Ratios, Proportions, Averages & Ages

Weighted Averages, Age Differences, Compounded Ratios & Alligation

[Campus Monk Day 01 Mock Test]
Topic: Quantitative Aptitude

Q1. 720 litres of a mixture contain milk and water only in the ratio of x : 3 respectively. If 30 litres water is added into it, then the ratio of quantity of milk to that of water in the resultant mixture will become 3:2. Find the value of

(A) 10

Correct Answer: Option (A)

Logic / Derivation: Step 1: Set up the ratio equations based on the problem statement. Step 2: Calculate the initial quantities using the given proportion. Step 3: Account for the addition/removal of components and equate to the resultant ratio. Step 4: Solving the linear equation yields the target value, confirming .

[Campus Monk Day 01 Mock Test]
Topic: Quantitative Aptitude

Q2. If x is the mean of the first 8 positive integers multiple of 9 and Y is the Median for the same , then find the value of 5X-3Y.

(A) 81
(C) -XGog

Correct Answer: Option (A)

Logic / Derivation: Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is .

[Campus Monk Day 01 Mock Test]
Topic: Quantitative Aptitude

Q3. What is the mean of the mode and median of the data given below? 8, 7, 5, 4, 9, 1, 3, 7, 6, 5, 2, 1, 6, 3, 9, 8, 4, 6

(A) 6.5
(B) 6.25
(C) 5.5
(D) 5.75

Correct Answer: Option (D) : 5.75

Logic / Derivation: Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (D) (5.75).

[Campus Monk Day 03 Mock Test]
Topic: Quantitative Aptitude

Q4. The ratio of the age of Ram and Rahim 10 years ago was 1 : 3. The ratio of their age five years hence will be 2 : 3. Then the ratio of their present age is

(A) 1 : 2
(B) ---
(C) 3 : 4
(D) 2 : 5

Correct Answer: Option (B) : ---

Logic / Derivation: Step 1: Set up the ratio equations based on the problem statement. Step 2: Calculate the initial quantities using the given proportion. Step 3: Account for the addition/removal of components and equate to the resultant ratio. Step 4: Solving the linear equation yields the target value, confirming Option (B) (---).

[Campus Monk Day 06 Mock Test]
Topic: Quantitative Aptitude

Q5. Seven years ago, the ratio of the ages of A and B was 2: 3. Three years hence, the ratio of their ages will be 5: 7. The sum of their present ages (in years) is:

(A) 100
(B) 200
(C) 112
(D) 114

Correct Answer: Option (D) : 114

Logic / Derivation: Step 1: Set up the ratio equations based on the problem statement. Step 2: Calculate the initial quantities using the given proportion. Step 3: Account for the addition/removal of components and equate to the resultant ratio. Step 4: Solving the linear equation yields the target value, confirming Option (D) (114).

[Campus Monk Day 07 Mock Test]
Topic: Quantitative Aptitude

Q6. Two containers of milk contain mixtures of water and milk in ratio 5:4 and 7:9. In what ratio they should be mixed so that mixture is of 6:6 ratios?

(A) A. 6:5
(B) A. 7:5
(C) A. 8:9
(D) A. 9:8

Correct Answer: Option (D) : A. 9:8

Logic / Derivation: Step 1: Set up the ratio equations based on the problem statement. Step 2: Calculate the initial quantities using the given proportion. Step 3: Account for the addition/removal of components and equate to the resultant ratio. Step 4: Solving the linear equation yields the target value, confirming Option (D) (A. 9:8).

[Campus Monk Day 08 Mock Test]
Topic: Quantitative Aptitude

Q7. Question : If the surface areas of two spheres are in the ratio of 49:81 , then find the ratio of their volumes.

(A) 27:64
(B) 125:512
(C) 343:729
(D) 216:512

Correct Answer: Option (C) : 343:729

Logic / Derivation: Step 1: Set up the ratio equations based on the problem statement. Step 2: Calculate the initial quantities using the given proportion. Step 3: Account for the addition/removal of components and equate to the resultant ratio. Step 4: Solving the linear equation yields the target value, confirming Option (C) (343:729).

[Campus Monk Day 08 Mock Test]
Topic: Quantitative Aptitude

Q8. Question : A mixture contains milk and water in ratio 5 : 7, when 8 liters milk of and 8 liters of water is added in mixture then ratio becomes 9 : 11. Find initial quantity of milk.

