Remainders, Cyclicity, Unit Digits, Divisibility Rules, Factors • Total Solved Questions: 41

[Campus Monk Day 01 Mock Test]

Topic: Quantitative Aptitude

Q1. Note : Type ans in Min Only without unit

(A) 72

Correct Answer: See Logic

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is .

[Campus Monk Day 01 Mock Test]

Topic: Quantitative Aptitude

Q2. If a 10-digit number= 5432y1749x is divisible by 72, then what is the value of (5x-4y)?

(A) 14

Correct Answer: See Logic

■ **Step-by-Step Logic:** Step 1: Apply divisibility rules and prime factorization properties. Step 2: Test the congruence conditions modulo the target divisors. Step 3: Verify the boundary constraints and prefix/suffix configurations. Step 4: The unique pair satisfying all modular constraints is .

[Campus Monk Day 01 Mock Test]

Topic: Quantitative Aptitude

Q3. In the given questions, two quantities are given, one as 'Quantity 1' and another as 'Quantity 2'. You have to determine relationship between two quantities and choose the appropriate option: Question: One of the roots is 1, find the other root

(A) Quantity 1 > Quantity 2

(B) Quantity 1 ≥ Quantity 2

(C) Quantity 2 > Quantity 1

(D) Quantity 2 ≥ Quantity 1

Correct Answer: Option (C) : Quantity 2 > Quantity 1

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (C) (Quantity 2 > Quantity 1).

[Campus Monk Day 02 Mock Test]

Topic: Quantitative Aptitude

Q4. In the IT department of backrub, the administrator password is changed every month. The team of administrators, spread across the globe, receive an 8 digit number via email. This number is to be prefixed with a single digit number and suffixed with a single digit number to get the actual password. The password is divisible by 11 and 8. If the team received 65351364 this month, then which of the following pairs give prefix and suffix respectively.

(A) 8, 9

(B) ---

(C) 3, 4

(D) 2, 7

Correct Answer: Option (B) : ---

■ **Step-by-Step Logic:** Step 1: Apply divisibility rules and prime factorization properties. Step 2: Test the congruence conditions modulo the target divisors. Step 3: Verify the boundary constraints and prefix/suffix configurations. Step 4: The unique pair satisfying all modular constraints is Option (B) (---).

[Campus Monk Day 02 Mock Test]

Topic: Quantitative Aptitude

Q5. In the IT department of backrub, the administrator password is changed every month. The team of administrator, spread across the globe, receive an 8 digits number via email. This number is to be prefixed with a single digit number and suffixed with a single digit number to get the actual password. The password is divisible by 11 and 8. If the team received 54218345 this month. Then which of the following pairs give valid prefix and suffix respectively?

(A) 3, 7

(B) ---

(C) 2, 4

(D) 4, 2

Correct Answer: Option (B) : ---

■ **Step-by-Step Logic:** Step 1: Apply divisibility rules and prime factorization properties. Step 2: Test the congruence conditions modulo the target divisors. Step 3: Verify the boundary constraints and prefix/suffix configurations. Step 4: The unique pair satisfying all modular constraints is Option (B) (---).

[Campus Monk Day 02 Mock Test]

Topic: Quantitative Aptitude

Q6. Rs. 3000 is distributed among A, B and C such that A gets 2/3 rd of what B and C together get and C gets 1/2 of what A and B together get. Find B's share.

(A) ---

(B) 1000

(C) 1200

(D) 1500

Correct Answer: Option (A) : ---

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (A) (---).

[Campus Monk Day 02 Mock Test]

Topic: Quantitative Aptitude

Q7. If the sum of five consecutive is S, then the largest of, those integers in term of S is:

(A) (S-10)/4

(B) (S+4)/4

(C) (S+5)/4

(D) ---

Correct Answer: Option (D) : ---

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (D) (---).

[Campus Monk Day 02 Mock Test]

Topic: Quantitative Aptitude

Q8. A container contains 40 liters of milk. From this container 4 liters of milk was taken out and replaced by water. This process was repeated further two times. How much milk Is now contained by the container?

(A) 26.34 liters

(B) ---

(C) 28.34 liters

(D) 29.18 liters

Correct Answer: Option (B) : ---

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (B) (---).

[Campus Monk Day 03 Mock Test]

Topic: Quantitative Aptitude

Q9. Find the missing number in the given seriese. 2, 7, 10, 22, 18, 37, 26,?

