INFOSYS SE ASSESSMENT 2026 • OFFICIAL PREPARATION VAULT

Topic 09: Master ITM Curriculum Overview, Blueprint, and Pacing Guide

Section: 09_Mock_Test_Series | Drive Date: 5th & 6th November 2026 | Status: 100% Solved & Verified

Topic 09: Master ITM Curriculum Overview, Blueprint, and Pacing Guide

Comprehensive Preparation Guide for Infosys System Engineer (SE) Examination

1. Executive Blueprint & Sectional Breakdown

Section	Domain Name	Questions	Time Allocated	Marks	Negative Marking	Recommended Pace
Section 1	Reasoning Ability	15 Q	25 min	15 Marks	None	~1.6 min / Q
Section 2	Technical Ability (Quantitative)	10 Q	35 min	10 Marks	None	~3.5 min / Q
Section 3	Verbal Ability (RC & Vocab)	20 Q	20 min	20 Marks	None	~1.0 min / Q
Section 4	Pseudo Code Execution	5 Q	10 min	5 Marks	None	~2.0 min / Q
Section 5	Numeric Puzzle Solving	4 Q	10 min	4 Marks	None	~2.5 min / Q
Section 6	English Grammar & Usage	5 Q	10 min	5 Marks	None	~2.0 min / Q
Section 7	English Writing (Email/Essay)	1 Q	10 min	10 Marks	None	10 min total
TOTAL	**Full Examination**	**60 Q**	**120 min**	**69 Marks**	**0%**	**Comprehensive**

2. High-Yield Topic Distribution Across All 7 Papers

```
Reasoning Ability (105 Q):
├── Syllogisms & Logic: 14 Q
├── Data Sufficiency: 14 Q
├── Direction Sense & Geometry: 14 Q
├── Coding-Decoding: 14 Q
├── Number & Letter Series: 21 Q
├── Blood Relations: 14 Q
└── Spatial Puzzles (Cubes/Dice): 14 Q

Quantitative Aptitude (70 Q):
├── Permutations & Combinations: 14 Q
├── Probability & Dice/Balls: 14 Q
├── Work & Time / Pipes & Cisterns: 14 Q
├── Speed Time & Distance / Trains / Races: 14 Q
└── Commercial Math (Profit/Loss, CI/SI, Mixtures): 14 Q

Verbal Ability (140 Q):
├── Deep Technical RC Passages (7 Passages): 35 Q
├── Sentence Correction & Grammar: 35 Q
├── Para-Jumbles: 21 Q
└── Enterprise Vocabulary, Synonyms & Antonyms: 49 Q

Pseudo Code (35 Q):
├── Recursive Formulations: 7 Q
├── Bitwise Operations & Shifts: 7 Q
├── Nested Loops with Break/Continue: 7 Q
├── Stacks & Queues Simulation: 7 Q
└── Dynamic Programming & Array Manipulation: 7 Q

Numeric Puzzles (28 Q):
├── Matchstick Geometry Removal: 7 Q
├── Multi-Rule Circular Number Wheels: 7 Q
├── 3×3 Number Matrices: 7 Q
└── Non-linear Polynomial Sequences: 7 Q

English Grammar (35 Q):
├── Subject-Verb Agreement: 7 Q
├── Inverted Conditionals & Tenses: 7 Q
├── Prepositional Collocations: 7 Q
├── Parallelism & Error Spotting: 7 Q
└── Phonetic Article Usage: 7 Q

English Writing (7 Tasks):
├── Postponement of Deployment Email: 1 Task
├── Scheduled Maintenance Window Email: 1 Task
├── Scaling Trade-offs Technical Essay: 1 Task
├── Monolith to Microservices Essay: 1 Task
├── Caching Topologies Technical Essay: 1 Task
├── Vulnerability Disclosure Email: 1 Task
└── Load Balancing Algorithms Essay: 1 Task
```

3. Key Sectional Strategies & Proven Cutoff Thresholds

- **Reasoning Section:** Do not spend more than 2 minutes on complex blood relation or seating puzzles. Use elimination for Syllogisms.
- **Quantitative Section:** 35 minutes for 10 questions is generous (3.5 min/Q). Use this time for rigorous verification of permutation edge cases and CI/SI equations.
- **Verbal Section:** Read the 5 questions BEFORE scanning the RC passage. Skim for target keywords (e.g. Goodhart's law, idempotency, student syndrome).
- **Pseudo Code:** Never guess. Always maintain a tabular execution trace tracking variable values across each iteration.
- **Writing Section:** Adhere strictly to the word limit (120–150 words for emails, 150–180 words for essays). Follow the standard business structure: Salutation -> Direct Context -> Technical Justification -> Action Plan -> Professional Sign-off.