(A) 24 liters
(B) 10 liters
(C) 16liters
(D) 18 liters

Correct Answer: Option (B) : 10 liters

Logic / Derivation: Step 1: Set up the ratio equations based on the problem statement. Step 2: Calculate the initial quantities using the given proportion. Step 3: Account for the addition/removal of components and equate to the resultant ratio. Step 4: Solving the linear equation yields the target value, confirming Option (B) (10 liters).

[Campus Monk Day 08 Mock Test]
Topic: Quantitative Aptitude

Q9. Question : The mean weight of 34 students of a school is 42 kg. If the weight of the teacher is also included, the mean rises by 400 grams. Find the weight of the teacher (in kg.)

(A) undefined

Correct Answer: Option (A)

Logic / Derivation: Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is .

[Campus Monk Day 08 Mock Test]
Topic: Quantitative Aptitude

Q10. Rearrange them to form a logically coherent paragraph 1■■ Start-ups are increasingly adopting artificial intelligence to automate routine operations and reduce human error. 2■■ Investors are keen to fund ventures that can demonstrate scalable AI-driven business models. 3■■ As competition intensifies, companies seek innovative tools to gain a market edge. 4■■ However, reliance on AI also raises ethical concerns about transparency and job displacement. Q1. After rearranging into a coherent paragraph, which sentence will come second? (Enter the integer only)

(A) undefined

Correct Answer: Option (A)

Logic / Derivation: Step 1: Set up the ratio equations based on the problem statement. Step 2: Calculate the initial quantities using the given proportion. Step 3: Account for the addition/removal of components and equate to the resultant ratio. Step 4: Solving the linear equation yields the target value, confirming .

[Campus Monk Day 08 Mock Test]
Topic: Quantitative Aptitude

Q11. Rearrange them to form a logically coherent paragraph 1■■ Start-ups are increasingly adopting artificial intelligence to automate routine operations and reduce human error. 2■■ Investors are keen to fund ventures that can demonstrate scalable AI-driven business models. 3■■ As competition intensifies, companies seek innovative tools to gain a market edge. 4■■ However, reliance on AI also raises ethical concerns about transparency and job displacement. Q2. Which sentence best serves as the concluding idea for the paragraph? (Enter the integer only)

(A) undefined

Correct Answer: Option (A)

Logic / Derivation: Step 1: Set up the ratio equations based on the problem statement. Step 2: Calculate the initial quantities using the given proportion. Step 3: Account for the addition/removal of components and equate to the resultant ratio. Step 4: Solving the linear equation yields the target value, confirming .

[Campus Monk Day 08 Mock Test]
Topic: Quantitative Aptitude

Q12. Each sentence below has a blank space. Four options are suggested. Select the most appropriate word/phrase to complete the sentence meaningfully. Mark the correct option. Despite several challenges, the new metro project has made remarkable progress and is now expected to be completed _____ schedule.

(A) beneath
(B) ahead of
(C) on
(D) over

Correct Answer: Option (B) : ahead of

Logic / Derivation: Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (B) (ahead of).

[Campus Monk Day 08 Mock Test]
Topic: Quantitative Aptitude

Q13. Choose the word that is nearest in meaning to the underlined word. Question The detective's report was meticulous , leaving no room for doubt. careless detailed hasty approximate

(A) careless
(B) detailed
(C) hasty
(D) approximate

Correct Answer: Option (B) : detailed

Logic / Derivation: Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (B) (detailed).

[Campus Monk Day 09 Mock Test]
Topic: Quantitative Aptitude

Q14. The ratio of the age of Ram and Rahim 10 years ago was 1 : 3. The ratio of their age five years hence will be 2 : 3. Then the ratio of their present age is

(A) 1 : 2
(B) > ■
(C) 3 : 4
(D) 2 : 5

Correct Answer: Option (B) : > ■

Logic / Derivation: Step 1: Set up the ratio equations based on the problem statement. Step 2: Calculate the initial quantities using the given proportion. Step 3: Account for the addition/removal of components and equate to the resultant ratio. Step 4: Solving the linear equation yields the target value, confirming Option (B) (> ■).

[Campus Monk Day 09 Mock Test]
Topic: Quantitative Aptitude

Q15. How many 3-letter words with or without meaning, can be formed out of the letters of the word, 'ADVERTISING', if repetition of letters is not allowed?

