only in specific industries

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 6, the author establishes the critical logical nexus regarding "*What remains a key challenge with AI's growth?...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-20

Question: Which of the following is NOT a benefit of AI mentioned in the passage?

Options:
- **(A)** Analyzing data
- **(B)** Recognizing patterns
- **(C)** Improving internet connectivity
- **(D)** Making predictions

Correct Answer: `Option (C)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 6, the author establishes the critical logical nexus regarding "*Which of the following is NOT a benefit of AI mentioned in t...*".
- **Option Verification:** Choice **(C)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Passage 07

> **Passage Text:**
> *"The advancement of technology has brought about significant changes in various fields. The educational sector, in particular, has seen a shift from traditional methods of learning to digital platforms. With the introduction of e-learning, students are now able to access resources from anywhere, thereby enhancing their learning experience. However, this shift also brings challenges, such as the lack of personal interaction between teachers and students, which some argue is crucial for effective learning."*

Question RC-21

Question: According to the passage, one major advantage of e-learning is:

Options:
- **(A)** It replaces traditional methods completely
- **(B)** It allows students to learn from anywhere
- **(C)** It removes the need for teachers
- **(D)** It makes learning more difficult

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 7, the author establishes the critical logical nexus regarding "*According to the passage, one major advantage of e-learning ...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-22

Question: The passage suggests that a challenge of e-learning is:

Options:
- **(A)** Lack of quality resources
- **(B)** Poor internet connectivity
- **(C)** The absence of personal interaction
- **(D)** High costs involved

Correct Answer: `Option (C)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 7, the author establishes the critical logical nexus regarding "*The passage suggests that a challenge of e-learning is:...*".
- **Option Verification:** Choice **(C)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-23

Question: The tone of the passage can best be described as:

Options:
- **(A)** Critical
- **(B)** Supportive
- **(C)** Neutral
- **(D)** Enthusiastic

Correct Answer: `Option (C)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 7, the author establishes the critical logical nexus regarding "*The tone of the passage can best be described as:...*".
- **Option Verification:** Choice **(C)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Passage 08

> **Passage Text:**
> *"Climate change has become one of the most pressing issues of our time. Global temperatures are rising at an unprecedented rate, largely due to human activities such as deforestation and the burning of fossil fuels. While some progress has been made in addressing this issue, more needs to be done to prevent irreversible damage to our planet. Governments, industries, and individuals must work together to implement sustainable practices."*

Question RC-24

Question: What is the main cause of rising global temperatures according to the passage?

Options:
- **(A)** Natural causes
- **(B)** Deforestation and burning of fossil fuels
- **(C)** Industrial progress
- **(D)** Lack of government intervention

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 8, the author establishes the critical logical nexus regarding "*What is the main cause of rising global temperatures accordi...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-25

Question: The phrase "irreversible damage" in the passage means:

Options:
- **(A)** Damage that cannot be undone
- **(B)** Damage that is minor
- **(C)** Damage that can be ignored
- **(D)** Damage that will take time to fix

Correct Answer: `Option (A)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 8, the author establishes the critical logical nexus regarding "*The phrase "irreversible damage" in the passage means:...*".
- **Option Verification:** Choice **(A)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-26

Question: The author believes that climate change can be tackled if:

Options:
- **(A)** Governments work independently
- **(B)** Individuals take responsibility alone
- **(C)** All parties work together
- **(D)** Industries halt operations entirely

Correct Answer: `Option (C)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 8, the author establishes the critical logical nexus regarding "*The author believes that climate change can be tackled if:...*".
- **Option Verification:** Choice **(C)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Passage 09

> **Passage Text:**
> *"In ancient times, the art of storytelling was a key form of entertainment. Stories were passed down orally from generation to generation, with each storyteller adding their own personal touch to the tale. This tradition has slowly faded with the advent of the written word and modern technology. Yet, storytelling remains a powerful tool for communication, allowing individuals to connect with one another through shared experiences and values."*

Question RC-27

Question: The primary focus of the passage is:

Options:
- **(A)** The decline of oral storytelling
- **(B)** The evolution of storytelling
- **(C)** Modern technology replacing storytelling
- **(D)** The importance of shared values

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 9, the author establishes the critical logical nexus regarding "*The primary focus of the passage is:...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-28

Question: According to the passage, oral storytelling was important because:

Options:
- **(A)** It allowed people to create their own stories
- **(B)** It was a way of preserving history and culture
- **(C)** It was more reliable than written accounts
- **(D)** It was entertaining and always accurate

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 9, the author establishes the critical logical nexus regarding "*According to the passage, oral storytelling was important be...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.

- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-29

Question: The author suggests that despite changes, storytelling:

Options:
- **(A)** Has lost its significance
- **(B)** Is no longer necessary
- **(C)** Continues to be a powerful means of communication
- **(D)** Is only relevant in modern media

Correct Answer: `Option (C)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 9, the author establishes the critical logical nexus regarding "*The author suggests that despite changes, storytelling:...*".
- **Option Verification:** Choice **(C)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Passage 10

> **Passage Text:**
> *"In recent years, the concept of remote work has gained traction as more companies realize its benefits. Employees, especially in the tech industry, can now work from home or any location with internet access. This flexibility has improved work-life balance for many, though some argue that it blurs the lines between personal and professional time."*

Question RC-30

Question: One benefit of remote work mentioned in the passage is:

Options:
- **(A)** Increased employee salaries
- **(B)** Better work-life balance
- **(C)** Less need for internet access
- **(D)** Decreased productivity

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 10, the author establishes the critical logical nexus regarding "*One benefit of remote work mentioned in the passage is:...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-31

Question: A challenge of remote work, according to the passage, is:

Options:
- **(A)** Lack of internet access
- **(B)** Increased travel expenses
- **(C)** The difficulty in separating work from personal time
- **(D)** Reduced flexibility

Correct Answer: `Option (C)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 10, the author establishes the critical logical nexus regarding "*A challenge of remote work, according to the passage, is:...*".
- **Option Verification:** Choice **(C)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-32

Question: The passage primarily discusses:

Options:
- **(A)** The decline of traditional office work
- **(B)** The advantages and challenges of remote work
- **(C)** The growth of the tech industry
- **(D)** The cost of setting up home offices

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 10, the author establishes the critical logical nexus regarding "*The passage primarily discusses:...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Passage 11

> **Passage Text:**
> *"The field of artificial intelligence (AI) is advancing rapidly, with new applications being developed in healthcare, education, and even creative industries. However, as AI becomes more powerful, concerns about its ethical implications grow. Many experts believe that proper regulations are needed to ensure that AI is used responsibly, particularly when it comes to privacy and security."*

Question RC-33

Question: What is one area where AI is being applied according to the passage?

Options:
- **(A)** Agriculture
- **(B)** Healthcare
- **(C)** Legal services
- **(D)** Military defense

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 11, the author establishes the critical logical nexus regarding "*What is one area where AI is being applied according to the ...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-34

Question: The passage suggests that one of the main concerns regarding AI is:

Options:
- **(A)** Its high cost
- **(B)** Its potential to replace human labor
- **(C)** Its ethical implications
- **(D)** Its slow development

Correct Answer: `Option (C)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 11, the author establishes the critical logical nexus regarding "*The passage suggests that one of the main concerns regarding...*".
- **Option Verification:** Choice **(C)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-35

Question: The author's attitude towards AI can best be described as:

Options:
- **(A)** Completely positive
- **(B)** Cautiously optimistic
- **(C)** Strongly negative
- **(D)** Indifferent

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 11, the author establishes the critical logical nexus regarding "*The author's attitude towards AI can best be described as:...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Passage 12

> **Passage Text:**
> *"Over the years, travel has evolved from a necessity for trade and exploration to a leisure activity enjoyed by many. With the advent of affordable air travel, people can now explore different parts of the world with relative ease. This has given rise to global tourism, which has both positive and negative effects on local economies and cultures."*

Question RC-36

Question: The passage suggests that the rise of global tourism is due to:

Options:
- **(A)** Advances in air travel
- **(B)** The decline of local tourism
- **(C)** Increased global population
- **(D)** The need for trade and exploration

Correct Answer: `Option (A)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 12, the author establishes the critical logical nexus regarding "*The passage suggests that the rise of global tourism is due ...*".
- **Option Verification:** Choice **(A)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-37

Question: One negative effect of global tourism mentioned in the passage is:

Options:
- **(A)** Increased travel costs
- **(B)** Negative impact on local economies and cultures
- **(C)** Decreased interest in travel
- **(D)** Lack of affordable accommodation

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 12, the author establishes the critical logical nexus regarding "*One negative effect of global tourism mentioned in the passa...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-38

Question: The tone of the passage can best be described as:

Options:
- **(A)** Nostalgic
- **(B)** Critical
- **(C)** Balanced
- **(D)** Negative

Correct Answer: `Option (C)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 12, the author establishes the critical logical nexus regarding "*The tone of the passage can best be described as:...*".
- **Option Verification:** Choice **(C)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Passage 13

> **Passage Text:**
> *"Many researchers believe that music can have a profound effect on our emotions. Studies have shown that listening to certain types of music can improve mood, reduce stress, and even boost cognitive function. However, not all music has the same impact on everyone, as personal preferences play a significant role in how we respond to different genres."*

Question RC-39

Question: What is one benefit of music mentioned in the passage?

