INFOSYS SE ASSESSMENT 2026 • OFFICIAL PREPARATION VAULT

⚠️ NOT REQUIRED FOR INFOSYS SYSTEMS ENGINEER (SE)

Section: 07_[OPTIONAL_DSE_SP_ONLY]_Coding_Prep | **Drive Date:** 5th & 6th November 2026 | **Status:** 100% Solved & Verified

⚠️ NOT REQUIRED FOR INFOSYS SYSTEMS ENGINEER (SE)

[OPTIONAL] Advanced Live Coding & Data Structures for DSE / SP Roles

> [!CAUTION]
> **CRITICAL CLARIFICATION FOR SYSTEMS ENGINEER (SE) ASPIRANTS:**
> **If you are preparing for the Infosys Systems Engineer (SE — 3.6 to 4.0 LPA) recruitment assessment, YOU CAN 100% IGNORE THIS ENTIRE MODULE.**
> **Zero Live Coding is tested in the Infosys SE Exam or Interview.**

🚫 Why Infosys SE Does NOT Need This Module:

1. **Round 1 (Written Exam / Online Assessment)**:
   - There is **NO live coding compiler** (no LeetCode, HackerRank, or IDE).
   - Candidates are **NOT** required to write or compile code.
   - All technical evaluation is strictly conducted via **Section 4: Pseudo Code** (only **5 Multiple Choice Questions** focusing on manual dry-run loop tracing and bitwise operator prediction).
2. **Round 2 (Technical Interview)**:
   - Evaluates basic Object-Oriented Programming (OOP) definitions, basic SQL queries (e.g. 2nd highest salary), and college final-year project defense.
   - Candidates are **never** asked to solve LeetCode Medium/Hard Dynamic Programming or Graph problems.

❓ Why Is This Folder Present in the Vault?

This folder exists purely because **CampusMonk** packaged their general training curriculum into the course archive (`1.0 LIVE_ Infosys Prep` by Amogh Sir):
1. **For DSE / SP Candidates**: Infosys offers higher-tier differential hiring tracks — **Digital Specialist Engineer (DSE — 6.5 LPA)** and **Specialist Programmer (SP — 9.5 LPA)** — which require live hands-on DSA coding on HackerRank.
2. **Post-Selection Mysore Bridge**: After candidates are selected for SE, they undergo mandatory training at the Infosys Mysore campus, where they eventually take Python/Java Foundation Assessments (FA).

🎯 Core Systems Engineer (SE) Study Path:

To crack the **Infosys Systems Engineer (SE)** exam, focus exclusively on:

- **Module 01**: Reasoning Ability *(15 Qs / 25 min)*
- **Module 02**: Mathematical Ability *(10 Qs / 35 min)*
- **Module 03**: Verbal Ability *(20 Qs / 20 min)*
- **Module 04**: Pseudocode & Technical *(5 MCQs / 10 min — Manual Dry Run Only)*
- **Module 05**: Puzzle Solving *(4 Qs / 10 min)*
- **Module 06**: Essay Writing *(1 Prompt / 10 min)*
- **Module 08**: Previous Year Questions (PYQs)
- **Module 09**: Mock Test Series
- **Module 10**: Interview Preparation
