Infosys Full Length Mock Test- 2 - Questions & Detailed Solutions

Total Questions: 60 | **Total Marks:** 76

Section: Reasoning

Question 1

Refer to the table in Question 7. Which product had the highest total sales over the three months?

Options:

- ✅ **(A) A** *(Correct Answer)*
- (B) B
- (C) C
- (D) A and B equal

Correct Answer: (A)

Explanation / Solution:
A = 40+45+50 = 135. B = 30+35+30 = 95. C = 25+20+35 = 80. Product A is highest.

Question 2

If 1 + 2 = 3, 2 + 3 = 8, 3 + 4 = 15 and 4 + 5 = 24, then 5 + 6 = ?

Options:

- (A) 30
- (B) 33
- ✅ **(C) 35** *(Correct Answer)*
- (D) 36

Correct Answer: (C)

Explanation / Solution:
The rule is a + b maps to a × b + a, which is a(b + 1). Check: 1×2+1=3, 2×3+2=8, 3×4+3=15, 4×5+4=24. Then 5×6+5 = 35.

Question 3

Statements: All servers are machines. Some machines are laptops. No laptop is a tablet. Conclusions: I. Some servers are laptops. II. Some machines are not tablets.

Options:

- (A) Only I follows
- ✅ **(B) Only II follows** *(Correct Answer)*
- (C) Both I and II follow
- (D) Neither I nor II follows

Correct Answer: (B)

Explanation / Solution:
Servers sit inside machines, but they need not overlap laptops, so I does not follow. Some machines are laptops, and no laptop is a tablet, so those machines are not tablets. II follows.

Question 4

If PLANET is coded as QMBOFU, how is ORBIT coded?

Options:

- ✅ **(A) PSCJU** *(Correct Answer)*
- (B) NQAHS
- (C) PSCJT
- (D) PSBJU

Correct Answer: (A)

Explanation / Solution:
Each letter moves one step forward: P→Q, L→M, A→B, N→O, E→F, T→U. Apply the same to ORBIT: O→P, R→S, B→C, I→J, T→U. Code: PSCJU.

Question 5

Find the missing number in the figure.
5
7
9
4
6
8
3
5
?

Options:

- (A) 6
- ✅ **(B) 7** *(Correct Answer)*
- (C) 8
- (D) 9

Correct Answer: (B)

Explanation / Solution:
Each column decreases by 1 going down:
5-4-3, 7-6-5, 9-8-7. The missing number is 7. Rows also increase by 2.

Question 6

A square figure series adds one diagonal-style mark in each step: Step 1 has 1 line, Step 2 has 2 lines, Step 3 has 3 lines. How many lines does Step 5 contain?

Options:

- (A) 3
- (B) 4
- ✅ **(C) 5** *(Correct Answer)*
- (D) 6

Correct Answer: (C)

Explanation / Solution:
The count of lines increases by 1 in each step. Step 5 therefore has 5 lines.

Question 7

What is the value of x + y? Statement 1: x − y = 4. Statement 2: 2x + 2y = 20.

Options:

- (A) Statement 1 alone is sufficient, but Statement 2 alone is not
- ✅ **(B) Statement 2 alone is sufficient, but Statement 1 alone is not** *(Correct Answer)*
- (C) Either statement alone is sufficient
- (D) Both statements together are needed

Correct Answer: (B)

Explanation / Solution:
S1 gives only the difference, so x + y cannot be found. S2 divides by 2 to give x + y = 10. Statement 2 alone is enough.

Question 8

Find the missing number in the figure.

2
6
3
4
20
5
3
?
7

Options:

- (A) 10
- (B) 18
- ✅ **(C) 21** *(Correct Answer)*
- (D) 24

Correct Answer: (C)

Explanation / Solution:
In each row the middle cell is the product of the two side cells: 2×3=6, 4×5=20, 3×7=21.