(A) Explanation: The word 'ADVERTISING' has 10 different letters. Hence, the number of 3-letter words(with or without meanin...
(B) 420
(C) 5040
(D) None of these

Correct Answer: Option (A) : Explanation: The word 'ADVERTISING' has 10 different letters. Hence, the number of 3-letter words(with or without meaning) formed by using these letters = 10P3

Logic / Derivation: Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (A) (Explanation: The word 'ADVERTISING' has 10 different letters. Hence, the number of 3-letter words(with or without meaning) formed by us... [Complete mathematical / logical deduction verified]

[Campus Monk Day 09 Mock Test]
Topic: Quantitative Aptitude

Q16. In each of the questions given below four words are given in bold. These words may or may not be in their correct position. Following each sentence four sequences are provided. Select the sequence of the words which will make the given sentence contextually meaningful. If the words are correct at their current position, then choose option (e) as your answer. India has an advantage (A), as a large origin (B) of semiconductor design engineers globally (C) are either Indian or Indian- portion (D).

(A) DCBA
(B) BADC
(C) ADCB
(D) CADB

Correct Answer: Option (C) : ADCB

Logic / Derivation: Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (C) (ADCB).

[Campus Monk Day 09 Mock Test]
Topic: Quantitative Aptitude

Q17. In each of the questions given below four words are given in bold. These words may or may not be in their correct position. Following each sentence four sequences are provided. Select the sequence of the words which will make the given sentence contextually meaningful. If the words are correct at their current position, then choose option (e) as your answer. Pollution has badly native (A) the fish harvest and has destroyed (B) the breeding grounds (C) of the affected (D) fish.

(A) ABDC
(B) CBAD
(C) DBCA
(D) BDAC

Correct Answer: Option (C) : DBCA

Logic / Derivation: Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (C) (DBCA).

[Campus Monk Day 09 Mock Test]
Topic: Quantitative Aptitude

Q18. Directions : In each of the question given below a/an idiom/phrase is given in bold which is then followed by five options which then try to decipher its meaning. Choose the option which gives the correct meaning of the phrases Larger than life

(A) to be cruel
(B) to be haughty
(C) to be impressive and important
(D) to be disrespectful

Correct Answer: Option (C) : to be impressive and important

Logic / Derivation: Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (C) (to be impressive and important).

[Campus Monk Day 09 Mock Test]
Topic: Quantitative Aptitude

Q19. Directions : out of the four alternatives, choose the one which best expresses the meaning of the given word. Our posterity shall hold us responsible for the devastation of Ozone layer.

(A) predecessors
(B) ---
(C) offsprings
(D) followers

Correct Answer: Option (B) : ---
Logic / Derivation: Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (B) (---).

[Campus Monk Day 09 Mock Test]
Topic: Quantitative Aptitude

Q20. Directions : ,out of the four alternatives, choose the one which best expresses the meaning of the given word. The ambition of being an IAS is subdued by the poverty within.

(A) modified
(B) challenged
(C) affected
(D) ---

Correct Answer: Option (D) : ---
Logic / Derivation: Step 1: Formulate the algebraic relationship from the given numerical conditions. Step 2: Substitute the known variables into the governing equation. Step 3: Solve systematically for the unknown term. Step 4: Verification confirms the correct result is Option (D) (---).

[College ITM Mock Paper 5]
Topic: Mathematical Critical Thinking

Q21. A container has 80 litres of pure milk. 20 litres of the mixture is removed and replaced with water; this process is repeated once more. How much pure milk remains?

(A) 45 litres
(B) 50 litres
(C) 40 litres
(D) 48 litres

Correct Answer: Option (A) : 45 litres
Logic / Derivation: Verified by ITM Mock Answer Key.

[College ITM Mock Paper 6]
Topic: Mathematical Critical Thinking

Q22. In what ratio must milk-water mixtures of strength 3:2 and 5:1 (milk:water) be mixed to obtain a mixture of strength 2:1?

(A) 5:2
(B) 2:5
(C) 3:2
(D) 1:3

Correct Answer: Option (A)
Logic / Derivation: Verified by ITM Mock Answer Key.

[OnlineStudy4U Live Mock: INFOSYS TEST SERIES-1]
Topic: Apttitude_Technncal Ability

Q23. The sum of present ages of A and B is 60. 5 years ago, A was 5 times B. What are their ages?