(A) 42
(B) ---
(C) 46
(D) 62

Correct Answer: Option (B) : ---

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (B) (---).

[Campus Monk Day 03 Mock Test]

Topic: Quantitative Aptitude

Q10. Find the missing number in the given seriese. 12, 12, 18, 45, 180, 1170, ?

(A) ---
(B) 10530
(C) 11700
(D) 12870

Correct Answer: Option (A) : ---

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (A) (---).

[Campus Monk Day 03 Mock Test]

Topic: Quantitative Aptitude

Q11. Find the wrong term in the series 2, 3, 10, 38, 172

(A) 2
(B) 3
(C) 10
(D) ---

Correct Answer: Option (D) : ---

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (D) (---).

[Campus Monk Day 06 Mock Test]

Topic: Quantitative Aptitude

Q12. An Amount of Rs. 3000 is distributed among A, B and C such that A gets 2/3 rd of what B and C together get and C gets 1/2 of what A and B together get. Find B's sh are.

(A) 650
(B) 700
(C) 500
(D) 800

Correct Answer: Option (D) : 800

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (D) (800).

[Campus Monk Day 07 Mock Test]

Topic: Quantitative Aptitude

Q13. A code word is to consist of two distinct English alphabets followed by two distinct numbers from1 and 9 (both Inclusive). For example, CA23 is a code word. How many such code words are there?

(A) 615800
(B) 46800
(C) 719500
(D) 410800

Correct Answer: Option (B) : 46800

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (B) (46800).

[Campus Monk Day 08 Mock Test]

Topic: Quantitative Aptitude

Q14. If GOOD is coded as 164 , BAD is coded as 21 & UGLY is coded as 260 then JUMP will be coded as ?

(A) undefined

Correct Answer: See Logic

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is .

[Campus Monk Day 08 Mock Test]

Topic: Quantitative Aptitude

Q15. Statements: Some towns are villages. Some villages are lanes. Some lanes are hamlets. Conclusions: I. Some hamlets are villages. II. Some lanes are towns. III. Some hamlets are towns.

(A) Only I follows
(B) Only II follows
(C) Only III follows
(D) Only II and III follows

Correct Answer: See Logic

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is .

[Campus Monk Day 08 Mock Test]

Topic: Quantitative Aptitude

Q16. Question : In a certain code, MONKEY is written as XDJMNL . How is TIGER written in that code ?

(A) SDFHS
(B) SHFDQ
(C) UJHFS
(D) QDFHS

Correct Answer: Option (D) : QDFHS

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (D) (QDFHS).

[Campus Monk Day 08 Mock Test]

Topic: Quantitative Aptitude

Q17. Find the Missing Term: 256 , 64 , ? , 24 , 24 , 30

(A) undefined

Correct Answer: See Logic

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is .

[Campus Monk Day 08 Mock Test]

Topic: Quantitative Aptitude

Q18. Seven girls P, Q, R, S, T, W and X are sitting in a row facing towards the north (not necessarily in the same order). R is at one of the ends of the row. T sits exactly in the middle of row. S is third to the left of X. Q is to the immediate left of W. Q is not at any end of the row. Which of the following statements) is/are correct? I. S is to the immediate right of R. II. T is to the immediate right of X.

(A) Only I
(B) Only II
(C) Both I & II
(D) Neither I nor II

Correct Answer: Option (A) : Only I

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (A) (Only I).

[Campus Monk Day 08 Mock Test]

Topic: *Quantitative Aptitude*

Q19. Each sentence is split into four numbered parts (1–4). Identify the part that contains the grammatical error. If there is no error , choose option 5 . Type only the integer (1/2/3/4/5) as your answer. Question Neither the manager nor his assistants was willing to accept the responsibility. No error

(A) undefined

Correct Answer: See Logic

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is .

[Campus Monk Day 08 Mock Test]

Topic: *Quantitative Aptitude*

Q20. Each sentence is split into four numbered parts (1–4). Identify the part containing the grammatical error. If there is no error , choose option 5 . Answer by typing the integer (1/2/3/4/5) only. Question : The teacher along with her students were preparing for the annual function. No error

(A) undefined

Correct Answer: See Logic

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is .

[Campus Monk Day 09 Mock Test]

Topic: *Quantitative Aptitude*

Q21. Q. In a survey conducted among 120 houses, it was found that 50 read Times of India, 60 read Indian Express and 48 read Hindustan Times; 20 read Times of India and Indian Express, 18 read Times of India and Hindustan. Times and 24 read Indian Express and Hindustan Times. If 10 read all three, how many read only one newspaper?

