- (C) Both statements are independent causes.
- (D) Both statements are effects of a common cause.

Correct Answer: (B)

Low
monsoon rainfall (Statement 2) has led to severe water shortages (Statement 1), making Statement 2 the cause and Statement 1 the effect.

Options:

- (A) Many
  people find seatbelts uncomfortable.

Seatbelts
prevent passengers from being thrown forward, which directly supports the argument that they reduce the risk of injury in accidents.

Question 8

Statement:
Many factories have been dumping industrial waste into a major river, causing severe pollution.
Courses
of Action:
I.
The government should shut down all factories near the river.
II.
Strict penalties should be imposed on factories violating pollution norms.

Options:

- (A) Only
  Course of Action I follows
- (B) Only
  Course of Action II follows
- (C) Both
  I and II follow
- ✅ **(D) Neither**
  I nor II follows *(Correct Answer)*

Correct Answer: (D)

Explanation / Solution:
Shutting
down all factories (Course I) is an extreme measure that could harm the economy. Simply imposing penalties (Course II) may not be enough without proper enforcement. A better solution would be stricter monitoring and implementation of waste treatment systems.

Many students in a school are failing in mathematics.
Courses
of Action:

Correct Answer: (A)

Explanation / Solution:
Argument
I is strong because it presents an environmental concern. Argument
II is weak because inconvenience alone is not a strong enough
reason to ignore environmental damage.

Question 12

Read
the following argument and mark which of the following assumptions
is made in the argument.
More
than one billion years' worth of rocks have gone missing
from the geologic record of Grand Canyon.

Options:

- (A) Earth
  has transitioned from an older setting to the modern one during
  these one billion years.
- (B) The
  western half of the Grand Canyon has gone through a very different
  geologic contortion compared to the eastern half.
- ✅ **(C) Series**
  of Faulting events in that region possibly tore up the earth
  around the Canyon causing rocks and sediments to wash away in the
  ocean. *(Correct Answer)*
- (D) None
  of the mentioned options.

Correct Answer: (C)

Explanation / Solution:
In
a new study, researchers led by Peak identify a likely cause for
the missing rocks: the breakup of Earth's ancient supercontinent
Rodina approximately 700 million years ago. The upheaval was so
violent it likely washed rocks and sediment into the ocean —
one billion years' worth, in the case of the Grand Canyon.

Question 13

Statement:
Fluency in spoken English is a must have in today's job market,
where every firm wants to compete

at
the international level.

The imposition of language is unfair.
II.
English is the language that bridges the gap between countries.

Options:

- (A) Only
  Conclusion I follows
- ✅ **(B) Only**
  Conclusion II follows *(Correct Answer)*
- (C) Both
  I and II follow
- (D) Neither
  I nor II follows

Correct Answer: (B)

Explanation / Solution:
Conclusion
I: "The imposition of language is unfair" does not
follow because the statement does not discuss fairness or
imposition; it simply states a requirement in the job market.
Conclusion
II: "English is the language that bridges the gap between
countries" follows because the statement implies that fluency
in English is important for firms competing internationally.

- (D) Both
  statements are effects of a common cause.

Correct Answer: (A)

Explanation / Solution:
The
launch of a new marketing campaign (Statement 1) likely led to an
increase in sales (Statement 2), making it a cause-and-effect
relationship.

Question 15

Directions:
In the question below, a statement and assumptions numbered I and
II are given. An
assumption
is something supposed or taken for granted. You have to consider
the following assumption
and
decide which of the assumption is implicit in the statement.
Statement:
"Tomorrow morning the daily review meeting will happen at 1
pm instead of 11 am" said the boss.
Assumptions:
I.
That day boss will arrive at the office only at 1 pm.
II.
Some of the employees will not be available at 11 am.

Options:

- (A) Only
  Assumption I is implicit
- (B) Only
  Assumption II is implicit
- (C) Both
  I and II are implicit
- ✅ **(D) Neither**
  I nor II is implicit *(Correct Answer)*

Correct Answer: (D)

Explanation / Solution:
The
statement does not mention when the boss will arrive (I is not

implicit).
The
reason for rescheduling is unclear, so employee unavailability is
not necessarily assumed (II is not implicit).

Question 16

Statement:
Mother
scolding the child said, “If you continue doing naughty
things, I will slap you.”
Assumptions:
I.
All children are naughty.
II.
With this warning, child may stop doing mischievous acts.

Options:

- (A) Only
  Assumption I is implicit
- ✅ **(B) Only**
  Assumption II is implicit *(Correct Answer)*
- (C) Both
  I and II are implicit
- (D) Neither
  I nor II is implicit

Correct Answer: (B)

Explanation / Solution:
Assumption
I: "All children are naughty" is not implicit because
the statement talks about one specific child, not all children in
general.
Assumption
II: "With this warning, the child may stop doing mischievous
acts" is implicit because the mother’s warning suggests
that she believes it will have an effect on the child's behavior.

Question 17

Social
gatherings could turn into COVID super spreader events if safety
norms are flouted.
Conclusions
:

Options:

- ✅ **(A) Only**
  Conclusion I follows *(Correct Answer)*
- (B) Only
  Conclusion II follows
- (C) Both
  I and II follow
- (D) Neither
  I nor II follows

Correct Answer: (A)

Explanation / Solution:
As
per the statement gatherings could turn in to COVID super spread , so only Conclusion I follows, decision on Conclusion II can't be taken as the statement doesn't discuss about vaccination.

Question 18

Statement:
"People who exercise regularly are healthier than those who don't."
Assumption:
I.
Regular exercise improves health.
II.
Some people do not exercise regularly.

Options:

- (A) Only
  Assumption I is implicit
- (B) Only
  Assumption II is implicit
- ✅ **(C) Both**
  I and II are implicit *(Correct Answer)*
- (D) Neither
  I nor II is implicit

Correct Answer: (C)

Explanation / Solution:
Assumption
I is implicit because the statement claims a direct relationship between exercise and health. Assumption II is also implicit as the comparison suggests the existence of people who do not exercise.

Question 19

Statement:
"All cats are mammals. Some mammals are not domestic animals."
Conclusion:
I.
Some domestic animals are mammals.
II.
All mammals are cats.

Options:

- ✅ **(A) Only**
  Conclusion I follows *(Correct Answer)*
- (B) Only
  Conclusion II follows
- (C) Both
  I and II follow
- (D) Neither
  I nor II follows

Correct Answer: (A)

Explanation / Solution:
Conclusion
I logically follows, as some mammals can be domestic. Conclusion II is incorrect because all mammals are not necessarily cats.

  Assumption I is implicit
- (B) Only
  Assumption II is implicit
- ✅ **(C) Both**
  I and II are implicit *(Correct Answer)*
- (D) Neither
  I nor II is implicit

Correct Answer: (C)

Explanation / Solution:
Assumption
I is implicit because the requirement of the test suggests its importance. Assumption II is implicit because if everyone passed, there would be no need for a test.