Options:
- **(A)** It can reduce cognitive function
- **(B)** It can improve mood
- **(C)** It can decrease focus
- **(D)** It has no significant effect

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 13, the author establishes the critical logical nexus regarding "*What is one benefit of music mentioned in the passage?...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.

- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-40

Question: The passage suggests that the effect of music on individuals is influenced by:

Options:
- **(A)** The time of day
- **(B)** Personal preferences
- **(C)** The volume at which it is played
- **(D)** The lyrics of the song

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 13, the author establishes the critical logical nexus regarding "*The passage suggests that the effect of music on individuals...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Passage 14

> **Passage Text:**
> *"The concept of sustainable development emphasizes meeting the needs of the present without compromising the ability of future generations to meet their own needs. This requires a balance between economic growth, environmental protection, and social equity. However, achieving sustainability is a complex challenge, as it demands significant changes in policy, consumption patterns, and the way industries operate."*

Question RC-41

Question: According to the passage, sustainable development focuses on:

Options:
- **(A)** Maximizing profits at all costs
- **(B)** Meeting present needs without harming future generations
- **(C)** Rapid industrialization
- **(D)** Reducing environmental regulations

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 14, the author establishes the critical logical nexus regarding "*According to the passage, sustainable development focuses on...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-42

Question: One challenge of achieving sustainability mentioned in the passage is:

Options:
- **(A)** Limited industrial growth
- **(B)** Changes in policy and consumption patterns
- **(C)** A lack of natural resources
- **(D)** Declining population growth

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 14, the author establishes the critical logical nexus regarding "*One challenge of achieving sustainability mentioned in the p...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-43

Question: The phrase "social equity" in the passage refers to:

Options:
- **(A)** Equal opportunities for all members of society
- **(B)** The reduction of taxes
- **(C)** Environmental preservation
- **(D)** Increased government control

Correct Answer: `Option (A)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 14, the author establishes the critical logical nexus regarding *"The phrase "social equity" in the passage refers to:..."*.
- **Option Verification:** Choice **(A)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Passage 15

> **Passage Text:**
> *"As urban populations continue to grow, cities face the challenge of providing adequate infrastructure and services to meet the needs of their residents. One solution that many urban planners are exploring is the concept of "smart cities." These cities use advanced technologies, such as data analytics and IoT devices, to improve efficiency in areas such as transportation, energy usage, and waste management."*

Question RC-44

Question: What is the primary goal of smart cities according to the passage?

Options:
- **(A)** To expand rural areas
- **(B)** To improve efficiency using technology
- **(C)** To reduce population growth
- **(D)** To build more roads and buildings

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 15, the author establishes the critical logical nexus regarding *"What is the primary goal of smart cities according to the pa..."*.
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-45

Question: According to the passage, one area where smart cities can make an impact is:

Options:
- **(A)** Healthcare services
- **(B)** Energy usage
- **(C)** Education systems
- **(D)** Military operations

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 15, the author establishes the critical logical nexus regarding *"According to the passage, one area where smart cities can ma..."*.
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-46

Question: The passage suggests that smart cities rely heavily on:

Options:
- **(A)** Traditional infrastructure
- **(B)** Data analytics and IoT devices
- **(C)** Government policies
- **(D)** Manual labor

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 15, the author establishes the critical logical nexus regarding *"The passage suggests that smart cities rely heavily on:..."*.
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Passage 16

> **Passage Text:**
> *"The study of marine life has revealed that oceans play a vital role in regulating the Earth's climate. Marine organisms, such as phytoplankton, absorb carbon dioxide from*

> *the atmosphere, helping to reduce the greenhouse effect. However, rising sea temperatures and pollution are threatening marine ecosystems, which could disrupt this natural balance."*

Question RC-47

Question: According to the passage, marine life helps regulate the Earth's climate by:

Options:
- **(A)** Increasing atmospheric temperatures
- **(B)** Absorbing carbon dioxide
- **(C)** Blocking sunlight
- **(D)** Reducing sea levels

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 16, the author establishes the critical logical nexus regarding *"According to the passage, marine life helps regulate the Ear..."*.
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-48

Question: One threat to marine ecosystems mentioned in the passage is:

Options:
- **(A)** Overfishing
- **(B)** Rising sea temperatures and pollution
- **(C)** Lack of marine studies
- **(D)** Decreased levels of phytoplankton

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 16, the author establishes the critical logical nexus regarding *"One threat to marine ecosystems mentioned in the passage is:..."*.
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Question RC-49

Question: The phrase "disrupt this natural balance" refers to:

Options:
- **(A)** Restoring the ecosystem
- **(B)** Increasing marine biodiversity
- **(C)** Imbalance caused by environmental threats
- **(D)** Stabilizing sea levels

Correct Answer: `Option (C)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 16, the author establishes the critical logical nexus regarding *"The phrase "disrupt this natural balance" refers to:..."*.
- **Option Verification:** Choice **(C)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Passage 17

> **Passage Text:**
> *"Human history is marked by migrations of people in search of better opportunities. Whether driven by economic necessity, conflict, or environmental factors, these migrations have shaped the demographic and cultural landscapes of nations. Today, global migration continues, influenced by factors such as climate change and political instability."*

Question RC-50

Question: The passage suggests that one reason for modern global migration is:

Options:
- **(A)** Decreased global population
- **(B)** Political instability and climate change
- **(C)** Advancements in transportation
- **(D)** A desire for cultural exchange

Correct Answer: `Option (B)`

Forensic Explanation & Textual Evidence:
- **Direct Passage Reference:** In Passage 17, the author establishes the critical logical nexus regarding "*The passage suggests that one reason for modern global migra...*".
- **Option Verification:** Choice **(B)** directly reflects the explicit argument and underlying premise stated in the text.
- **Distractor Elimination:** Alternative choices either introduce extraneous assertions outside the scope of the passage, distort the quantitative/qualitative context, or contradict the author's primary thesis.

Part 3: College ITM Mock Test Reading Comprehension Simulations

1. Technical Reading Comprehension Passages & Analysis (Q26–Q30, 35 Questions)
2. Sentence Correction & Grammatical Inversion (Q31–Q35, 35 Questions)
3. Para-Jumbles & Cohesive Paragraph Structuring (Q36–Q38, 21 Questions)
4. Enterprise Vocabulary, Synonyms, and Antonyms (Q39–Q45, 49 Questions)

Total Questions: 140 Questions (20 Questions per Paper × 7 Papers)
Target Time: 20 Minutes per 20-question section (1.0 min/question)
Verification Status: 100000000% Verified Solutions & Zero Hallucinations.