(A) 61

(B) 62

(C) 63

(D) > ■

Correct Answer: Option (D) : > ■

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (D) (> ■).

[Campus Monk Day 09 Mock Test]

Topic: *Quantitative Aptitude*

Q22. Directions for questions: Consider the Venn diagram TCS NQT given below. Q. The number in the Venn diagram indicates the number of persons/ people watching TV programmes. The diagram is drawn after surveying 150 persons in a population of 12,000. How many persons/ people can be expected to watch at least two TV programmes?

(A) > ■

(B) 4450

(C) 4800

(D) 4960

Correct Answer: Option (A) : > ■

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (A) (> ■).

[Campus Monk Day 09 Mock Test]

Topic: *Quantitative Aptitude*

Q23. Find the missing number in the given seriese. 12, 12, 18, 45, 180, 1170, ?

(A) > ■

(B) 10530

(C) 11700

(D) 12870

Correct Answer: Option (A) : > ■

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (A) (> ■).

[Campus Monk Day 09 Mock Test]

Topic: *Quantitative Aptitude*

Q24. In a certain code language 'ROAD' is written as '152' and 'MAP' is written as '90'. How 'RAIL' be coded in the similar code language?

(A) 120

(B) 140

(C) 180

(D) 160

Correct Answer: Option (D) : 160

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (D) (160).

[Campus Monk Day 09 Mock Test]

Topic: *Quantitative Aptitude*

Q25. Viraj is eleventh from the left end in a row of children. Pankaj is twelfth from the right end and seventeenth form the left end. How many children are towards the right of Viraj in that row?

(A) 16

(B) 18

(C) 17

(D) None of these

Correct Answer: Option (C) : 17

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (C) (17).

[Campus Monk Day 09 Mock Test]

Topic: *Quantitative Aptitude*

Q26. Statement: The Government has made an appeal to all the citizens to honestly pay income tax and file returns reflecting the true income level to help the Government to carry out developmental activities. Assumptions: I. More people may now start paying taxes in response to the appeal. II. The total income tax collection may considerably increase in the near future.

(A) Only I is implicit

(B) Only II is implicit

(C) Both I and II are implicit

(D) Neither I nor II are implicit

Correct Answer: Option (C) : Both I and II are implicit

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (C) (Both I and II are implicit).

[Campus Monk Day 09 Mock Test]

Topic: Quantitative Aptitude

Q27. Each of the six friends - A, B. C. D, E and F - scored different marks in an examination. C scored more only A and E. D scored less than only B. E did not score the least. The one who scored the third highest marks scored 81 marks. E scored 62 marks. Which of the following could possibly be C's core?

(A) 70
(B) 94
(C) 86
(D) 61

Correct Answer: Option (A) : 70

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (A) (70).

[Campus Monk Day 09 Mock Test]

Topic: Quantitative Aptitude

Q28. Select the letter/letters that can replace the question mark (?) in the following series. Z, U, Q, ?, L

(A) N
(B) M
(C) K
(D) I

Correct Answer: Option (A) : N

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (A) (N).

[Campus Monk Day 09 Mock Test]

Topic: Quantitative Aptitude

Q29. In the following question, select the number which can be placed at the sign of question mark (?) from the given alternatives.

(A) 42
(B) 26
(C) 30
(D) 36

Correct Answer: Option (C) : 30

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (C) (30).

[Campus Monk Day 09 Mock Test]

Topic: Quantitative Aptitude

Q30. Directions: In the following question, select the related letters from the given alternatives. CLDR : YIBQ :: STOP : ?

(A) PROM
(B) OQMO
(C) PQNO
(D) ORMO

Correct Answer: Option (B) : OQMO

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (B) (OQMO).

[Campus Monk Day 09 Mock Test]

Topic: Quantitative Aptitude

Q31. Statements: All fruits are lions. All lions are foxes. Some foxes are elephants. Conclusions: I. All fruits are foxes. II. Some fruits are elephants.

(A) If only conclusion I follows
(B) If only conclusion II follows
(C) If either conclusion I or II follows
(D) If neither conclusion I nor II follows

Correct Answer: Option (A) : If only conclusion I follows

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (A) (If only conclusion I follows).

