🎯 Infosys System Engineer (SE) — High-Yield Priority Roadmap & Exam Blueprint

> **Exam Timing:** 5th & 6th November 2026
> **Target Role:** Infosys System Engineer (SE) / Specialist Programmer (SP)
> **Core Strategy:** Do NOT try to solve 24,000 questions! Solve the **Top 150 Most Authentic Questions** first, master core topic patterns, and treat the rest as a reference library.

📌 1. The Reality of the PYQ Screenshots (Unka Kya Hua?)

Where are the 2,429 Telegram/Exam Screenshots?

1. **Dedicated Master PYQ Vault:**
2. Location: `preparation/Infosys SE Complete/08_Previous_Year_Questions_PYQs/04_Infosys_SE_Actual_Exam_26_Sep/04_Infosys_SE_Actual_Exam_26_Sep_2025_Grand_Master_Question_Bank.md` (and compiled 217 MB PDF).
3. Contains all **2,749 screen capture images** (`pyq_26sep_*.jpeg`) taken by students from exam halls across multiple shifts on 26th September 2025.
4. **Did We Extract the Questions?**
5. **YES.** Every single question has been parsed with its Problem Statement, Options, Verified Key, and Step-by-Step Logic.
6. Below every problem statement, the **original raw screenshot figure is directly embedded** (e.g. `images/pyq_26sep_0186_df984f76.jpeg`). This allows you to verify the exact live exam interface even if a camera photo had slight glare.
7. **Cross-Sectional Distribution:**
8. The questions from these screenshots were also tagged and cross-indexed into their respective subject vaults:
    - **5,400 image references** in `05_Puzzle_Solving/11_Master_Consolidated_Puzzle_Solving_Unique_Vault.md`
    - **2,210 image references** in `02_Mathematical_Ability/14_Master_Consolidated_...`
    - **1,048 image references** in `04_Pseudocode_and_Technical/11_Master_Consolidated_...`

🧩 2. Why Are There So Many Questions? (Redundancy vs Internet Scrapes)

- **Are these random internet questions? NO.** 100% of these materials are authentic placement preparation packages from:
- OnlineStudy4U Master Placement Course & E-Books
- Topmate Paid Verified Exam Slot Papers
- College ITM Placement Mock Test Series
- Real Student Telegram Exam Slot Dumps (Sep 2025 & Oct 2026)
- CampusMonk 47-Day Master Preparation Series
- **Why is the question count 24,000+?**
- **Duplicate Telegram Submissions:** When an exam occurred on 26 September 2025, over 50 different students posted photos of the *exact same question* from their individual monitors. To ensure **zero data loss**, every unique upload was preserved.
- **Course Overlap:** OnlineStudy4U had the same 100 matrix puzzles repeated in video slide sets, mock test PDFs, and practice e-books.
- **The Result:** Massive redundancy in raw numbers, but **only ~300 to 500 core underlying mathematical patterns**.

🏆 3. Exact Infosys SE Examination Blueprint

IV	**Pseudocode**	5 Qs	10 Mins	5 Marks	~80% (4 Qs)
V	**Puzzle Solving**	4 Qs	10 Mins	10 Marks	~75% (3 Qs)

Section	Subject	Questions	Time Allocated	Marks	Cutoff Benchmark
VI	**Written Ability Test (WAT)**	1 Essay	30 Mins	Separate	Qualified
Total	**Complete Assessment**	**54 MCQs + 1 Essay**	**130 Mins**	**60 Marks**	**Sectional Cutoffs Apply**

> [!IMPORTANT] Notice Section V (**Puzzle Solving**): **Only 4 questions appear in the entire exam!** Typically, there are: - **Two 2-mark questions** (e.g., standard Row/Column 3x3 Matrix or Polygon Vertex puzzle) - **Two 3-mark questions** (e.g., multi-step algebraic grid deduction or high-weightage equation puzzle) You do **NOT** need to memorize 2,500 puzzle questions. You only need to master the **5 fundamental matrix archetypes**!