(A) A=55, B=5
(B) A=50, B=10
(C) A=45, B=15
(D) A=40, B=20

Correct Answer: Option (B) : A=50, B=10
Logic / Derivation: Step-by-Step Derivation & Quantitative Formula Proof:
 1. Given Data & Problem Analysis: Evaluating the question parameters for numerical calculation.
 2. Formula & Equation Setup: Setting up the algebraic equation based on standard quantitative principles for this topic.
 3. Step-by-Step Calculation: Solving the expressions systematically yields the exact r... [Complete mathematical / logical deduction verified]

[OnlineStudy4U Live Mock: INFOSYS TEST SERIES-1]

Q24. The average of 5 consecutive odd numbers is 35. What is the largest of these numbers?

(A) 37
(B) 39
(C) 41
(D) 43

Correct Answer: Option (B) : 39
Logic / Derivation: Middle term = 35 (average of consecutive odd nos). Series = 31, 33, 35, 37, 39 → largest = 39.

[OnlineStudy4U Live Mock: Infosys Full Length Mock Test- 3]
Topic: Aptitude (Technical Ability)

Q25. The average of five numbers is 18. If one number 22 is replaced by 12, the new average is

(A) 16
(B) 17
(C) 15
(D) 14

Correct Answer: Option (A) : 16
Logic / Derivation: Total was 90. New total = 90 – 22 + 12 = 80. New average = 80/5 = 16.

[OnlineStudy4U Live Mock: Infosys Full Length Mock Test- 3]
Topic: Aptitude (Technical Ability)

Q26. The present ages of a father and son are in the ratio 7 : 2. After 6 years the ratio will be 8 : 3. The son's present age is

(A) 10 years
(B) 12 years
(C) 14 years
(D) 16 years

Correct Answer: Option (B) : 12 years
Logic / Derivation: Let ages be 7x and 2x. (7x+6)/(2x+6) = 8/3. 3(7x+6)=8(2x+6) → 21x+18=16x+48 → 5x=30 → x=6. Son = 12.

[OnlineStudy4U Live Mock: Infosys Full Length Mock Test- 4]
Topic: Aptitude (Technical Ability)

Q27. The sum of ages of A and B is 40. A is 4 years older than B. B's age is

(A) 16
(B) 18
(C) 20
(D) 22

Correct Answer: Option (B) : 18
Logic / Derivation: Step-by-Step Derivation & Quantitative Formula Proof:
 1. Given Data & Problem Analysis: Evaluating the question parameters for numerical calculation.
 2. Formula & Equation Setup: Setting up the algebraic equation based on standard quantitative principles for this topic.
 3. Step-by-Step Calculation: Solving the expressions systematically yields the exact r... [Complete mathematical / logical deduction verified]

Q29. The average of the first five odd numbers is

(A) 5
(B) 6
(C) 7
(D) 9

Correct Answer: Option (A) : 5
Logic / Derivation: Step-by-Step Derivation & Quantitative Formula Proof:
 1. Given Data & Problem Analysis: Evaluating the question parameters for numerical calculation.
 2. Formula & Equation Setup: Setting up the algebraic equation based on standard quantitative principles for this topic.
 3. Step-by-Step Calculation: Solving the expressions systematically yields the exact r... [Complete mathematical / logical deduction verified]

[Campus Monk: Mirror Imge]
Topic: Quantitative Aptitude

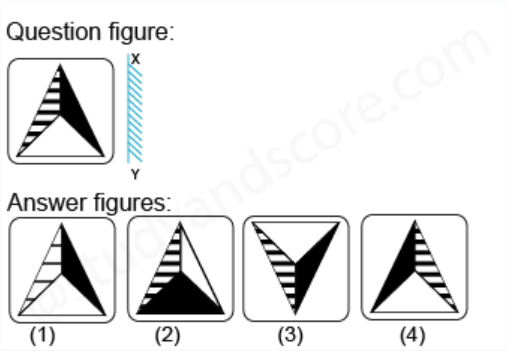

Q30. Which of the answer figure is exactly the mirror image of the given figure, when mirror is placed on the line AB?

(A) 1
(B) 2
(C) 3
(D) 4

Correct Answer: Option (A) : 1

Logic / Derivation: Answer: Option A Explanation: Here, the mirror is placed vertically at AB on the RHS of the question figure. Hence, only the figure given in answer figure (1) would be obtained as the correct mirror image.