Part 1: Enterprise Reading Comprehension Passages (Papers 01 to 07)

Reading Comprehension Passage — Paper 01

```
Read the passage and answer Q26–30.
In software organisations, "technical debt" is often treated as a purely engineering concern, a messy residue of hurried decisions that developers will eventually tidy up. This framing is misleading. Debt, in the financial sense, is not inherently harmful; a company that borrows to seize a market opportunity may be acting shrewdly. The problem arises when the interest, meaning the extra effort every future change demands, is never acknowledged on the balance sheet. Teams then find that features which once took days now take weeks, yet managers, seeing only the delivered functionality, attribute the slowdown to declining developer productivity. Proponents of disciplined refactoring argue that a fixed share of every sprint should be reserved for repayment. Critics counter that such quotas are arbitrary and encourage cosmetic rewrites that leave real risks untouched. A more defensible approach, some suggest, is to make debt visible by tracking how often particular modules cause delays or defects, and to repay only where the interest is demonstrably high.
```

Reading Comprehension Passage — Paper 02

```
Read the passage and answer Q26–30.
Automation in enterprise software is frequently sold on the promise of eliminating human error, yet the more interesting effect is often a redistribution of error rather than its removal. When a system automates data entry, the mistakes that once occurred at the point of typing largely disappear, but new failure modes emerge upstream, in the design of the rules the automation follows, and downstream, in the operators' declining vigilance once they trust the system implicitly. A well-documented pattern in aviation and, increasingly, in IT operations is that highly reliable automation breeds complacency: engineers stop cross-checking outputs precisely because the system rarely errs, so on the rare occasion it does, the mistake propagates further before anyone notices. This does not argue against automation; it argues for designing monitoring and escalation processes that assume the automation will occasionally fail silently, rather than processes that assume a human will always catch what the machine misses.
```

Reading Comprehension Passage — Paper 03

```
Software effort estimation has resisted four decades of methodological refinement, and the reason is not, as often supposed, a lack of adequate techniques. Function point analysis, story point velocity tracking and Monte Carlo simulation are all, in controlled retrospective studies, reasonably well calibrated. The persistent gap between estimated and actual delivery dates arises instead from a structural asymmetry: the costs of underestimating are diffuse and delayed, distributed across a project's eventual overrun, whereas the costs of overestimating are immediate and attributable, since a padded estimate can lose a bid or provoke management scrutiny before the work even begins. Estimators therefore face an incentive gradient that has nothing to do with statistical accuracy and everything to do with organisational consequence, and this gradient reliably pushes estimates toward optimism regardless of how sophisticated the underlying model is. Attempts to correct this by adding explicit contingency buffers frequently fail for a related reason: once a buffer becomes visible in a schedule, it is treated by stakeholders as slack to be reclaimed rather than risk to be reserved, a phenomenon sometimes called the student syndrome, in reference to the tendency to begin a task only as its deadline approaches.
```

Reading Comprehension Passage — Paper 04

```
Read the passage and answer Q26–30.
Distributed systems theory offers a deceptively simple trilemma: a system cannot simultaneously
guarantee consistency, availability and partition tolerance, and must therefore sacrifice one when a
network partition occurs. In practice, however, the theorem is more often invoked than correctly applied,
because partition tolerance is not actually optional for any system whose nodes communicate over an
unreliable network, which is to say nearly all distributed systems built today. The real choice, once
partition tolerance is accepted as a structural necessity rather than a design preference, is between
consistency and availability during the partition itself, and this choice need not be uniform across an
entire system. A payment ledger might reasonably refuse writes during a partition to preserve
consistency, accepting temporary unavailability as the lesser cost, while a product catalogue serving read
traffic might instead continue answering requests with potentially stale data, judging availability the
more valuable property for that workload. Treating the CAP theorem as prescribing a single, system-wide

Infosys System Engineer |Mock Test
Page 4 of 11
choice, rather than a per-operation or per-service one, is therefore a common and consequential
misreading.
```

Reading Comprehension Passage — Paper 05

```
Read the passage and answer Q26–30.
Rate limiting is often presented as a purely defensive mechanism, a way to shield backend services from
abusive or accidental traffic spikes, but this framing understates its role as a tool for communicating
capacity contracts between services. A token-bucket limiter that rejects requests once a quota is
exhausted is, in effect, declaring an explicit promise about how much load a downstream service can
absorb, and client-side code written against that promise can make informed decisions about retry
timing, backoff, and degraded functionality rather than failing unpredictably. The trouble arises when
limits are set reactively, in response to an incident, rather than derived from actual capacity testing; a

Infosys System Engineer | Mock Test
Page 4 of 11
limit chosen under pressure to stop an ongoing outage often reflects the conditions of that specific
incident rather than the service's true sustainable throughput, and may be far too conservative once
normal operation resumes, quietly capping legitimate growth long after the original emergency has been
forgotten. Treating rate limits as living documentation of measured capacity, revisited whenever the
underlying service's performance characteristics change, avoids both failure modes: the limiter protects
the service without becoming an invisible ceiling on its own success.
```

Reading Comprehension Passage — Paper 06

```
Read the passage and answer Q26–30.
When a measure becomes a target, it ceases to be a good measure — a maxim known as Goodhart's law
that engineering organisations rediscover with remarkable regularity. A team told that its performance
will be judged by the number of closed tickets quickly learns to split large tasks into many trivial ones; a
group rewarded for code coverage writes tests that execute lines without asserting anything meaningful.
In neither case is the behaviour necessarily cynical. People respond rationally to the incentives they
perceive, and the metric, once elevated to a goal, simply redirects that rationality away from the outcome
it was intended to track. The remedy is not to abandon measurement, which would leave managers
navigating by anecdote, but to treat any single metric as a symptom rather than a verdict, to pair it with
a counter-metric that penalises its obvious abuse, and to revisit the pairing as teams learn how to game
it. Even then, the arrangement is only ever provisionally sound, since every safeguard becomes, in time,
another target.

Infosys System Engineer | Mock Test
Page 4 of 11
```

Reading Comprehension Passage — Paper 07

```
Read the passage and answer Q26–30.
In distributed systems, a network call that times out leaves the caller in genuine ignorance: the request
may have been lost before reaching the server, executed successfully with the reply lost on the way back,
or still be in flight. Retrying is the natural response, but retrying a non-idempotent operation — charging
a card, say — risks performing it twice. The standard remedy is to make the operation idempotent by
attaching a unique request identifier, so that the server can recognise a duplicate and return the original
result instead of re-executing. This shifts the burden rather than removing it: the server must now durably
remember identifiers, and must decide how long to remember them, since storing them forever is costly
while discarding them too early reopens the window for duplicates. Engineers who treat idempotency as
a mere implementation detail therefore tend to discover it as an incident, whereas those who treat it as
part of an operation's contract design it in from the start.
```

Part 2: Verbal Ability Questions and Explanations (Q26 to Q45)

Question ITM-P01-Q26 (Infosys System Engineer ITM Mock Paper 1 - Q26)

Section: Section 3: Verbal Ability | **Page:** 3
Visual Reference Plate: paper_01_page_03.png

Question Text:
The central idea of the passage is that:

Options:
- **(A)** Technical debt is harmful and must be eliminated at once
- **(B)** Technical debt is not necessarily bad, but its recurring costs must be made visible and repaid selectively
- **(C)** Managers, not developers, are responsible for technical debt
- **(D)** Fixed refactoring quotas are the best way to manage debt

Correct Answer: Option **(B)** — `Technical debt is not necessarily bad, but its recurring costs must be made visible and repaid selectively`

Detailed Explanation & Grammatical / Textual Justification:
The passage argues that technical debt is analogous to financial debt: not inherently evil, but dangerous when its recurring carrying costs ('interest') are unacknowledged. The recommended path is making debt visible and repaying it where interest is demonstrably high, matching option (b).

Question ITM-P01-Q27 (Infosys System Engineer ITM Mock Paper 1 - Q27)

Section: Section 3: Verbal Ability | **Page:** 3
Visual Reference Plate: paper_01_page_03.png

Question Text:
According to the passage, managers blame developer productivity because they:

Options:
- **(A)** do not trust developers
- **(B)** see only the delivered features and not the hidden extra effort
- **(C)** are unaware that software can be refactored
- **(D)** have reserved too little time for sprints

Correct Answer: Option **(B)** — `see only the delivered features and not the hidden extra effort`

Detailed Explanation & Grammatical / Textual Justification:
The passage states explicitly: 'yet managers, seeing only the delivered functionality, attribute the slowdown to declining developer productivity.' Because the background drag of unrecorded debt is invisible to them, they blame the engineers.

Question ITM-P01-Q28 (Infosys System Engineer ITM Mock Paper 1 - Q28)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_01_page_04.png

Question Text:
Which statement would critics of fixed repayment quotas most likely agree with?

Options:
- **(A)** Repayment effort should target genuine risks rather than meet a set proportion
- **(B)** Refactoring should be abandoned entirely
- **(C)** Cosmetic rewrites are the most valuable form of repayment
- **(D)** Sprints should be lengthened

Correct Answer: Option **(A)** — `Repayment effort should target genuine risks rather than meet a set proportion`

Detailed Explanation & Grammatical / Textual Justification:
Critics argue that fixed quotas 'are arbitrary and encourage cosmetic rewrites that leave real risks untouched.' Hence, they would advocate targeting repayment where high, genuine risks exist rather than meeting a rigid percentage.

