Problem 01 • Reading Comprehension: AI & Workforce Transformation

🔥 MUST-SOLVE

`ID: SEC0405_RC_P1_Q01` `Source: Reading Comprehension2311.pdf` `Level: Infosys SE Standard`

> Read the passage and answer the question below:
>
> [Passage Excerpt]:
> The adoption of Artificial Intelligence (AI) across industries has transformed operational workflows and decision-making processes. While AI can automate routine tasks, reduce human error, and increase efficiency, its integration raises significant ethical and practical concerns. Critics argue that AI can inadvertently perpetuate biases present in training data, leading to unfair outcomes. Furthermore, rapid automation may render certain job roles obsolete, necessitating workforce reskilling. Proponents, however, contend that AI augments human capabilities rather than replacing them, allowing employees to focus on strategic, creative, and interpersonal functions that machines cannot replicate. Organizations that successfully implement AI balance technological innovation with employee empowerment, cultivating an adaptive, forward-thinking culture.
>
> Question:
> The primary purpose of the passage is to:

- A. Advocate for the unconditional replacement of humans by AI systems.
- B. Discuss both the advantages and ethical/workforce challenges of AI integration.
- C. Critique machine learning algorithms for inherent statistical biases.
- D. Recommend that companies halt technological automation immediately.

✓ **Verified Answer:** `B. Discuss both the advantages and ethical/workforce challenges of AI integration.`

Problem 02 • Reading Comprehension: AI & Workforce Transformation

Organizations that successfully implement AI balance technological innovation with employee empowerment, cultivating an adaptive, forward-thinking culture.
>
> Question:
> According to the passage, proponents of AI argue that technology:

- A. Completely eliminates the need for organizational leadership.
- B. Solves all ethical challenges without human intervention.
- C. Augments human capabilities rather than replacing them entirely.
- D. Forces workers to take lower-paying roles.

✓ **Verified Answer:** `C. Augments human capabilities rather than replacing them entirely.`

>
> Question:
> The author suggests that successful AI implementation depends on:

- A. Isolating technical teams from executive oversight.
- B. Balancing technical innovation with employee empowerment.
- C. Maximizing workforce reduction at any cost.
- D. Relying exclusively on proprietary vendor software.

✓ **Verified Answer:** `B. Balancing technological innovation with employee empowerment.`

Problem 06 • Reading Comprehension: Passage Analysis & Contextual Inference

MUST-SOLVE

ID: SEC0405_RC01_Q01 | Source: VERBAL ABILITY_RC 01_QUESTIONS.json | Level: Infosys SE Standard

Directions (01- 10): Read the following passage carefully and answer the questions given below it. Certain words are given in bold to help you locate them while answering some of the questions.

When we are children growing up, our imagination is the key to untold worlds. And it has been shown that kids with very active imaginations are more likely to dream and strive for greater things as adults. It is a sad fact that all too often, as we grow up, we are told to “get our heads out of the clouds”, to "stop daydreaming", and that living in an imaginary world is not good for us. But stifling your imagination is the worst thing you can do to yourself, as it will only pave the way for accelerated aging, and all too often a life that feels unfulfilled.

Though many take creativity for granted, it is a trait not possessed by everyone. Many people are labelled as primarily “right brained” or “left brained” (if such a thing exists): It is argued that highly intellectual, logical types are less likely to be creative, have less wild imaginations and are typically rule followers who do not believe in much of anything that cannot be logically quantified. Regardless of the left brain / right brain argument, imagination unleashes creativity, allowing you to live a life filled with potential. The creative individual does not see the sky as the limit, instead the limit is as far as he or she can imagine. They not only think outside the box, for them there is no box, and so their brains are constantly challenged, humming and conjuring up all sorts of goodies. Anything the mind can conjure is good enough to become true, be it work, life, personal goals accomplishments or anything. A very good trait to cultivate from childhood.

Empathy is the act of being truly sympathetic to another person, without ever actually experiencing what they are going through yourself. Sadly, many people do not know how to express empathy, and the reason for this is simple; it is not because that person is a bad individual, or mean spirited. It simply means that individual cannot imagine the feelings of the person experiencing a particular event, and thus cannot truly relate. Your imagination may leave you in a good position to offer a shoulder for comfort and support, as you are able to envision going through the same thing as the person suffering, and thus able to demonstrate what you think a person needs at that time. Being of service towards other people in that way, promotes your own mental health and emotional well being.

Those brain connections are a part of what makes you who you are, and forming new connections supports memory functions and keeps the brain vibrant and strong. Your imagination can be a useful tool for strengthening these connections, in order to form long-term memories. Here are two explanations of how memory works; an intellectual will harness and strengthen memory by repetition. Studying work day after day enhances these connections bit by bit, or via physical practice. On the other hand, someone who uses their imagination may know something well, and be able to recall everything without seeming to make an effort. Take for example planning for their wedding. Years and years beforehand, that person could have meticulously planned and imagined their dream wedding, so that when the actual time comes, the planning step and what they want pops up like clockwork.

Q1. What, according to the passage, is/are the disadvantage(s) of constraining the children to be realistic and not imaginative?

(I) it will lead to an unfulfilled life.

(II) They lack empathy

(III) It limits the growth of their brain

- Only (I)
- Only (II)
- Both (I) and (II)
- Both (II) and (III)
- All

✓ **Verified Answer:** `Both (I) and (II)`

Problem 07 • Reading Comprehension: Passage Analysis & Contextual Inference

MUST-SOLVE

ID: SEC0405_RC01_Q02 | Source: VERBAL ABILITY_RC 01_QUESTIONS.json | Level: Infosys SE Standard

Years and years beforehand, that person could have meticulously planned and imagined their dream wedding, so that when the actual time comes, the planning step and what they want pops up like clockwork.

Q2. “Imagination unleashes Creativity”. Justify.

