Question 3: Identifying Implicit Assumptions 🟡 [⭐ CORE SE LEVEL | HIGH PROBABILITY]

Statement: *“Students should not be allowed to use mobile phones in classrooms.”*
Assumption:

Options

- **(a)** Mobile phones distract students.
- **(b)** Students never study.
- **(c)** Teachers do not like technology.
- **(d)** Mobile phones are essential in classrooms.

Logical Analysis

- An assumption is an unstated premise that the speaker takes for granted when making a policy statement.

Verified Answer: (a) Mobile phones distract students.