Question ITM-P01-Q29 (Infosys System Engineer ITM Mock Paper 1 - Q29)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_01_page_04.png

Question Text:
In the passage, "interest" most nearly refers to:

Options:
- **(A)** money paid to lenders
- **(B)** the recurring additional effort imposed on future changes
- **(C)** the curiosity of developers
- **(D)** the profit from a market opportunity

Correct Answer: Option **(B)** — `the recurring additional effort imposed on future changes`

Detailed Explanation & Grammatical / Textual Justification:
The passage defines interest directly: 'the interest, meaning the extra effort every future change demands'.

Question ITM-P01-Q30 (Infosys System Engineer ITM Mock Paper 1 - Q30)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_01_page_04.png

Question Text:
Which of the following is NOT supported by the passage?

Options:
- **(A)** Borrowing can sometimes be a shrewd decision
- **(B)** A slowdown in delivery always indicates falling developer productivity
- **(C)** Tracking defect-prone modules can help identify costly debt
- **(D)** Debt is often left unrecorded in practice

Sentence Correction (Q31–35). Choose the best replacement for the bold part.

Correct Answer: Option **(B)** — `A slowdown in delivery always indicates falling developer productivity`

Detailed Explanation & Grammatical / Textual Justification:
The passage explicitly notes that a delivery slowdown is often caused by accumulated technical debt rather than declining developer productivity, so the claim that slowdown 'always indicates falling developer productivity' is false and NOT supported.

Question ITM-P01-Q31 (Infosys System Engineer ITM Mock Paper 1 - Q31)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_01_page_04.png

Question Text:
Neither the manager nor the engineers was aware of the revised deadline.

Options:
- **(A)** No improvement
- **(B)** engineers were
- **(C)** engineers has been
- **(D)** engineer were

Correct Answer: Option **(B)** — `engineers were`

Detailed Explanation & Grammatical / Textual Justification:
With correlative conjunctions 'neither... nor', the verb agrees in number with the nearer subject. Here, the nearer subject is 'engineers' (plural), which requires the plural past verb 'were'. Correct: 'Neither the manager nor the engineers were aware of the revised deadline.'

Question ITM-P01-Q32 (Infosys System Engineer ITM Mock Paper 1 - Q32)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_01_page_04.png

Question Text:
Had the team would have tested the patch thoroughly, the outage could have been avoided.

Options:
- **(A)** No improvement
- **(B)** Had the team tested
- **(C)** Has the team tested
- **(D)** If the team would test

Correct Answer: Option **(B)** — `Had the team tested`

Detailed Explanation & Grammatical / Textual Justification:
Inverted third conditional structure uses 'Had + subject + past participle'. The conditional clause cannot contain 'would have'. Correct: 'Had the team tested the patch thoroughly, the outage could have been avoided.'

Question ITM-P01-Q33 (Infosys System Engineer ITM Mock Paper 1 - Q33)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_01_page_04.png

Question Text:
Hardly the server had restarted when the alerts began flooding in.

Options:
- **(A)** No improvement
- **(B)** had the server restarted when
- **(C)** did the server restarted when
- **(D)** the server
restarted than

Correct Answer: Option **(B)** — `had the server restarted when`

Detailed Explanation & Grammatical / Textual Justification:
Negative adverbial 'Hardly' placed at the beginning of a clause triggers negative inversion: 'Hardly had + subject + past participle... when...'. Correct: 'Hardly had the server restarted when the alerts began flooding in.'

Question ITM-P01-Q34 (Infosys System Engineer ITM Mock Paper 1 - Q34)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_01_page_04.png

Question Text:
The number of applicants are increasing, but a large number of them lacks the required skills.

Options:
- **(A)** are ... lacks
- **(B)** is ... lack
- **(C)** is ... lacks
- **(D)** are ... lack

Correct Answer: Option **(B)** — `is … lack`

Detailed Explanation & Grammatical / Textual Justification:
'The number of' denotes a singular collective quantity and takes a singular verb ('is increasing'). In contrast, 'a large number of' denotes a plural quantity of individuals and takes a plural verb ('lack the required skills'). Correct: 'is ... lack'.

Question ITM-P01-Q35 (Infosys System Engineer ITM Mock Paper 1 - Q35)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_01_page_04.png

Question Text:
Each of the interns, along with their mentor, were invited to present.

Options:
- **(A)** No improvement
- **(B)** was
- **(C)** are
- **(D)** have been

Para-jumbles (Q36–38). Arrange the sentences in the correct order.

Correct Answer: Option **(B)** — `was`

Detailed Explanation & Grammatical / Textual Justification:
The true grammatical subject of the sentence is 'Each' (distributive pronoun, singular). Parenthetical prepositional phrases like 'along with their mentor' do not alter the grammatical number of the subject. Correct: 'was'.

Question ITM-P01-Q36 (Infosys System Engineer ITM Mock Paper 1 - Q36)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_01_page_04.png

Question Text:
P: However, the prototype failed under real-world load.
Q: The engineers were confident that their design was flawless.
R: Post-mortem analysis revealed that no load testing had been performed.
S: Consequently, the launch was postponed by three months.

Options:
- **(A)** QPRS
- **(B)** QRPS
- **(C)** PQRS
- **(D)** QSPR

Correct Answer: Option **(A)** — `QPRS`

Detailed Explanation & Grammatical / Textual Justification:
Coherent narrative flow: Q introduces initial state ('The engineers were confident...'), P introduces the contrast ('However, the prototype failed...'), R explains the underlying cause ('Post-mortem analysis revealed...'), and S delivers the project outcome ('Consequently, the launch was postponed...'). Order: QPRS.

Question ITM-P01-Q37 (Infosys System Engineer ITM Mock Paper 1 - Q37)

Section: Section 3: Verbal Ability | **Page:** 5
Visual Reference Plate: paper_01_page_05.png

Question Text:
P: Rather, they encourage people to think about how the story might have unfolded differently.
Q: Counterfactual questions such as "What if the treaty had never been signed?" are popular with historians.
R: They do not aim to predict what would actually have happened.
S: Such speculation, when disciplined, can illuminate the forces that shaped real events.

Options:
- **(A)** QRPS
- **(B)** QPRS
- **(C)** RQPS
- **(D)** QRSP

Correct Answer: Option **(A)** — `QRPS`

Detailed Explanation & Grammatical / Textual Justification:
Logical progression: Q introduces the subject ('Counterfactual questions... are popular with historians'), R defines their negative boundary ('They do not aim to predict...'), P introduces the positive counterpart ('Rather, they encourage people to think...'), and S summarizes their scholarly value ('Such speculation... can illuminate real events'). Order: QRPS.

Question ITM-P01-Q38 (Infosys System Engineer ITM Mock Paper 1 - Q38)

Section: Section 3: Verbal Ability | **Page:** 5
Visual Reference Plate: paper_01_page_05.png

Question Text:
P: The first industrial robots were deployed on car assembly lines in the 1960s.
Q: Today, collaborative robots work safely alongside humans.
R: These early machines were caged off, since they could not sense human presence.
S: Advances in sensors and software have since removed this limitation.

Options:
- **(A)** PRSQ
- **(B)** PQRS
- **(C)** PSRQ
- **(D)** RPSQ

Vocabulary, Synonyms and Antonyms (Q39–45).

Correct Answer: Option **(A)** — `PRSQ`

Detailed Explanation & Grammatical / Textual Justification:
Chronological progression: P establishes historical origin in the 1960s ('The first industrial robots were deployed...'), R describes their initial physical limitations ('These early machines were caged off...'), S explains how modern technology overcame the limit ('Advances in sensors... have since removed this limitation'), and Q describes the present state ('Today, collaborative robots work safely...'). Order: PRSQ.

Question ITM-P01-Q39 (Infosys System Engineer ITM Mock Paper 1 - Q39)

Section: Section 3: Verbal Ability | **Page:** 5
Visual Reference Plate: paper_01_page_05.png

Question Text:
The auditor's meticulous approach uncovered discrepancies others had missed. "Meticulous" means:

Options:
- **(A)** hasty
- **(B)** painstakingly careful
- **(C)** aggressive
- **(D)** casual

Correct Answer: Option **(B)** — `painstakingly careful`

Detailed Explanation & Grammatical / Textual Justification:
'Meticulous' means showing great attention to detail; very careful and precise. Hence, 'painstakingly careful'.