- They become sympathetic.
- They (imaginative people) believe in things that can not be logically quantified.
- They (imaginative people) set their own limit.
- It protects us from day dreaming
- All are correct

✓ **Verified Answer:** `They (imaginative people) set their own limit.`

They not only think outside the box, for them there is no box, and so their brains are constantly challenged, humming and conjuring up all sorts of goodies. Anything the mind can conjure is good enough to become true, be it work, life, personal goals accomplishments or anything. A very good trait to cultivate from childhood.
Empathy is the act of being truly sympathetic to another person, without ever actually experiencing what they are going through yourself. Sadly, many people do not know how to express empathy, and the reason for this is simple; it is not because that person is a bad individual, or mean spirited. It simply means that individual cannot imagine the feelings of the person experiencing a particular event, and thus cannot truly relate. Your imagination may leave you in a good position to offer a shoulder for comfort and support, as you are able to envision going through the same thing as the person suffering, and thus able to demonstrate what you think a person needs at that time. Being of service towards other people in that way, promotes your own mental health and emotional well being.
Those brain connections are a part of what makes you who you are, and forming new connections supports memory functions and keeps the brain vibrant and strong. Your imagination can be a useful tool for strengthening these connections, in order to form long-term memories. Here are two explanations of how memory works; an intellectual will harness and strengthen memory by repetition. Studying work day after day enhances these connections bit by bit, or via physical practice. On the other hand, someone who uses their imagination may know something well, and be able to recall everything without seeming to make an effort. Take for example planning for their wedding. Years and years beforehand, that person could have meticulously planned and imagined their dream wedding, so that when the actual time comes, the planning step and what they want pops up like clockwork.
Q8. Choose the word/group of words which is most SIMILAR in meaning to the word/group of words printed in bold as used in passage.
Quantified

- extraneous
- incumbent
- appraise
- Inchoate
- Expiate

✓ **Verified Answer:** `appraise`

Problem 14 • Reading Comprehension: Passage Analysis & Contextual Inference

MUST-SOLVE

ID: SEC0405_RC01_Q09 | Source: VERBAL ABILITY_RC 01_QUESTIONS.json | Level: Infosys SE Standard

Directions (01- 10): Read the following passage carefully and answer the questions given below it. Certain words are given in bold to help you locate them while answering some of the questions.
When we are children growing up, our imagination is the key to untold worlds. And it has been shown that kids with very active imaginations are more likely to dream and strive for greater things as adults. It is a sad fact that all too often, as we grow up, we are told to “get our heads out of the clouds”, to "stop daydreaming", and that living in an imaginary world is not good for us. But stifling your imagination is the worst thing you can do to yourself, as it will only pave the way for accelerated aging, and all too often a life that feels unfulfilled.
Though many take creativity for granted, it is a trait not possessed by everyone. Many people are labelled as primarily “right brained” or “left brained” (if such a thing exists): It is argued that highly intellectual, logical types are less likely to be creative, have less wild imaginations and are typically rule followers who do not believe in much of anything that cannot be logically quantified. Regardless of the left brain / right brain argument, imagination unleashes creativity, allowing you to live a life filled with potential. The creative individual does not see the sky as the limit, instead the limit is as far as he or she can imagine. They not only think outside the box, for them there is no box, and so their brains are constantly challenged, humming and conjuring up all sorts of goodies. Anything the mind can conjure is good enough to become true, be it work, life, personal goals accomplishments or anything. A very good trait to cultivate from childhood.

Problem 21 • Reading Comprehension: Passage Analysis & Contextual Inference

MUST-SOLVE

ID: SEC0405_RC02_Q01 | Source: VERBAL ABILITY _RC 02_QUESTIONS.json | Level: Infosys SE Standard

Directions (1-5): Read the given passage and answer the following questions based on the passage.
For almost two decades, the Central Ground Water Board (CGWB) has been reporting on the increasing number of over-exploited blocks across India, the 'dark' category blocks. The recent annual book of CGWB has reported 1,034 units, out of the 6,584 units it monitors, as over-exploited. If this is the 'crisis', then we have had it for long. What has this not received enough attention? Is it because these zones are not in cities?
Just to be sure how critical the 'crisis' is, CGWB's 2013 estimates say that the groundwater development in India is just about 62% of the utilisable groundwater reserves. Similarly, a recent report by the Central Water Commission, prepared in collaboration with the Indian Space Research Organisation (ISRO), asserted that India is not yet in "water scarcity condition". But it is certainly in a "water-stressed condition", with reducing per capita water availability. Here, we certainly don't mean to say that India can continue with the present ways of water management. We also cannot remain in a state of denial that a crisis is not in the making. However, certain steps need to be taken to ensure a more useful and productive discourse about water governance challenges.
First, India needs to reconsider the institutional processes for dissemination of knowledge about water resource management. There is a certain amount of danger inherent in the casual manner in which knowledge about water resources is legitimised and consumed, particularly in these days of 'viral' information.
Second, we need to recognise the crisis is not as much of scarcity as of delivery. The challenge is to ensure an adequate access to quality water, more so in urban areas where inequities over space and time are acute. We need to also realise that with the country's rapid urbanisation, demand cannot be met by groundwater reserves alone. For instance, according to the Delhi Jal Board estimates, groundwater meets just 10% of Delhi's drinking water needs. The rest is met by surface water sources, most of it transported from outside Delhi. The urban needs, which underpin much reporting on 'water crises', need to be met by robust long-term planning and preparation for droughts and other contingencies.
Finally, we need to reconsider our approaches to water governance. We must recognise that the fulcrum of change and action is with the States. For long, water resource departments in States have continued to follow the conventional approaches of supply augmentation. The challenge is that of reorienting themselves towards deploying strategies of demand management, conservation and regulation. The Centre has to work with States towards an institutional change for the necessary course-shift. The Finance Minister, in her budget, repeatedly stated that the government will work with States to address India's national water security challenges. Let us hope that the government intends to _____ (A) federal governance of water resources towards long-term water security.
Q1. What could be the appropriate title of this passage?

- Water crisis
- water crisis: Inadequate rainfall
- Preserving water
- Water governance strategies
- None of These

✓ **Verified Answer:** `Water governance strategies`

Problem 22 • Reading Comprehension: Passage Analysis & Contextual Inference

MUST-SOLVE

ID: SEC0405_RC02_Q02 | Source: VERBAL ABILITY _RC 02_QUESTIONS.json | Level: Infosys SE Standard