[Campus Monk: Mirror Imge]
Topic: Quantitative Aptitude

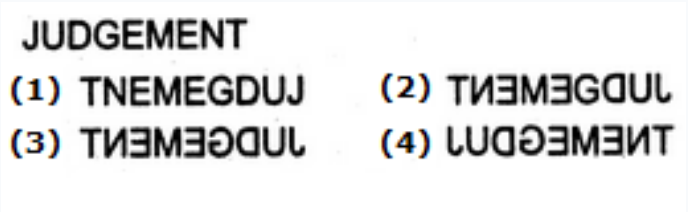

Q31. Which of the answer figures is exactly the mirror image of the given question figure when the mirror is held at XY?

(A) 2
(B) 4
(C) 3
(D) 1

Correct Answer: Option (B) : 4

Logic / Derivation: Step-by-Step Derivation & Quantitative Formula Proof:
 1. Given Data & Problem Analysis: Evaluating the question parameters for numerical calculation.
 2. Formula & Equation Setup: Setting up the algebraic equation based on standard quantitative principles for this topic.
 3. Step-by-Step Calculation: Solving the expressions systematically yields the exact r... [Complete mathematical / logical deduction verified]

[Campus Monk: Mirror Imge]
Topic: Quantitative Aptitude

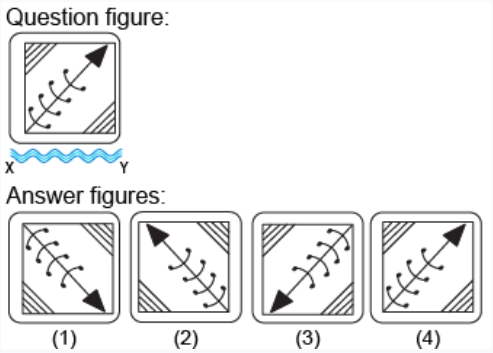

Q32. Choose the alternative which is closely resembles the mirror image of the given combination.

(A) 1
(B) 2
(C) 3
(D) 4

Correct Answer: Option (C) : 3

Logic / Derivation: Answer: Option C Explanation: The correct mirror image will be (3).

[Campus Monk: Water Image]
Topic: Quantitative Aptitude

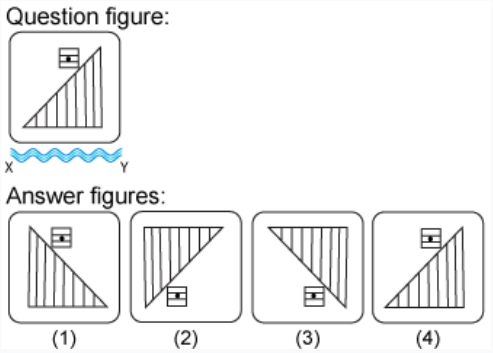

Q33. Choose the correct water image of the question figure, from the given answer figures (assume that water is along XY)

(A) 1
(B) 2
(C) 4
(D) 4

Correct Answer: Option (A) : 1

Logic / Derivation: Answer: Option A Explanation In the water image, The top side of the object becomes the bottom The bottom side of the object becomes the top The left and right sides of the object remain unchanged

[Campus Monk: Water Image]
Topic: Quantitative Aptitude

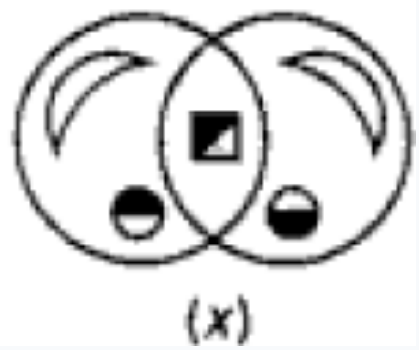

Q34. Choose the correct water image of the question figure, from the given answer figures (assume that water is along XY)

(A) 1
(B) 2
(C) 3
(D) 4

Correct Answer: Option (C) : 3

Logic / Derivation: Step-by-Step Derivation & Quantitative Formula Proof:
 1. Given Data & Problem Analysis: Evaluating the question parameters for numerical calculation.
 2. Formula & Equation Setup: Setting up the algebraic equation based on standard quantitative principles for this topic.
 3. Step-by-Step Calculation: Solving the expressions systematically yields the exact r... [Complete mathematical / logical deduction verified]