Question ITM-P01-Q40 (Infosys System Engineer ITM Mock Paper 1 - Q40)

Section: Section 3: Verbal Ability | **Page:** 5
Visual Reference Plate: paper_01_page_05.png

Question Text:
The contract was deliberately worded to obfuscate the penalty clauses. "Obfuscate" means:

Options:
- **(A)** highlight
- **(B)** simplify
- **(C)** make obscure
- **(D)** cancel

Correct Answer: Option **(C)** — `make obscure`

Detailed Explanation & Grammatical / Textual Justification:
'Obfuscate' means to make obscure, unclear, or unintelligible.

Question ITM-P01-Q41 (Infosys System Engineer ITM Mock Paper 1 - Q41)

Section: Section 3: Verbal Ability | **Page:** 5
Visual Reference Plate: paper_01_page_05.png

Question Text:
Fill in the blank: The startup's success proved _____; within a year it had vanished.

Options:
- **(A)** enduring
- **(B)** ephemeral
- **(C)** robust
- **(D)** inevitable

Correct Answer: Option **(B)** — `ephemeral`

Detailed Explanation & Grammatical / Textual Justification:
'Ephemeral' means lasting for a very short time; transitory. Since the startup vanished within a year, its success was ephemeral.

Question ITM-P01-Q42 (Infosys System Engineer ITM Mock Paper 1 - Q42)

Section: Section 3: Verbal Ability | **Page:** 5
Visual Reference Plate: paper_01_page_05.png

Question Text:
Synonym of UBIQUITOUS:

Options:
- **(A)** rare
- **(B)** omnipresent
- **(C)** ancient
- **(D)** hidden

Correct Answer: Option **(B)** — `omnipresent`

Detailed Explanation & Grammatical / Textual Justification:
'Ubiquitous' means present, appearing, or found everywhere; omnipresent.

Question ITM-P01-Q43 (Infosys System Engineer ITM Mock Paper 1 - Q43)

Section: Section 3: Verbal Ability | **Page:** 5
Visual Reference Plate: paper_01_page_05.png

Question Text:
Synonym of RECALCITRANT:

Options:
- **(A)** obedient
- **(B)** obstinate
- **(C)** cheerful
- **(D)** timid

Correct Answer: Option **(B)** — `obstinate`

Detailed Explanation & Grammatical / Textual Justification:
'Recalcitrant' means having an obstinately uncooperative attitude towards authority or discipline; obstinate.

Question ITM-P01-Q44 (Infosys System Engineer ITM Mock Paper 1 - Q44)

Section: Section 3: Verbal Ability | **Page:** 5
Visual Reference Plate: paper_01_page_05.png

Question Text:
Antonym of LOQUACIOUS:

Options:
- **(A)** talkative
- **(B)** taciturn
- **(C)** eloquent
- **(D)** boisterous

Correct Answer: Option **(B)** — `taciturn`

Detailed Explanation & Grammatical / Textual Justification:
'Loquacious' means tending to talk a great deal; talkative. The antonym is 'taciturn' (reserved or uncommunicative in speech).

Question ITM-P01-Q45 (Infosys System Engineer ITM Mock Paper 1 - Q45)

Section: Section 3: Verbal Ability | **Page:** 5
Visual Reference Plate: paper_01_page_05.png

Question Text:
Antonym of MAGNANIMOUS:

Options:
- **(A)** generous
- **(B)** noble
- **(C)** petty
- **(D)** tolerant

Correct Answer: Option **(C)** — `petty`

Detailed Explanation & Grammatical / Textual Justification:
'Magnanimous' means generous or forgiving, especially towards a rival or someone less powerful. The antonym is 'petty' (narrow-minded, spiteful, or mean).

Question ITM-P02-Q26 (Infosys System Engineer ITM Mock Paper 2 - Q26)

Section: Section 3: Verbal Ability | **Page:** 3
Visual Reference Plate: paper_02_page_03.png

Question Text:
The passage primarily argues that:

Options:
- **(A)** Automation should be avoided in critical systems
- **(B)** Automation shifts the location of errors rather than eliminating them, so monitoring must assume silent failure
- **(C)** Human operators are always more reliable than automated systems
- **(D)** Aviation and IT face identical automation challenges

Correct Answer: Option **(B)** — `Automation shifts the location of errors rather than eliminating them, so monitoring must assume silent failure`

Detailed Explanation & Grammatical / Textual Justification:
According to the reading comprehension passage for Paper 2, option (B) is directly supported and established by the author's primary thesis and supporting textual arguments.

Question ITM-P02-Q27 (Infosys System Engineer ITM Mock Paper 2 - Q27)

Section: Section 3: Verbal Ability | **Page:** 3
Visual Reference Plate: paper_02_page_03.png

Question Text:
According to the passage, complacency arises because:

Options:
- **(A)** operators are poorly trained
- **(B)** the automation is rarely wrong, so vigilance declines
- **(C)** the rules are too complex to follow
- **(D)** engineers do not trust the system

Correct Answer: Option **(B)** — `the automation is rarely wrong, so vigilance declines`

Detailed Explanation & Grammatical / Textual Justification:
According to the reading comprehension passage for Paper 2, option (B) is directly supported and established by the author's primary thesis and supporting textual arguments.

Question ITM-P02-Q28 (Infosys System Engineer ITM Mock Paper 2 - Q28)

Section: Section 3: Verbal Ability | **Page:** 3
Visual Reference Plate: paper_02_page_03.png

Question Text:
The phrase "fail silently" in the passage most nearly means:

Options:
- **(A)** the system stops working with an alarm
- **(B)** the system errs without producing any visible warning
- **(C)** the system asks for human confirmation
- **(D)** the system shuts down automatically

Correct Answer: Option **(B)** — `the system errs without producing any visible warning`

Detailed Explanation & Grammatical / Textual Justification:
According to the reading comprehension passage for Paper 2, option (B) is directly supported and established by the author's primary thesis and supporting textual arguments.

Question ITM-P02-Q29 (Infosys System Engineer ITM Mock Paper 2 - Q29)

Section: Section 3: Verbal Ability | **Page:** 3
Visual Reference Plate: paper_02_page_03.png

Question Text:
Which of these would the author most likely recommend?

Options:
- **(A)** Removing automation from enterprise systems entirely
- **(B)** Designing escalation processes that do not rely solely on human vigilance
- **(C)** Increasing the frequency of manual data entry
- **(D)** Trusting automated systems completely once proven reliable

Correct Answer: Option **(B)** — `Designing escalation processes that do not rely solely on human vigilance`

Detailed Explanation & Grammatical / Textual Justification:
According to the reading comprehension passage for Paper 2, option (B) is directly supported and established by the author's primary thesis and supporting textual arguments.

Question ITM-P02-Q30 (Infosys System Engineer ITM Mock Paper 2 - Q30)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_02_page_04.png

Question Text:
Which of the following is NOT stated or implied in the passage?

Options:
- **(A)** New failure modes can appear in the design of automation rules
- **(B)** Reliable automation can reduce the vigilance of human operators
- **(C)** The passage argues automation should never be trusted
- **(D)** Errors caught late can propagate further
Sentence Correction (Q31–35).

Correct Answer: Option **(C)** — `The passage argues automation should never be trusted`

Detailed Explanation & Grammatical / Textual Justification:
According to the reading comprehension passage for Paper 2, option (C) is directly supported and established by the author's primary thesis and supporting textual arguments.

Question ITM-P02-Q31 (Infosys System Engineer ITM Mock Paper 2 - Q31)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_02_page_04.png

Question Text:
Each of the servers in the cluster have its own dedicated backup.

Options:
- **(A)** No improvement
- **(B)** has
- **(C)** having
- **(D)** had

Correct Answer: Option **(B)** — `has`

Detailed Explanation & Grammatical / Textual Justification:
"Each" is singular, so the verb must be "has".

Question ITM-P02-Q32 (Infosys System Engineer ITM Mock Paper 2 - Q32)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_02_page_04.png

Question Text:
Scarcely had the deployment finished than the monitoring alerts started.

Options:
- **(A)** No improvement
- **(B)** Scarcely had the deployment finished when
- **(C)** Scarcely did the deployment finish
than
- **(D)** Scarcely the deployment had finished when

Correct Answer: Option **(B)** — `Scarcely had the deployment finished when`

Detailed Explanation & Grammatical / Textual Justification:
"Scarcely...when" is the correct pairing, not "than".

Question ITM-P02-Q33 (Infosys System Engineer ITM Mock Paper 2 - Q33)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_02_page_04.png

Question Text:
The report, along with its supporting data sheets, were submitted before the deadline.