Directions (1-5): Read the given passage and answer the following questions based on the passage.
For almost two decades, the Central Ground Water Board (CGWB) has been reporting on the increasing number of over-exploited blocks across India, the 'dark' category blocks. The recent annual book of CGWB has reported 1,034 units, out of the 6,584 units it monitors, as over-exploited. If this is the 'crisis', then we have had it for long. What has this not received enough attention? Is it because these zones are not in cities?
Just to be sure how critical the 'crisis' is, CGWB's 2013 estimates say that the groundwater development in India is just about 62% of the utilisable groundwater reserves. Similarly, a recent report by the Central Water Commission, prepared in collaboration with the Indian Space Research Organisation (ISRO), asserted that India is not yet in "water scarcity condition". But it is certainly in a "water-stressed condition", with reducing per capita water availability. Here, we certainly don't mean to say that India can continue with the present ways of water management. We also cannot remain in a state of denial that a crisis is not in the making. However, certain steps need to be taken to ensure a more useful and productive discourse about water governance challenges.
First, India needs to reconsider the institutional processes for dissemination of knowledge about water resource management. There is a certain amount of danger inherent in the casual manner in which knowledge about water resources is legitimised and consumed, particularly in these days of 'viral' information.
Second, we need to recognise the crisis is not as much of scarcity as of delivery. The challenge is to ensure an adequate access to quality water, more so in urban areas where inequities over space and time are acute. We need to also realise that with the country's rapid urbanisation, demand cannot be met by groundwater reserves alone. For instance, according to the Delhi Jal Board estimates, groundwater meets just 10% of Delhi's drinking water needs. The rest is met by surface water sources, most of it transported from outside Delhi. Finally, we need to reconsider our approaches to water governance. We must recognise that the fulcrum of change and action is with the States. For long, water resource departments in States have continued to follow the conventional approaches of supply augmentation. The challenge is that of reorienting themselves towards deploying strategies of demand management, conservation and regulation. The Centre has to work with States towards an institutional change for the necessary course-shift. The Finance Minister, in her budget, repeatedly stated that the government will work with States to address India's national water security challenges. Let us hope that the government intends to _____ (A) federal governance of water resources towards long-term water security.
2.What does the italicized sentence 'we need to recognise the crisis is not as much of scarcity as of delivery' Refers to as per the above passage?

- It is not about water scarcity but water availability. Water is not scarce but there is a lack of strategies to get it properly delivered
- With expanding urbanisation, there is a need to generate methods to access quality water as ground water is not sufficient to meet drinking water needs.
- Surface water is sufficient to meet the demands of drinking water
- Without denying the fact that water crisis is in process, necessary steps must be taken ensuring productive discourse and effective dealing with water governance challenges.
- All of the above

✓ **Verified Answer:** `It is not about water scarcity but water availability. Water is not scarce but there is a lack of strategies to get it properly delivered`

Problem 23 • Reading Comprehension: Passage Analysis & Contextual Inference

- Approach
- Destruct
- Strengthen
- Uncertain
- Tinker

✓ **Verified Answer:** `Strengthen`

Problem 26 • Reading Comprehension: Passage Analysis & Contextual Inference MUST-SOLVE

ID: SEC0405_RC02_Q06 Source: VERBAL ABILITY _RC 02_QUESTIONS.json Level: Infosys SE Standard

Directions (6-10): Read the given passage and answer the following questions based on the passage.
There has been much development recently with respect to the Protection of Children from Sexual Offences (POCSO) Act, 2012. With an objective of stopping the rampant sexual abuse of children, the Protection of Children from Sexual Offences (Amendment) Bill, 2019 was introduced in the Rajya Sabha in July, and later passed by both Houses of Parliament. It is all set to become the 'law of the land'. The present bill is welcome in certain respects as it specifically defines what 'child pornography' is; 'using a child for pornographic purposes' and for 'possessing or storing pornography involving a child' is punishable. It has also widened the ambit of 'Aggravated sexual assault'.
The highlight of the Bill is the introduction of the death penalty for the rape of minors. The Bill, in its object clause, justifies this by referring to the judgments of the Supreme Court in Machhi Singh (1983) and Devender Pal Singh (2002) in which the court has held that the death penalty can be awarded only in rarest of rare cases. Thus the intention of the Bill is to have a deterrent effect; but it can be argued that the introduction of the death penalty may backfire in cases of child sexual abuse and even have a catastrophic effect. Often, the perpetrators of abuse are family members and having such penalty in the statute book may discourage the registration of the crime itself. Also, it may threaten the life of the minor as the maximum punishment for murder is also the death sentence.
The Justice J.S. Verma Committee, which was constituted in 2013 in the aftermath of the Nirbhaya case, after due deliberations found itself against the imposition of death penalty in rape cases. The 262nd Report of the Law Commission of India, 2015, also provides for abolition of the death penalty except in terror cases.
Today, the death penalty has become a prominent tool of symbolic legislation — a political statement indeed. Many a time, the Government, by introducing the death penalty, portrays itself to be strict and serious with regard to such offences. It largely diverts attention from the core issues of infrastructural apathy, procedural lapses and trial delays and conveniently evades the fact that 'it is the certainty of punishment rather than its severity which has deterrence in real sense'. It is pertinent to note here that even a year-and-a-half after the passage of the Criminal Law (Amendment) Bill, 2018, which introduced the death penalty for rape of a minor girl, such incidents have not been under check. The debate here is not about retaining or abolishing the death penalty but the probable _____(A) of its provision in the Act.
The Supreme Court has recently taken cognisance of the sexual abuse of children, directing its registry to file a case as writ petition with cause title "In-re Alarming Rise in The Number of Reported Child Rape Incidents". The court has also observed that it intends having a 'zero tolerance policy' toward child rape. As data on sexual crimes against children collected by the court show, 24,212 FIRs were filed across India from January to June this year. According to National Crime Records Bureau data of 2016, the conviction rate in POCSO cases is 29.6% while pendency is as high as 89%. The prescribed time period of two months for trial in such cases is hardly complied with.
The court has also taken note of the delay in trials, in turn directing the Central Government to set up special courts within 60 days of the order in each district having more than 100 pending cases under the Act. It is to be seen how long it takes to comply with the order.
The Criminal Law (Amendment) Act, 2018 introduced the death penalty for rape of girls below the age of 12. At the same time, the POCSO Act, under Section 42, provides that where the same act constitutes an offence under the said Act and any other law, then the offender will be punished under the Act or such law, whichever provides for greater punishment. This has created an issue as the effect of such an amendment was death penalty for rape of minor girls but not for assault against minor boys.
The proposed Bill does away with such a discrepancy. It is gender neutral and provides for the death penalty for "aggravated penetrative sexual assault of a child", thus bringing both these pieces of legislation on a par with each other in this respect. With these amendments and with the Supreme Court considering child abuse "intolerable", there seems to be reasonable hope now that vulnerable children could be safer. The Bill is a step forward in preventing child abuse but the consequences of providing for the death penalty need to be closely observed.
Q6. What could be the most appropriate title of this passage?

