(C) Both statements are independent causes.
(D) Both statements are effects of a common cause.

Correct Answer: Option (B) : Statement 2 is the cause, and Statement 1 is its effect.

■ **Step-by-Step Logic:** Low monsoon rainfall (Statement 2) has led to severe water shortages (Statement 1), making Statement 2 the cause and Statement 1 the effect.

Q6. Argument: Wearing a seatbelt while driving reduces the risk of injury in accidents.

(A) Many people find seatbelts uncomfortable.
(B) Seatbelts are mandatory in many countries.
(C) Seatbelts prevent passengers from being thrown forward in case of a sudden stop or crash.
(D) Accidents can also be caused by reckless driving.

Correct Answer: Option (C) : Seatbelts prevent passengers from being thrown forward in case of a sudden stop or crash.

■ **Step-by-Step Logic:** Seatbelts prevent passengers from being thrown forward, which directly supports the argument that they reduce the risk of injury in accidents.

Q8. Statement: Many factories have been dumping industrial waste into a major river, causing severe pollution. Courses of Action: I. The government should shut down all factories near the river. II. Strict penalties should be imposed on factories violating pollution norms.

(A) Only Course of Action I follows
(B) Only Course of Action II follows
(C) Both I and II follow
(D) Neither I nor II follows

Correct Answer: Option (D) : Neither I nor II follows

■ **Step-by-Step Logic:** Shutting down all factories (Course I) is an extreme measure that could harm the economy. Simply imposing penalties (Course II) may not be enough without proper enforcement. A better solution would be stricter monitoring and implementation of waste treatment systems.

Q10. Statement: "Many people are shifting to electric vehicles due to rising fuel prices." Conclusion: I. Rising fuel prices is not affecting people's choice of transportation. II. All people will eventually switch to electric vehicles.

(A) Only Conclusion I follows
(B) Only Conclusion II follows
(C) Both I and II follow
(D) Neither I nor II follows

Correct Answer: Option (D) : Neither I nor II follows

Q12. Read the following argument and mark which of the following assumptions is made in the argument. More than one billion years' worth of rocks have gone missing from the geologic record of Grand Canyon.

(A) Earth has transitioned from an older setting to the modern one during these one billion years.
(B) The western half of the Grand Canyon has gone through a very different geologic contortion compared to the eastern half.
(C) Series of Faulting events in that region possibly tore up the earth around the Canyon causing rocks and sediments to wash away in the ocean.
(D) None of the mentioned options.

Correct Answer: Option (C) : Series of Faulting events in that region possibly tore up the earth around the Canyon causing rocks and sediments to wash away in the ocean.

■ **Step-by-Step Logic:** In a new study, researchers led by Peak identify a likely cause for the missing rocks: the breakup of Earth's ancient supercontinent Rodina approximately 700 million years ago. The upheaval was so violent it likely washed rocks and sediment into the ocean — one billion years' worth, in the case of the Grand Canyon.

Q13. Statement: Fluency in spoken English is a must have in today's job market, where every firm wants to compete at the international level. Inferences: I. The imposition of language is unfair. II. English is the language that bridges the gap between countries.

(A) Only Conclusion I follows
(B) Only Conclusion II follows
(C) Both I and II follow
(D) Neither I nor II follows

Correct Answer: Option (B) : Only Conclusion II follows

■ **Step-by-Step Logic:** Conclusion I: "The imposition of language is unfair" does not follow because the statement does not discuss fairness or imposition; it simply states a requirement in the job market. Conclusion II: "English is the language that bridges the gap between countries" follows because the statement implies that fluency in English is important for firms competing internationally.

Q15. Directions: In the question below, a statement and assumptions numbered I and II are given. An assumption is something supposed or taken for granted. You have to consider the following assumption and decide which of the assumption is implicit in the statement. Statement: "Tomorrow morning the daily review meeting will happen at 1 pm instead of 11 am" said the boss. Assumptions: I. That day boss will arrive at the office only at 1 pm. II. Some of the employees will not be available at 11 am.

(A) Only Assumption I is implicit
(B) Only Assumption II is implicit
(C) Both I and II are implicit
(D) Neither I nor II is implicit

Correct Answer: Option (D) : Neither I nor II is implicit

■ **Step-by-Step Logic:** The statement does not mention when the boss will arrive (I is not implicit). The reason for rescheduling is unclear, so employee unavailability is not necessarily assumed (II is not implicit).

Q16. Statement: Mother scolding the child said, "If you continue doing naughty things, I will slap you." Assumptions: I. All children are naughty. II. With this warning, child may stop doing mischievous acts.

(A) Only Assumption I is implicit
(B) Only Assumption II is implicit
(C) Both I and II are implicit
(D) Neither I nor II is implicit

Correct Answer: Option (B) : Only Assumption II is implicit

■ **Step-by-Step Logic:** Assumption I: "All children are naughty" is not implicit because the statement talks about one specific child, not all children in general. Assumption II: "With this warning, the child may stop doing mischievous acts" is implicit because the mother's warning suggests that she believes it will have an effect on the child's behavior.

(A) Only Conclusion I follows
(B) Only Conclusion II follows
(C) Both I and II follow
(D) Neither I nor II follows

Correct Answer: Option (A) : Only Conclusion I follows

■ **Step-by-Step Logic:** As per the statement gatherings could turn in to COVID super spread , so only Conclusion I follows, decision on Conclusion II can't be taken as the statement doesn't discuss about vaccination.

(B) Only Conclusion II follows
(C) Both I and II follow
(D) Neither I nor II follows

Correct Answer: Option (A) : Only Conclusion I follows

■ **Step-by-Step Logic:** Conclusion I logically follows, as some mammals can be domestic. Conclusion II is incorrect because all mammals are not necessarily cats.

(B) Only Assumption II is implicit
(C) Both I and II are implicit
(D) Neither I nor II is implicit