Options:
- **(A)** No improvement
- **(B)** was submitted
- **(C)** have been submitted
- **(D)** are submitted

Correct Answer: Option **(B)** — `was submitted`

Detailed Explanation & Grammatical / Textual Justification:
"The report" is the true (singular) subject; "along with..." does not pluralize it, so "was submitted".

Question ITM-P02-Q34 (Infosys System Engineer ITM Mock Paper 2 - Q34)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_02_page_04.png

Question Text:
If I was you, I would escalate this incident immediately.

Options:
- **(A)** No improvement
- **(B)** If I were you
- **(C)** If I am you
- **(D)** If I had been you

Correct Answer: Option **(B)** — `If I were you`

Detailed Explanation & Grammatical / Textual Justification:
Hypothetical conditions use the subjunctive "were" after "if", regardless of subject.

Question ITM-P02-Q35 (Infosys System Engineer ITM Mock Paper 2 - Q35)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_02_page_04.png

Question Text:
Not only the developer but also the testers was responsible for the missed defect.

Options:
- **(A)** No improvement
- **(B)** were responsible
- **(C)** is responsible
- **(D)** had been responsible

Para-jumbles (Q36–38).

Correct Answer: Option **(B)** — `were responsible`

Detailed Explanation & Grammatical / Textual Justification:
With "not only...but also" joining two subjects, the verb agrees with the nearer one (testers, plural), so "were responsible".

Question ITM-P02-Q36 (Infosys System Engineer ITM Mock Paper 2 - Q36)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_02_page_04.png

Question Text:
P: Yet within weeks, unexplained crashes began appearing in production.
Q: The new caching layer initially seemed to improve response times dramatically.
R: Investigation traced the crashes to a race condition the load tests had never triggered.
S: The team subsequently rewrote the load-testing suite to include concurrent write scenarios.

Options:
- **(A)** QPRS
- **(B)** QRPS
- **(C)** PQRS
- **(D)** QSPR

Correct Answer: Option **(A)** — `QPRS`

Detailed Explanation & Grammatical / Textual Justification:
Sentence sequence: Q→P→R→S.. Coherent narrative progression establishes logical flow from premise to supporting detail and conclusion.

Question ITM-P02-Q37 (Infosys System Engineer ITM Mock Paper 2 - Q37)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_02_page_04.png

Question Text:
P: They are, instead, thought experiments that isolate one variable at a time.
Q: Economic models are often criticised for their unrealistic assumptions.
R: This deliberate simplification is what makes them useful, not despite the unrealism but because of it.
S: Critics forget that the models were never meant to be literal descriptions of the economy.

Options:
- **(A)** QSPR
- **(B)** QPSR
- **(C)** QSRP
- **(D)** SQPR

Correct Answer: Option **(A)** — `QSPR`

Detailed Explanation & Grammatical / Textual Justification:
Sentence sequence: Q→S→P→R.. Coherent narrative progression establishes logical flow from premise to supporting detail and conclusion.

Question ITM-P02-Q38 (Infosys System Engineer ITM Mock Paper 2 - Q38)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_02_page_04.png

Question Text:
P: Consequently, the interface today handles ten times the daily traffic it was designed for.
Q: The original API was built to serve a handful of internal tools.
R: Over time, external partners began integrating with it as well.
S: No one anticipated that this informal adoption would continue for years.

Options:
- **(A)** QRSP
- **(B)** QSRP
- **(C)** QRPS
- **(D)** RQSP

Vocabulary, Synonyms and Antonyms (Q39–45).

Correct Answer: Option **(A)** — `QRSP`

Detailed Explanation & Grammatical / Textual Justification:
Sentence sequence: Q→R→S→P.. Coherent narrative progression establishes logical flow from premise to supporting detail and conclusion.

Question ITM-P02-Q39 (Infosys System Engineer ITM Mock Paper 2 - Q39)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_02_page_04.png

Question Text:
The consultant's cursory review missed several critical vulnerabilities. "Cursory" means:

Options:
- **(A)** thorough
- **(B)** hasty and superficial
- **(C)** expensive
- **(D)** delayed

Correct Answer: Option **(B)** — `hasty and superficial`

Detailed Explanation & Grammatical / Textual Justification:
Standard vocabulary / grammatical definition establishes that option (B) is the exact synonym/antonym/definition required in this context.

Question ITM-P02-Q40 (Infosys System Engineer ITM Mock Paper 2 - Q40)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_02_page_04.png

Question Text:
The new policy was met with tacit approval from the board. "Tacit" means:

Options:
- **(A)** loudly announced
- **(B)** implied without being stated
- **(C)** formally written
- **(D)** rejected

Correct Answer: Option **(B)** — `implied without being stated`

Detailed Explanation & Grammatical / Textual Justification:
Standard vocabulary / grammatical definition establishes that option (B) is the exact synonym/antonym/definition required in this context.

Question ITM-P02-Q41 (Infosys System Engineer ITM Mock Paper 2 - Q41)

Section: Section 3: Verbal Ability | **Page:** 5
Visual Reference Plate: paper_02_page_05.png

Question Text:
Fill in the blank: Despite the outage, the support team remained _____, calmly working through the incident.

Options:
- **(A)** frantic
- **(B)** unflappable
- **(C)** indifferent
- **(D)** negligent

Correct Answer: Option **(B)** — `unflappable`

Detailed Explanation & Grammatical / Textual Justification:
Standard vocabulary / grammatical definition establishes that option (B) is the exact synonym/antonym/definition required in this context.

Question ITM-P02-Q42 (Infosys System Engineer ITM Mock Paper 2 - Q42)

Section: Section 3: Verbal Ability | **Page:** 5
Visual Reference Plate: paper_02_page_05.png

Question Text:
Synonym of PRAGMATIC:

Options:
- **(A)** idealistic
- **(B)** practical
- **(C)** theoretical
- **(D)** emotional

Correct Answer: Option **(B)** — `practical`

Detailed Explanation & Grammatical / Textual Justification:
Standard vocabulary / grammatical definition establishes that option (B) is the exact synonym/antonym/definition required in this context.

Question ITM-P02-Q43 (Infosys System Engineer ITM Mock Paper 2 - Q43)

Section: Section 3: Verbal Ability | **Page:** 5
Visual Reference Plate: paper_02_page_05.png

Question Text:
Synonym of VOLATILE:

Options:
- **(A)** stable
- **(B)** unpredictable
- **(C)** calm
- **(D)** gradual

Correct Answer: Option **(B)** — `unpredictable`

Detailed Explanation & Grammatical / Textual Justification:
Standard vocabulary / grammatical definition establishes that option (B) is the exact synonym/antonym/definition required in this context.

Question ITM-P02-Q44 (Infosys System Engineer ITM Mock Paper 2 - Q44)

Section: Section 3: Verbal Ability | **Page:** 5
Visual Reference Plate: paper_02_page_05.png

Question Text:
Antonym of CONCISE:

Options:
- **(A)** brief
- **(B)** verbose
- **(C)** clear
- **(D)** precise

Correct Answer: Option **(B)** — `verbose`

Detailed Explanation & Grammatical / Textual Justification:
Standard vocabulary / grammatical definition establishes that option (B) is the exact synonym/antonym/definition required in this context.

Question ITM-P02-Q45 (Infosys System Engineer ITM Mock Paper 2 - Q45)

Section: Section 3: Verbal Ability | **Page:** 5
Visual Reference Plate: paper_02_page_05.png

Question Text:
Antonym of DILIGENT:

Options:
- **(A)** hardworking
- **(B)** careful
- **(C)** lazy
- **(D)** thorough

Correct Answer: Option **(C)** — `lazy`

Detailed Explanation & Grammatical / Textual Justification:
Section 4: Pseudo Code

Question ITM-P03-Q26 (Infosys System Engineer ITM Mock Paper 3 - Q26)

Section: Section 3: Verbal Ability | **Page:** 3
Visual Reference Plate: paper_03_page_03.png

Question Text:
The passage's central claim is that inaccurate software estimates stem primarily from:

Options:
- **(A)** Inadequate estimation techniques that fail to model complexity
- **(B)** An organisational incentive structure that rewards optimistic estimates over accurate ones
- **(C)** The inherent unpredictability of software requirements
- **(D)** A lack of contingency buffers in project schedules

Correct Answer: Option **(B)** — `An organisational incentive structure that rewards optimistic estimates over accurate ones`

Detailed Explanation & Grammatical / Textual Justification:
According to the reading comprehension passage for Paper 3, option (B) is directly supported and established by the author's primary thesis and supporting textual arguments.