- Pondering over POSCO Bill
- Life sentence under POSCO Bill
- Diverting attention from core issues under POSCO Bill
- All of the above
- None of These

✓ **Verified Answer:** `Pondering over POSCO Bill`

Problem 27 • Reading Comprehension: Passage Analysis & Contextual Inference MUST-SOLVE

ID: SEC0405_RC02_Q07 Source: VERBAL ABILITY _RC 02_QUESTIONS.json Level: Infosys SE Standard

Directions (6-10): Read the given passage and answer the following questions based on the passage.
There has been much development recently with respect to the Protection of Children from Sexual Offences (POCSO) Act, 2012. With an objective of stopping the rampant sexual abuse of children, the Protection of Children from Sexual Offences (Amendment) Bill, 2019 was introduced in the Rajya Sabha in July, and later passed by both Houses of Parliament. It is all set to become the 'law of the land'. The present bill is welcome in certain respects as it specifically defines what 'child pornography' is; 'using a child for pornographic purposes' and for 'possessing or storing pornography involving a child' is punishable. It has also widened the ambit of 'Aggravated sexual assault'.
The highlight of the Bill is the introduction of the death penalty for the rape of minors. The Bill, in its object clause, justifies this by referring to the judgments of the Supreme Court in Machhi Singh (1983) and Devender Pal Singh (2002) in which the court has held that the death penalty can be awarded only in rarest of rare cases. Thus the intention of the Bill is to have a deterrent effect; but it can be argued that the introduction of the death penalty may backfire in cases of child sexual abuse and even have a catastrophic effect. Often, the perpetrators of abuse are family members and having such penalty in the statute book may discourage the registration of the crime itself. Also, it may threaten the life of the minor as the maximum punishment for murder is also the death sentence.
The Justice J.S. Verma Committee, which was constituted in 2013 in the aftermath of the Nirbhaya case, after due deliberations found itself against the imposition of death penalty in rape cases. The 262nd Report of the Law Commission of India, 2015, also provides for abolition of the death penalty except in terror cases.
Today, the death penalty has become a prominent tool of symbolic legislation — a political statement indeed. Many a time, the Government, by introducing the death penalty, portrays itself to be strict and serious with regard to such offences. It largely diverts attention from the core issues of infrastructural apathy, procedural lapses and trial delays and conveniently evades the fact that 'it is the certainty of punishment rather than its severity which has deterrence in real sense'. It is pertinent to note here that even a year-and-a-half after the passage of the Criminal Law (Amendment) Bill, 2018, which introduced the death penalty for rape of a minor girl, such incidents have not been under check. The debate here is not about retaining or abolishing the death penalty but the probable _____(A) of its provision in the Act.
The Supreme Court has recently taken cognisance of the sexual abuse of children, directing its registry to file a case as writ petition with cause title "In-re Alarming Rise in The Number of Reported Child Rape Incidents". The court has also observed that it intends having a 'zero tolerance policy' toward child rape. As data on sexual crimes against children collected by the court show, 24,212 FIRs were filed across India from January to June this year. According to National Crime Records Bureau data of 2016, the conviction rate in POCSO cases is 29.6% while pendency is as high as 89%. The prescribed time period of two months for trial in such cases is hardly complied with.
The court has also taken note of the delay in trials, in turn directing the Central Government to set up special courts within 60 days of the order in each district having more than 100 pending cases under the Act. It is to be seen how long it takes to comply with the order.
The Criminal Law (Amendment) Act, 2018 introduced the death penalty for rape of girls below the age of 12. At the same time, the POCSO Act, under Section 42, provides that where the same act constitutes an offence under the said Act and any other law, then the offender will be punished under the Act or such law, whichever provides for greater punishment. This has created an issue as the effect of such an amendment was death penalty for rape of minor girls but not for assault against minor boys.
The proposed Bill does away with such a discrepancy. It is gender neutral and provides for the death penalty for "aggravated penetrative sexual assault of a child", thus bringing both these pieces of legislation on a par with each other in this respect. With these amendments and with the Supreme Court considering child abuse "intolerable", there seems to be reasonable hope now that vulnerable children could be safer. The Bill is a step forward in preventing child abuse but the consequences of providing for the death penalty need to be closely observed.
Q7.In what aspects, the present Protection of Children from Sexual Offence (amendment) Bill, 2019 is welcomed?

- It defines child pornography specifically
- It has broadened the domain of aggravated sexual assault
- Death penalty for rape of minors is included in this Bill.
- All of the above
- None of these

✓ **Verified Answer:** `All of the above`

Problem 28 • Reading Comprehension: Passage Analysis & Contextual Inference MUST-SOLVE

ID: SEC0405_RC02_Q08 Source: VERBAL ABILITY _RC 02_QUESTIONS.json Level: Infosys SE Standard

Directions (6-10): Read the given passage and answer the following questions based on the passage.

There has been much development recently with respect to the Protection of Children from Sexual Offences (POCSO) Act, 2012. With an objective of stopping the rampant sexual abuse of children, the Protection of Children from Sexual Offences (Amendment) Bill, 2019 was introduced in the Rajya Sabha in July, and later passed by both Houses of Parliament. It is all set to become the 'law of the land'. The present bill is welcome in certain respects as it specifically defines what 'child pornography' is; 'using a child for pornographic purposes' and for 'possessing or storing pornography involving a child' is punishable. It has also widened the ambit of 'Aggravated sexual assault'.

The highlight of the Bill is the introduction of the death penalty for the rape of minors. The Bill, in its object clause, justifies this by referring to the judgments of the Supreme Court in Machhi Singh (1983) and Devender Pal Singh (2002) in which the court has held that the death penalty can be awarded only in rarest of rare cases. Thus the intention of the Bill is to have a deterrent effect; but it can be argued that the introduction of the death penalty may backfire in cases of child sexual abuse and even have a catastrophic effect. Often, the perpetrators of abuse are family members and having such penalty in the statute book may discourage the registration of the crime itself. Also, it may threaten the life of the minor as the maximum punishment for murder is also the death sentence.

The Justice J.S. Verma Committee, which was constituted in 2013 in the aftermath of the Nirbhaya case, after due deliberations found itself against the imposition of death penalty in rape cases. The 262nd Report of the Law Commission of India, 2015, also provides for abolition of the death penalty except in terror cases.

Today, the death penalty has become a prominent tool of symbolic legislation — a political statement indeed. Many a time, the Government, by introducing the death penalty, portrays itself to be strict and serious with regard to such offences. It largely diverts attention from the core issues of infrastructural apathy, procedural lapses and trial delays and conveniently evades the fact that 'it is the certainty of punishment rather than its severity which has deterrence in real sense'. It is pertinent to note here that even a year-and-a-half after the passage of the Criminal Law (Amendment) Bill, 2018, which introduced the death penalty for rape of a minor girl, such incidents have not been under check. The debate here is not about retaining or abolishing the death penalty but the probable _____(A) of its provision in the Act.