[Campus Monk Day 09 Mock Test]

Topic: Quantitative Aptitude

Q32. A, B, C, D, E, F & G are sitting in line facing the East. C is immediate right of D. B is at an extreme end and has E as his neighbour. G is between E and F. D is sitting third from the South end. Who are the persons sitting at the extreme ends?

(A) A & E
(B) A & B
(C) F & B
(D) C & D

Correct Answer: Option (B) : A & B

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (B) (A & B).

[Campus Monk Day 09 Mock Test]

Topic: Quantitative Aptitude

Q33. Statements: Some flats are apartments. No apartment is a hall Some halls are rooms Conclusions: I. Atleast some rooms are flats. II. No apartment is room.

(A) If only conclusion I follows
(B) If only conclusion II follows
(C) If either conclusion I or II follows
(D) If neither conclusion I nor II follows

Correct Answer: Option (D) : If neither conclusion I nor II follows

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (D) (If neither conclusion I nor II follows).

[Campus Monk Day 09 Mock Test]

Topic: Quantitative Aptitude

Q34. Statement: The sale of a particular product has gone down considerably causing great concern to the company. Courses of action: I. The company should make a proper study of rival products in the market. II. The price of the product should be reduced and quality improved.

(A) Only I is implicit
(B) Only II is implicit
(C) Both I and II are implicit
(D) Neither I nor II are implicit

Correct Answer: Option (A) : Only I is implicit

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (A) (Only I is implicit).

[Campus Monk Day 09 Mock Test]

Topic: Quantitative Aptitude

Q35. They don't have any _____ to spend on luxuries

(A) Time
(B) Balance
(C) Money
(D) Ideas

Correct Answer: Option (C) : Money

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (C) (Money).

[Campus Monk Day 09 Mock Test]

Topic: Quantitative Aptitude

Q36. DIRECTIONS: Identify the part which contains an error. Mark that part as your answer. Exercise I enjoy doing are (a)/ running marathons, swimming lengths in a pool, (b)/ riding my bicycle in the park (c)/ and walked along the trails in a trail. (d)/

(A) Part a
(B) Part b
(C) Part c
(D) Part d

Correct Answer: Option (D) : Part d

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (D) (Part d).

[Campus Monk Day 09 Mock Test]

Topic: Quantitative Aptitude

Q37. Ram had (a)/ invited few (b)/ friends in the (c)/ party at his lawn (d)/

(A) Part a
(B) Part b
(C) Part c
(D) Part d

Correct Answer: Option (B) : Part b

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (B) (Part b).

[Campus Monk Day 09 Mock Test]

Topic: Quantitative Aptitude

Q38. The population density of (a)/ china is (b)/ greater (c)/ than America (d)/

(A) Part a
(B) Part b
(C) Part c
(D) Part d

Correct Answer: Option (D) : Part d

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (D) (Part d).

[Campus Monk Day 09 Mock Test]

Topic: Quantitative Aptitude

Q39. Directions (11-15): Read each sentence to find out whether there is any grammatical or idiomatic error in it. The error, if any, will be in one part of the sentence. The number of that part is the answer. If there is 'No error', the answer is (e). (Ignore errors of punctuation, if any.) In spite of our several request (A)/ the owner of the house (B)/did not open (C)/the door of his house. (D)/No Error (E)

(A) A
(B) B
(C) C
(D) D

Correct Answer: Option (A)

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (A).

[Campus Monk Day 09 Mock Test]

Topic: Quantitative Aptitude

Q40. Direction: In Question a sentence/ a part of the sentence is italicised in bold. Below are given alternatives to the italicised part at (A), (B), (C) which may improve the sentence. Choose the correct alternative. In case no improvement is needed your answer is (D). Mark your answer in the Answer Sheet. Q. Ashutosh singh's new book 'Hopes for no brains' land' is an unique book i have ever read.

(A) the most unique
(B) a mostly unique
(C) 'Unique' starts with consonant sound 'Yu' hence it will take article 'a'.
(D) No improvement

Correct Answer: Option (C) : 'Unique' starts with consonant sound 'Yu' hence it will take article 'a'.

■ **Step-by-Step Logic:** Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (C) ('Unique' starts with consonant sound 'Yu' hence it will take article 'a'.).

[College ITM Mock Paper 6]

Topic: Mathematical Critical Thinking

Q41. How many 4-digit numbers (1000–9999) with all distinct digits are divisible by 5?

(A) 952
(B) 1008
(C) 896
(D) 504

Correct Answer: See Logic

■ **Step-by-Step Logic:** Verified by ITM Mock Answer Key.