Question ITM-P03-Q27 (Infosys System Engineer ITM Mock Paper 3 - Q27)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_03_page_04.png

Question Text:
According to the passage, the "student syndrome" refers to:

Options:
- **(A)** Estimators lacking sufficient training in statistical methods
- **(B)** Visible schedule buffers being treated as reclaimable slack rather than reserved risk
- **(C)** Junior developers underestimating their own task durations
- **(D)** Students generally being poor at time management

Correct Answer: Option **(B)** — `Visible schedule buffers being treated as reclaimable slack rather than reserved risk`

Detailed Explanation & Grammatical / Textual Justification:
According to the reading comprehension passage for Paper 3, option (B) is directly supported and established by the author's primary thesis and supporting textual arguments.

Question ITM-P03-Q28 (Infosys System Engineer ITM Mock Paper 3 - Q28)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_03_page_04.png

Question Text:
Which of the following best captures the "structural asymmetry" the author describes?

Options:
- **(A)** Overestimation carries immediate, visible costs, while underestimation's costs are delayed and diffuse
- **(B)** Function point analysis is less accurate than story point velocity
- **(C)** Management scrutinises all estimates equally regardless of direction
- **(D)** Contingency buffers eliminate the risk of underestimation

Correct Answer: Option **(A)** — `Overestimation carries immediate, visible costs, while underestimation's costs are delayed and diffuse`

Detailed Explanation & Grammatical / Textual Justification:
According to the reading comprehension passage for Paper 3, option (A) is directly supported and established by the author's primary thesis and supporting textual arguments.

Question ITM-P03-Q29 (Infosys System Engineer ITM Mock Paper 3 - Q29)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_03_page_04.png

Question Text:
The author implies that adding explicit contingency buffers to schedules:

Options:
- **(A)** Always improves estimation accuracy
- **(B)** Can be counterproductive once stakeholders perceive the buffer as available slack
- **(C)** Is the only reliable solution to the estimation problem
- **(D)** Has no effect on stakeholder behaviour

Correct Answer: Option **(B)** — `Can be counterproductive once stakeholders perceive the buffer as available slack`

Detailed Explanation & Grammatical / Textual Justification:
According to the reading comprehension passage for Paper 3, option (B) is directly supported and established by the author's primary thesis and supporting textual arguments.

Question ITM-P03-Q30 (Infosys System Engineer ITM Mock Paper 3 - Q30)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_03_page_04.png

Question Text:
Which statement would the author most likely dispute?

Options:
- **(A)** Estimation techniques themselves are the primary obstacle to accurate forecasting
- **(B)** Incentives shape estimation behaviour independent of technique sophistication
- **(C)** A padded estimate can cost a bid before work begins
- **(D)** Underestimation costs tend to surface only over the course of a project
Sentence Correction (Q31–35).

Correct Answer: Option **(A)** — `Estimation techniques themselves are the primary obstacle to accurate forecasting`

Detailed Explanation & Grammatical / Textual Justification:
According to the reading comprehension passage for Paper 3, option (A) is directly supported and established by the author's primary thesis and supporting textual arguments.

Question ITM-P03-Q31 (Infosys System Engineer ITM Mock Paper 3 - Q31)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_03_page_04.png

Question Text:
Not only was the deployment delayed by unforeseen dependencies, it also required a complete rollback of the previous release.

Options:
- **(A)** No improvement
- **(B)** but it also required
- **(C)** also it required
- **(D)** but also it required

Correct Answer: Option **(B)** — `but it also required`

Detailed Explanation & Grammatical / Textual Justification:
"Not only...but" needs "but" to complete the correlative pair; "but it also required" is the standard, grammatical form.

Question ITM-P03-Q32 (Infosys System Engineer ITM Mock Paper 3 - Q32)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_03_page_04.png

Question Text:
The findings, which the researchers were confident in it, contradicted the earlier hypothesis.

Options:
- **(A)** No improvement
- **(B)** which the researchers were confident about it
- **(C)** in which the researchers were
confident
- **(D)** that the researchers were confident of it

Correct Answer: Option **(C)** — `in which the researchers were confident`

Detailed Explanation & Grammatical / Textual Justification:
The redundant pronoun "it" must be dropped, and the preposition placed before the relative pronoun: "in which the researchers were confident".

Question ITM-P03-Q33 (Infosys System Engineer ITM Mock Paper 3 - Q33)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_03_page_04.png

Question Text:
Having reviewed the architecture for three days, the decision was made to migrate to microservices.

Options:
- **(A)** No improvement
- **(B)** the team decided
- **(C)** it was decided by the team
- **(D)** the migration decision was made

Correct Answer: Option **(B)** — `the team decided`

Detailed Explanation & Grammatical / Textual Justification:
"Having reviewed..." is a dangling modifier — it must describe the people who did the reviewing, so the sentence needs an explicit human subject: "the team decided".

Question ITM-P03-Q34 (Infosys System Engineer ITM Mock Paper 3 - Q34)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_03_page_04.png

Question Text:
The new algorithm is more efficient as compared to the previous version.

Options:
- **(A)** No improvement
- **(B)** more efficient than
- **(C)** more efficient in comparison of
- **(D)** as more efficient than

Correct Answer: Option **(B)** — `more efficient than`

Detailed Explanation & Grammatical / Textual Justification:
The correct comparative form is simply "more efficient than", not "as compared to".

Question ITM-P03-Q35 (Infosys System Engineer ITM Mock Paper 3 - Q35)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_03_page_04.png

Question Text:
Having been informed of the outage, immediate action was taken by the on-call engineer.

Options:
- **(A)** No improvement
- **(B)** the on-call engineer took immediate action
- **(C)** it was immediately actioned by the on-call engineer
- **(D)** immediate action, taken by the on-call engineer

Para-jumbles (Q36–38).

Correct Answer: Option **(B)** — `the on-call engineer took immediate action`

Detailed Explanation & Grammatical / Textual Justification:
Another dangling modifier — "Having been informed..." must attach to "the on-call engineer", who was informed and then acted.

Question ITM-P03-Q36 (Infosys System Engineer ITM Mock Paper 3 - Q36)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_03_page_04.png

Question Text:
P: Yet the very flexibility that made the format popular also made it difficult to validate programmatically.
Q: JSON emerged as a lightweight alternative to XML for data interchange between web services.
R: Schema languages such as JSON Schema were developed specifically to address this gap.
S: Unlike XML, it dispensed with the rigid schema definitions many developers found cumbersome.

Options:
- **(A)** QSPR

- **(B)** QPSR
- **(C)** SQPR
- **(D)** QSRP

Correct Answer: Option **(A)** — `QSPR`

Detailed Explanation & Grammatical / Textual Justification:
Sentence sequence: Q→S→P→R.. Coherent narrative progression establishes logical flow from premise to supporting detail and conclusion.

Question ITM-P03-Q37 (Infosys System Engineer ITM Mock Paper 3 - Q37)

Section: Section 3: Verbal Ability | **Page:** 5
Visual Reference Plate: paper_03_page_05.png

Question Text:
P: This is because correlation alone cannot distinguish a cause from a shared underlying factor.
Q: Two variables can move together closely across an entire dataset without either one causing the other.
R: Researchers therefore rely on controlled experiments to isolate genuine causal effects.
S: Ice cream sales and drowning incidents, for instance, both rise in summer, driven by heat rather than by each other.

Options:
- **(A)** QSPR
- **(B)** QPSR
- **(C)** SQPR
- **(D)** QPRS

Correct Answer: Option **(A)** — `QSPR`

Detailed Explanation & Grammatical / Textual Justification:
Sentence sequence: Q→S→P→R.. Coherent narrative progression establishes logical flow from premise to supporting detail and conclusion.

Question ITM-P03-Q38 (Infosys System Engineer ITM Mock Paper 3 - Q38)

Section: Section 3: Verbal Ability | **Page:** 5
Visual Reference Plate: paper_03_page_05.png

Question Text:
P: The resulting backlog of unresolved tickets grew faster than the team could triage it.
Q: The support team initially handled every incoming ticket in the order it arrived.
R: A priority-based queue was introduced only after complaints about critical issues being delayed behind trivial ones.
S: This approach ignored the fact that some issues were far more urgent than others.

Options:
- **(A)** QSPR
- **(B)** QPSR
- **(C)** SQPR
- **(D)** PQSR

Vocabulary, Synonyms and Antonyms (Q39–45).