The Supreme Court has recently taken cognisance of the sexual abuse of children, directing its registry to file a case as writ petition with cause title "In-re Alarming Rise in The Number of Reported Child Rape Incidents". The court has also observed that it intends having a 'zero tolerance policy' toward child rape. As data on sexual crimes against children collected by the court show, 24,212 FIRs were filed across India from January to June this year. According to National Crime Records Bureau data of 2016, the conviction rate in POCSO cases is 29.6% while pendency is as high as 89%. The prescribed time period of two months for trial in such cases is hardly complied with.

The court has also taken note of the delay in trials, in turn directing the Central Government to set up special courts within 60 days of the order in each district having more than 100 pending cases under the Act. It is to be seen how long it takes to comply with the order.

The Criminal Law (Amendment) Act, 2018 introduced the death penalty for rape of girls below the age of 12. At the same time, the POCSO Act, under Section 42, provides that where the same act constitutes an offence under the said Act and any other law, then the offender will be punished under the Act or such law, whichever provides for greater punishment. This has created an issue as the effect of such an amendment was death penalty for rape of minor girls but not for assault against minor boys.

The proposed Bill does away with such a discrepancy. It is gender neutral and provides for the death penalty for "aggravated penetrative sexual assault of a child", thus bringing both these pieces of legislation on a par with each other in this respect. With these amendments and with the Supreme Court considering child abuse "intolerable", there seems to be reasonable hope now that vulnerable children could be safer. The Bill is a step forward in preventing child abuse but the consequences of providing for the death penalty need to be closely observed.

> Q8. Why it is said in the italicized sentence, ‘Today, the death penalty has become a prominent tool of symbolic legislation’ mean according to the above passage?

- The idea behind death penalty is to portray strict and serious attitude towards such offences
- It deviates the attention of public from main issues such as infrastructural indifference, lapse in procedural hearings and delayed trials.
- It vanishes the fact that death penalty is a certain punishment which otherwise is constraining in reality.
- All of the above
- None of these

✓ **Verified Answer:** `All of the above`

Directions (6-10): Read the given passage and answer the following questions based on the passage.
There has been much development recently with respect to the Protection of Children from Sexual Offences (POCSO) Act, 2012. With an objective of stopping the rampant sexual abuse of children, the Protection of Children from Sexual Offences (Amendment) Bill, 2019 was introduced in the Rajya Sabha in July, and later passed by both Houses of Parliament. It is all set to become the 'law of the land'. The present bill is welcome in certain respects as it specifically defines what 'child pornography' is; 'using a child for pornographic purposes' and for 'possessing or storing pornography involving a child' is punishable. It has also widened the ambit of 'Aggravated sexual assault'.
The highlight of the Bill is the introduction of the death penalty for the rape of minors. The Bill, in its object clause, justifies this by referring to the judgments of the Supreme Court in Machhi Singh (1983) and Devender Pal Singh (2002) in which the court has held that the death penalty can be awarded only in rarest of rare cases. Thus the intention of the Bill is to have a deterrent effect; but it can be argued that the introduction of the death penalty may backfire in cases of child sexual abuse and even have a catastrophic effect. Often, the perpetrators of abuse are family members and having such penalty in the statute book may discourage the registration of the crime itself. Also, it may threaten the life of the minor as the maximum punishment for murder is also the death sentence.
The Justice J.S. Verma Committee, which was constituted in 2013 in the aftermath of the Nirbhaya case, after due deliberations found itself against the imposition of death penalty in rape cases. The 262nd Report of the Law Commission of India, 2015, also provides for abolition of the death penalty except in terror cases.
Today, the death penalty has become a prominent tool of symbolic legislation — a political statement indeed. Many a time, the Government, by introducing the death penalty, portrays itself to be strict and serious with regard to such offences. It largely diverts attention from the core issues of infrastructural apathy, procedural lapses and trial delays and conveniently evades the fact that 'it is the certainty of punishment rather than its severity which has deterrence in real sense'. It is pertinent to note here that even a year-and-a-half after the passage of the Criminal Law (Amendment) Bill, 2018, which introduced the death penalty for rape of a minor girl, such incidents have not been under check. The debate here is not about retaining or abolishing the death penalty but the probable _____(A) of its provision in the Act.
The Supreme Court has recently taken cognisance of the sexual abuse of children, directing its registry to file a case as writ petition with cause title "In-re Alarming Rise in The Number of Reported Child Rape Incidents". The court has also observed that it intends having a 'zero tolerance policy' toward child rape. As data on sexual crimes against children collected by the court show, 24,212 FIRs were filed across India from January to June this year. According to National Crime Records Bureau data of 2016, the conviction rate in POCSO cases is 29.6% while pendency is as high as 89%. The prescribed time period of two months for trial in such cases is hardly complied with.
The court has also taken note of the delay in trials, in turn directing the Central Government to set up special courts within 60 days of the order in each district having more than 100 pending cases under the Act. It is to be seen how long it takes to comply with the order.
The Criminal Law (Amendment) Act, 2018 introduced the death penalty for rape of girls below the age of 12. At the same time, the POCSO Act, under Section 42, provides that where the same act constitutes an offence under the said Act and any other law, then the offender will be punished under the Act or such law, whichever provides for greater punishment. This has created an issue as the effect of such an amendment was death penalty for rape of minor girls but not for assault against minor boys.
The proposed Bill does away with such a discrepancy. It is gender neutral and provides for the death penalty for "aggravated penetrative sexual assault of a child", thus bringing both these pieces of legislation on a par with each other in this respect. With these amendments and with the Supreme Court considering child abuse "intolerable", there seems to be reasonable hope now that vulnerable children could be safer. The Bill is a step forward in preventing child abuse but the consequences of providing for the death penalty need to be closely observed.
Q10. Choose among the following most suitable word to fill the blank given in (A)

- Acumen
- Multifarious
- Ramifications
- Exacerbate
- Phlegmatic

✓ **Verified Answer:** `Ramifications`

Problem 31 • Reading Comprehension: Passage Analysis & Contextual Inference MUST-SOLVE

ID: SEC0405_RC02_Q11 Source: VERBAL ABILITY _RC 02_QUESTIONS.json Level: Infosys SE Standard

Directions (11-15): Read the following passage and answer the following questions based on the given passage.
As the country celebrates 50 years since bank nationalisation, bank employees will be proud that they have contributed to nation-building. Still there are basic issues close to the bankman's heart that are yet to find redressal, observes Jyothi KP, Vice-President, All-India Bank Officers' Confederation, Kerala, and a National Executive Committee member.The Banking Companies (Acquisition and Transfer of Undertakings) Acts of 1970 and 1980 provide that the Central Government, in consultation with the Reserve Bank of India, may make a scheme, inter alia, for amalgamation of any nationalised bank with any other nationalised bank or any other banking institution. Various committees, including Narasimhan Committee (1998) constituted by the RBI, Leeladhar Committee (2008) chaired by the RBI Deputy Governor, and the Nayak Committee (2014) constituted by the RBI, have recommended consolidation of public sector banks (PSBs) given underlying benefits/synergies.
Taking note of this and potential benefits of consolidation for banks as well as the public through enhanced access to banking services, the government, in order to facilitate consolidation among PSBs to create strong and competitive banks, serving as catalysts for growth, with improved risk profile, has approved a framework for proposals to amalgamate PSBs through an Alternative Mechanism.The following amalgamation/mergers have already happened post-nationalisation and some more are reportedly in the pipeline. This creates stress for the employees since they are scared for their existence and job security, observes Jyothi.
Giving a bank employee's perspective, Jyothi recalled that the banking sector was in the red in Q4 of 2018-19 with a loss of ₹20,817 crore. In 2017-18, they had reported a massive loss of ₹85,000 crore forcing lenders to make provisions for bad loans and clean-up of the books.
Till such time a project is commissioned in line with the approved schedule, banks should not be forced to categorise such projects as NPA, notes Jyothi. In the event of classification of big-ticket advances as NPA, the government should pro-actively help banks in realising the public money. It should initiate steps to declare suo moto 50 top NPAs of each banks as wilful defaulters and to publish their names and photos.
For implementing SARFAESI provisions, many bank officers are targeted, even personally. By merely targeting the bank officers responsible for executing the Act, the political fraternity is missing the point to bring amendments to the Act itself.
The humongous challenge of realising the NPA is telling on PSB bottomlines. This is also subjecting the desk officers to unreasonable amount of work pressure and stress.
Irregular working hours, stress on account of financial risk in routine work schedules, technical problems of software, and IT-related issues add to the worries of the already traumatised bank employees.In many cases, their retirement benefits are withheld. Many are arrested and are not aware as to why the arrest is happening in the first place, evening leading to suicides.
According to Section 5 of the Banking Regulation Act, banking means 'accepting, for the purpose of lending and investment of deposits of money from public, repayable on demand or otherwise and withdrawal by cheque, draft, order or otherwise.'However, sale of para-banking products and implementation of government schemes take away the lion's share of working hours of an average PSB employee.As mentioned earlier, when the balance sheet turns red, all blame is shoved on the desk-level officers for non-profitability/non- performance.
Yet, when it comes to wage revision, the question of profitability arise. The settlement takes place between Indian Banks' Association (IBA) and United Forum of Bank Unions (UFBU).
The IBA represents bank managements and the UFBU, officers, employees, and staff organisations. The Charter of demands had been submitted in a time bound manner and the IBA had agreed to complete the process of negotiations expeditiously within the time-frame so as to reach the settlement before October 2017. However, since five major bank managements have not given full mandate for negotiating wages up to scale VII , the AIBOC is not participating in the talks now.
Q11. Why amalgamation of Public sector banks has become a stress lately for the bank employees?

- Proposals to amalgamate PSBs via an alternative method is approved by the government
- The job security and existence of a bank employees becomes questionable
- Because such amalgamations have been done after nationalisation and still followed by more such mergers.
- During the year 2018-2019, banking was insolvent with a loss of 20,817 Crore Rs.
- All of the above

✓ **Verified Answer:** `Because such amalgamations have been done after nationalisation and still followed by more such mergers.`

The humongous challenge of realising the NPA is telling on PSB bottomlines. This is also subjecting the desk officers to unreasonable amount of work pressure and stress.
Irregular working hours, stress on account of financial risk in routine work schedules, technical problems of software, and IT-related issues add to the worries of the already traumatised bank employees.In many cases, their retirement benefits are withheld. Many are arrested and are not aware as to why the arrest is happening in the first place, evening leading to suicides.
According to Section 5 of the Banking Regulation Act, banking means 'accepting, for the purpose of lending and investment of deposits of money from public, repayable on demand or otherwise and withdrawal by cheque, draft, order or otherwise.'However, sale of para-banking products and implementation of government schemes take away the lion's share of working hours of an average PSB employee.As mentioned earlier, when the balance sheet turns red, all blame is shoved on the desk-level officers for non-profitability/non- performance.
Yet, when it comes to wage revision, the question of profitability arise. The settlement takes place between Indian Banks' Association (IBA) and United Forum of Bank Unions (UFBU).
The IBA represents bank managements and the UFBU, officers, employees, and staff organisations. The Charter of demands had been submitted in a time bound manner and the IBA had agreed to complete the process of negotiations expeditiously within the time-frame so as to reach the settlement before October 2017. However, since five major bank managements have not given full mandate for negotiating wages up to scale VII , the AIBOC is not participating in the talks now.
Q13. What causes traumatisation of bank employees according to the passage given above?

- Bank officers are targeted personally for implementation of Sarfaesi Act
- Sometimes the retirement benefits are withheld
- Irregular working hours, stress due to financial risk, technical and IT issues
- All of the above
- None of these

✓ **Verified Answer:** `All of the above`

Problem 34 • Reading Comprehension: Passage Analysis & Contextual Inference

MUST-SOLVE

ID: SEC0405_RC02_Q14 | Source: VERBAL ABILITY _RC 02_QUESTIONS.json | Level: Infosys SE Standard