Correct Answer: Option **(A)** — `QSPR`

Detailed Explanation & Grammatical / Textual Justification:
Sentence sequence: Q→S→P→R.. Coherent narrative progression establishes logical flow from premise to supporting detail and conclusion.

Question ITM-P03-Q39 (Infosys System Engineer ITM Mock Paper 3 - Q39)

Section: Section 3: Verbal Ability | **Page:** 5
Visual Reference Plate: paper_03_page_05.png

Question Text:
The board's decision to proceed despite the warnings was widely seen as obstinate rather than courageous. "Obstinate" means:

Options:
- **(A)** flexible
- **(B)** stubbornly unwilling to change
- **(C)** courageous
- **(D)** uncertain

Correct Answer: Option **(B)** — `stubbornly unwilling to change`

Detailed Explanation & Grammatical / Textual Justification:
Standard vocabulary / grammatical definition establishes that option (B) is the exact synonym/antonym/definition required in this context.

Question ITM-P03-Q40 (Infosys System Engineer ITM Mock Paper 3 - Q40)

Section: Section 3: Verbal Ability | **Page:** 5
Visual Reference Plate: paper_03_page_05.png

Question Text:
His perfunctory apology did little to repair the damaged trust. "Perfunctory" means:

Options:
- **(A)** heartfelt
- **(B)** done as a mere formality, without real effort
- **(C)** delayed
- **(D)** elaborate

Correct Answer: Option **(B)** — `done as a mere formality, without real effort`

Detailed Explanation & Grammatical / Textual Justification:
Standard vocabulary / grammatical definition establishes that option (B) is the exact synonym/antonym/definition required in this context.

Question ITM-P03-Q41 (Infosys System Engineer ITM Mock Paper 3 - Q41)

Section: Section 3: Verbal Ability | **Page:** 5
Visual Reference Plate: paper_03_page_05.png

Question Text:
Fill in the blank: The consultant's report was criticised for being
, offering broad generalisations
instead of concrete recommendations.

Options:
- **(A)** meticulous
- **(B)** vague
- **(C)** precise
- **(D)** exhaustive

Correct Answer: Option **(B)** — `vague`

Detailed Explanation & Grammatical / Textual Justification:
Standard vocabulary / grammatical definition establishes that option (B) is the exact synonym/antonym/definition required in this context.

Question ITM-P03-Q42 (Infosys System Engineer ITM Mock Paper 3 - Q42)

Section: Section 3: Verbal Ability | **Page:** 5
Visual Reference Plate: paper_03_page_05.png

Question Text:
Synonym of INSCRUTABLE:

Options:
- **(A)** transparent
- **(B)** unfathomable
- **(C)** predictable
- **(D)** simple

Correct Answer: Option **(B)** — `unfathomable`

Detailed Explanation & Grammatical / Textual Justification:
Standard vocabulary / grammatical definition establishes that option (B) is the exact synonym/antonym/definition required in this context.

Question ITM-P03-Q43 (Infosys System Engineer ITM Mock Paper 3 - Q43)

Section: Section 3: Verbal Ability | **Page:** 5
Visual Reference Plate: paper_03_page_05.png

Question Text:
Synonym of PROFLIGATE:

Options:
- **(A)** frugal
- **(B)** wasteful
- **(C)** careful
- **(D)** modest

Correct Answer: Option **(B)** — `wasteful`

Detailed Explanation & Grammatical / Textual Justification:
Standard vocabulary / grammatical definition establishes that option (B) is the exact synonym/antonym/definition required in this context.

Question ITM-P03-Q44 (Infosys System Engineer ITM Mock Paper 3 - Q44)

Section: Section 3: Verbal Ability | **Page:** 5
Visual Reference Plate: paper_03_page_05.png

Question Text:
Antonym of ASSIDUOUS:

Options:
- **(A)** diligent
- **(B)** careful
- **(C)** negligent
- **(D)** thorough

Correct Answer: Option **(C)** — `negligent`

Detailed Explanation & Grammatical / Textual Justification:
Standard vocabulary / grammatical definition establishes that option (C) is the exact synonym/antonym/definition required in this context.

Question ITM-P03-Q45 (Infosys System Engineer ITM Mock Paper 3 - Q45)

Section: Section 3: Verbal Ability | **Page:** 5
Visual Reference Plate: paper_03_page_05.png

Question Text:
Antonym of EPHEMERAL:

Options:
- **(A)** fleeting
- **(B)** permanent
- **(C)** brief
- **(D)** transient

Correct Answer: Option **(B)** — `permanent`

Detailed Explanation & Grammatical / Textual Justification:
Section 4: Pseudo Code

Question ITM-P04-Q26 (Infosys System Engineer ITM Mock Paper 4 - Q26)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_04_page_04.png

Question Text:
According to the passage, the CAP theorem is frequently misapplied because:

Options:
- **(A)** Partition tolerance is wrongly treated as an optional design choice when it is effectively mandatory
- **(B)** Consistency is always more important than availability
- **(C)** The theorem does not apply to payment systems
- **(D)** Network partitions rarely occur in practice

Correct Answer: Option **(A)** — `Partition tolerance is wrongly treated as an optional design choice when it is effectively mandatory`

Detailed Explanation & Grammatical / Textual Justification:
According to the reading comprehension passage for Paper 4, option (A) is directly supported and established by the author's primary thesis and supporting textual arguments.

Question ITM-P04-Q27 (Infosys System Engineer ITM Mock Paper 4 - Q27)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_04_page_04.png

Question Text:
The payment-ledger versus product-catalogue example illustrates that:

Options:
- **(A)** Payment systems should never use distributed architecture
- **(B)** The consistency-availability trade-off can be made differently for different parts of the same overall system
- **(C)** Product catalogues are inherently less important than payment systems
- **(D)** Availability should always be prioritised over consistency

Correct Answer: Option **(B)** — `The consistency-availability trade-off can be made differently for different parts of the same overall system`

Detailed Explanation & Grammatical / Textual Justification:
According to the reading comprehension passage for Paper 4, option (B) is directly supported and established by the author's primary thesis and supporting textual arguments.

Question ITM-P04-Q28 (Infosys System Engineer ITM Mock Paper 4 - Q28)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_04_page_04.png

Question Text:
The phrase "a common and consequential misreading" refers to:

Options:
- **(A)** Confusing consistency with availability
- **(B)** Treating the CAP choice as one uniform, system-wide decision rather than one that can vary per service
- **(C)** Believing that partition tolerance can be sacrificed
- **(D)** Assuming all networks are reliable

Correct Answer: Option **(B)** — `Treating the CAP choice as one uniform, system-wide decision rather than one that can vary per service`

Detailed Explanation & Grammatical / Textual Justification:
According to the reading comprehension passage for Paper 4, option (B) is directly supported and established by the author's primary thesis and supporting textual arguments.

Question ITM-P04-Q29 (Infosys System Engineer ITM Mock Paper 4 - Q29)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_04_page_04.png

Question Text:
Which of the following would the author most likely agree with?

Options:
- **(A)** A single distributed system can legitimately favour consistency for one function and availability for another
- **(B)** The CAP theorem is largely irrelevant to real-world system design
- **(C)** Partition tolerance should be sacrificed whenever possible
- **(D)** All read-heavy services must prioritise consistency

Correct Answer: Option **(A)** — `A single distributed system can legitimately favour consistency for one function and availability for another`

Detailed Explanation & Grammatical / Textual Justification:
According to the reading comprehension passage for Paper 4, option (A) is directly supported and established by the author's primary thesis and supporting textual arguments.

Question ITM-P04-Q30 (Infosys System Engineer ITM Mock Paper 4 - Q30)

Section: Section 3: Verbal Ability | **Page:** 4
Visual Reference Plate: paper_04_page_04.png

Question Text:
Based on the passage, why is partition tolerance called a "structural necessity"?

Options:
- **(A)** Because regulations require it
- **(B)** Because any system communicating over an unreliable network cannot realistically avoid the possibility of partitions
- **(C)** Because consistency is always more important
- **(D)** Because availability is always more important

Correct Answer: Option **(B)** — `Because any system communicating over an unreliable network cannot realistically avoid the possibility of partitions`

Forensic Explanation & Textual Evidence:
According to the reading comprehension passage for Paper 4, network partitions are an inherent physical reality of distributed infrastructure. Thus, any distributed architecture communicating across unreliable networks must tolerate partitions by structural necessity, matching Option (B).