Directions (11-15): Read the following passage and answer the following questions based on the given passage.
As the country celebrates 50 years since bank nationalisation, bank employees will be proud that they have contributed to nation-building. Still there are basic issues close to the bankman's heart that are yet to find redressal, observes Jyothi KP, Vice-President, All-India Bank Officers' Confederation, Kerala, and a National Executive Committee member.The Banking Companies (Acquisition and Transfer of Undertakings) Acts of 1970 and 1980 provide that the Central Government, in consultation with the Reserve Bank of India, may make a scheme, inter alia, for amalgamation of any nationalised bank with any other nationalised bank or any other banking institution. Various committees, including Narasimhan Committee (1998) constituted by the RBI, Leeladhar Committee (2008) chaired by the RBI Deputy Governor, and the Nayak Committee (2014) constituted by the RBI, have recommended consolidation of public sector banks (PSBs) given underlying benefits/synergies.
Taking note of this and potential benefits of consolidation for banks as well as the public through enhanced access to banking services, the government, in order to facilitate consolidation among PSBs to create strong and competitive banks, serving as catalysts for growth, with improved risk profile, has approved a framework for proposals to amalgamate PSBs through an Alternative Mechanism.The following amalgamation/mergers have already happened post-nationalisation and some more are reportedly in the pipeline. This creates stress for the employees since they are scared for their existence and job security, observes Jyothi.
Giving a bank employee's perspective, Jyothi recalled that the banking sector was in the red in Q4 of 2018-19 with a loss of ₹20,817 crore. In 2017-18, they had reported a massive loss of ₹85,000 crore forcing lenders to make provisions for bad loans and clean-up of the books.
Till such time a project is commissioned in line with the approved schedule, banks should not be forced to categorise such projects as NPA, notes Jyothi. In the event of classification of big-ticket advances as NPA, the government should pro-actively help banks in realising the public money. It should initiate steps to declare suo moto 50 top NPAs of each banks as wilful defaulters and to publish their names and photos.
For implementing SARFAESI provisions, many bank officers are targeted, even personally. By merely targeting the bank officers responsible for executing the Act, the political fraternity is missing the point to bring amendments to the Act itself.
The humongous challenge of realising the NPA is telling on PSB bottomlines. This is also subjecting the desk officers to unreasonable amount of work pressure and stress.
Irregular working hours, stress on account of financial risk in routine work schedules, technical problems of software, and IT-related issues add to the worries of the already traumatised bank employees.In many cases, their retirement benefits are withheld. Many are arrested and are not aware as to why the arrest is happening in the first place, evening leading to suicides.
According to Section 5 of the Banking Regulation Act, banking means 'accepting, for the purpose of lending and investment of deposits of money from public, repayable on demand or otherwise and withdrawal by cheque, draft, order or otherwise.'However, sale of para-banking products and implementation of government schemes take away the lion's share of working hours of an average PSB employee.As mentioned earlier, when the balance sheet turns red, all blame is shoved on the desk-level officers for non-profitability/non- performance.
Yet, when it comes to wage revision, the question of profitability arise. The settlement takes place between Indian Banks' Association (IBA) and United Forum of Bank Unions (UFBU).
The IBA represents bank managements and the UFBU, officers, employees, and staff organisations. The Charter of demands had been submitted in a time bound manner and the IBA had agreed to complete the process of negotiations expeditiously within the time-frame so as to reach the settlement before October 2017. However, since five major bank managements have not given full mandate for negotiating wages up to scale VII , the AIBOC is not participating in the talks now.
Q14. According to the above passage, what could be the other factors apart from profitability for revising wages of bankers?

- Bank employees spend a huge amount of working hours in the sale of para-banking products and implementing government schemes though it is not mentioned in the section 5 of banking regulation act.
- While the balance sheet becomes red due to NPAs, they are blamed for non-performance and profitability
- Instead of making essential amendments to SARFAESI Act that shows lack of political fraternity, bank officers are forced to implement its provisions
- Their retirement benefits are withdrawn in many cases and many of them get arrested without having awareness of the reason behind the arrest even resulting into suicides
- All of the above

✓ **Verified Answer:** `All of the above`

Problem 35 • Reading Comprehension: Passage Analysis & Contextual Inference MUST-SOLVE

However, since five major bank managements have not given full mandate for negotiating wages up to scale VII , the AIBOC is not participating in the talks now.
Q15. According to Jyothi KP, how government should help banks in realizing the public money?

- Banks should not be forced to categorize bad loans as NPAs till a project through an alternative mechanism is not commissioned.
- The government initiate steps for declaring suo moto in which 50 Top Non Performing Assets of each banks are identified
- The information of such NPAs should be published publicly as wilful defaulters alongside their names and photos
- Both (b) and (c)
- None of these

✓ **Verified Answer:** `Both (b) and (c)`

Problem 36 • English Grammar & Verbal Comprehension Session

MUST-SOLVE

ID: SEC0405_ENG_SESS_Q01 | Source: ENGLISH SESSION_QUESTIONS.json | Level: Infosys SE Standard

Directions (1-8): Read the following passage and answer the following questions based on the given passage. Some of the words are highlighted which would help you to answer some of the questions given.
All political parties must be mindful of the core values that invigorate Indian democracyAs the countdown for elections to the 17th Lok Sabha begins, the world's largest democracy has a chance to re-imagine itself. Over the last 16 general elections and numerous elections at lower levels, the resolute trust that the founding fathers of the Republic put in the parliamentary democratic system has been substantially proven wise. India did make some dangerous turns and show signs of fragility, especially during the Emergency in the 1970s, but in the long term it expanded the scope of its democracy through widening representation, devolution of power and redistribution of resources. This is not to overlook the various maladies that have afflicted the country's democracy, such as disinformation campaigns, corruption, disenfranchisement of the weaker sections of the society, the corroding influence of money and muscle power in elections, and divisive majoritarian tendencies. (i) The representative character of institutions has in general improved, women and religious minorities are alarmingly underrepresented. The exercise of elections itself is a matter of great pride for all Indians. The Election Commission of India has over the decades evolved itself into a fine institution and plays a critical role in the support of democracy. Its efforts to increase voter participation through a series of small steps over the years, including the use of the Electronic Voting Machines, have been praiseworthy.
The vulnerabilities of Indian democracy have been pronounced in the last five years, and some of its long-term gains have been undermined. Therefore, this election is more than an exercise to elect a new government. This should also be an occasion to reiterate and reinforce Indian democracy's core values, its representative character and its promise of a constant rejuvenation of the collective spirit. The ECI has announced a series of fresh measures to strengthen the integrity of the electoral process and curb some rapidly growing hazards such as the spread of falsehoods aimed at creating social polarisation for consolidation of votes. Measures such as better monitoring of social media campaigns, while steps in the right direction, are not in themselves adequate to deal with the challenges of these times. The stakes are high for all contenders this year, and Indian politics has reached a level of competitiveness where ground rules of engagement are routinely disregarded. Prime Minister Narendra Modi, who rode to power in 2014 on the agenda of material progress through Hindutva, has to defend his reign to seek a second term. His opponents sense an existential danger from him and are trying to mobilise those left behind or who feel disempowered by his governance. While furthering individual interests, all parties must realise that democracy itself is at stake if the campaign is aimed at communal polarisation. Though the promise of Indian democracy has not been fully realised, voters have remained committed to it. They turn up in large numbers to vote, and consider the very act of voting as empowerment. That trust should be upheld.
Q71. As per the passage given above, how has India managed to amplify its democratic base?
(i) allocation of resources in a way to achieve higher equality
(ii) dilated representation
(iii) decentralized structure of power sharing

- Both (i) & (ii)
- Both (ii) & (iii)
- Both (i) & (iii)
- All (i), (ii), (iii)
- None of (i), (ii), (iii)

✓ **Verified Answer:** `All (i), (ii), (iii)`

Question Text:
The central idea of the passage is that:

- **A** Technical debt is harmful and must be eliminated at once
- **B** Technical debt is not necessarily bad, but its recurring costs must be made visible and repaid selectively
- **C** Managers, not developers, are responsible for technical debt
- **D** Fixed refactoring quotas are the best way to manage debt

✓ **Verified Answer:** (B)** — `Technical debt is not necessarily bad, but its recurring costs must be made visible and repaid selectively` **Detailed Explanation & Grammatical / Textual Justification:** The passage argues that technical debt is analogous to financial debt: not inherently evil, but dangerous when its recurring carrying costs ('interest') are unacknowledged. The recommended path is making debt visible and repaying it where interest is demonstrably high, matching option (b).

Question Text:
According to the passage, managers blame developer productivity because they:

- **A** do not trust developers
- **B** see only the delivered features and not the hidden extra effort
- **C** are unaware that software can be refactored
- **D** have reserved too little time for sprints

✓ **Verified Answer:** (B)** — `see only the delivered features and not the hidden extra effort` **Detailed Explanation & Grammatical / Textual Justification:** The passage states explicitly: 'yet managers, seeing only the delivered functionality, attribute the slowdown to declining developer productivity.' Because the background drag of unrecorded debt is invisible to them, they blame the engineers.

Problem 155 • Infosys SE Question 155

CORE SE

Question Text:
Which statement would critics of fixed repayment quotas most likely agree with?

- **A** Repayment effort should target genuine risks rather than meet a set proportion
- **B** Refactoring should be abandoned entirely
- **C** Cosmetic rewrites are the most valuable form of repayment
- **D** Sprints should be lengthened

✓ **Verified Answer:** (A)** — `Repayment effort should target genuine risks rather than meet a set proportion` **Detailed Explanation & Grammatical / Textual Justification:** Critics argue that fixed quotas 'are arbitrary and encourage cosmetic rewrites that leave real risks untouched.' Hence, they would advocate targeting repayment where high, genuine risks exist rather than meeting a rigid percentage.

Problem 156 • Infosys SE Question 156

CORE SE

Question Text:
In the passage, "interest" most nearly refers to:

- **A** money paid to lenders
- **B** the recurring additional effort imposed on future changes
- **C** the curiosity of developers
- **D** the profit from a market opportunity

✓ **Verified Answer:** (B)** — `the recurring additional effort imposed on future changes` **Detailed Explanation & Grammatical / Textual Justification:** The passage defines interest directly: 'the interest, meaning the extra effort every future change demands'.

Problem 157 • Infosys SE Question 157

CORE SE

Question Text:
Which of the following is NOT supported by the passage?

A Borrowing can sometimes be a shrewd decision

B A slowdown in delivery always indicates falling developer productivity

C Tracking defect-prone modules can help identify costly debt

D Debt is often left unrecorded in practice

✓ **Verified Answer:** (B)** — `A slowdown in delivery always indicates falling developer productivity` **Detailed Explanation & Grammatical / Textual Justification:** The passage explicitly notes that a delivery slowdown is often caused by accumulated technical debt rather than declining developer productivity, so the claim that slowdown 'always indicates falling developer productivity' is false and NOT supported.

Problem 158 • Infosys SE Question 158

CORE SE

ID: Q158 | Source: Infosys PYQ | Level: Infosys SE Standard

Question Text:
Neither the manager nor the engineers was aware of the revised deadline.

A No improvement

B engineers were

C engineers has been

D engineer were

✓ **Verified Answer:** (B)** — `engineers were` **Detailed Explanation & Grammatical / Textual Justification:** With correlative conjunctions 'neither... nor', the verb agrees in number with the nearer subject. Here, the nearer subject is 'engineers' (plural), which requires the plural past verb 'were'. Correct: 'Neither the manager nor the engineers were aware of the revised deadline.'

Question Text:
Had the team would have tested the patch thoroughly, the outage could have been avoided.

A No improvement

B Had the team tested

C Has the team tested

D If the team would test

✓ **Verified Answer:** (B)** — `Had the team tested` **Detailed Explanation & Grammatical / Textual Justification:** Inverted third conditional structure uses 'Had + subject + past participle'. The conditional clause cannot contain 'would have'. Correct: 'Had the team tested the patch thoroughly, the outage could have been avoided.'

Problem 160 • Infosys SE Question 160

CORE SE

ID: Q160 | Source: Infosys PYQ | Level: Infosys SE Standard

Question Text:
Hardly the server had restarted when the alerts began flooding in.

A No improvement

B had the server restarted when

C did the server restarted when

D the server

✓ **Verified Answer:** (B)** — `had the server restarted when` **Detailed Explanation & Grammatical / Textual Justification:** Negative adverbial 'Hardly' placed at the beginning of a clause triggers negative inversion: 'Hardly had + subject + past participle... when...'. Correct: 'Hardly had the server restarted when the alerts began flooding in.'

Question Text:
The number of applicants are increasing, but a large number of them lacks the required skills.

A are ... lacks

B is ... lack

C is ... lacks

D are ... lack

✓ **Verified Answer:** (B)** — `is ... lack` **Detailed Explanation & Grammatical / Textual Justification:** 'The number of' denotes a singular collective quantity and takes a singular verb ('is increasing'). In contrast, 'a large number of' denotes a plural quantity of individuals and takes a plural verb ('lack the required skills'). Correct: 'is ... lack'.

Problem 162 • Infosys SE Question 162

Question Text:
Each of the interns, along with their mentor, were invited to present.

A No improvement

B was

C are

D have been

✓ **Verified Answer:** (B)** — `was` **Detailed Explanation & Grammatical / Textual Justification:** The true grammatical subject of the sentence is 'Each' (distributive pronoun, singular). Parenthetical prepositional phrases like 'along with their mentor' do not alter the grammatical number of the subject. Correct: 'was'.