Question 9

Refer to the table in Question 7. The increase in Product A from January to March is what percent of the January figure?

Options:

- (A) 10%
- (B) 20%
- ✅ **(C) 25%** *(Correct Answer)*
- (D) 30%

Correct Answer: (C)

Explanation / Solution:
Increase = 50 − 40 = 10. Percent = (10 / 40) × 100 = 25%.

Question 10

The table shows units sold. What were the total units sold in February?
Product
Jan
Feb
Mar
A
40
45
50
B
30
35
30
C
25
20
35

Options:

- (A) 90
- ✅ **(B) 100** *(Correct Answer)*
- (C) 110
- (D) 115

Correct Answer: (B)

Explanation / Solution:
February column: 45 + 35 + 20 = 100.

Question 11

Statements: Some codes are bugs. All bugs are tickets. No ticket is closed. Conclusions: I. Some codes are tickets. II. No bug is closed.

Options:

- (A) Only I follows
- (B) Only II follows
- ✅ **(C) Both I and II follow** *(Correct Answer)*
- (D) Neither I nor II follows

Correct Answer: (C)

Explanation / Solution:
The codes that are bugs are also tickets, so I follows. All bugs are tickets and no ticket is closed, so no bug is closed. II follows.

Question 12

What is A's rank from the top in a class of 40? Statement 1: A is 8 ranks above B, who is 15th from the bottom. Statement 2: C is 10th from the top and A is 5 ranks below C.

Options:

- (A) Statement 1 alone is sufficient, but Statement 2 alone is not
- (B) Statement 2 alone is sufficient, but Statement 1 alone is not
- ✅ **(C) Either statement alone is sufficient** *(Correct Answer)*
- (D) Both statements together are needed

Correct Answer: (C)

Explanation / Solution:
S1: B is 15th from last, so B's rank = 40 − 15 + 1 = 26. A is 8 above B, so A is 18th. S2: C is 10th and A is 5 below C, so A is 15th. Each statement alone gives a rank (the two ranks differ, but each is sufficient by itself).

Question 13

Is the integer n even? Statement 1: n is divisible by 4. Statement 2: n + 1 is odd.

Options:

- (A) Statement 1 alone is sufficient, but Statement 2 alone is not
- (B) Statement 2 alone is sufficient, but Statement 1 alone is not
- ✅ **(C) Either statement alone is sufficient** *(Correct Answer)*
- (D) Both statements together are needed

Correct Answer: (C)

Explanation / Solution:
S1: every multiple of 4 is even. S2: if n + 1 is odd, n itself is even. Either statement answers the question.

Question 14

If REACH is coded as SFBDI, how is LOGIC coded?

Options:

- ✅ **(A) MPHJD** *(Correct Answer)*
- (B) KNFHB
- (C) MPGJD
- (D) NPHJD

Correct Answer: (A)

Explanation / Solution:
Each letter moves one step forward: R→S, E→F, A→B, C→D, H→I. So LOGIC → M P H J D.

Question 15

Statements: All interns are graduates. All graduates are employees. Some employees are managers. Conclusions: I. All interns are employees. II. Some managers are interns.

Options:

- ✅ **(A) Only I follows** *(Correct Answer)*
- (B) Only II follows
- (C) Both I and II follow
- (D) Neither I nor II follows

Correct Answer: (A)

Explanation / Solution:
Interns → graduates → employees,
so every intern is an employee. I follows. Managers overlap
employees, not necessarily interns. II does not follow.

Section: Aptitude (Technical Ability)

Question 16

A can finish a job in 12 days and B can
finish the same job in 18 days. How many days will they take
working together?

Options:

- (A) 6 days
- ✅ **(B) 7.2 days** *(Correct Answer)*
- (C) 8 days
- (D) 9 days

Correct Answer: (B)

Explanation / Solution:
A's 1-day work = 1/12. B's 1-day
work = 1/18. Together = 1/12 + 1/18 = 3/36 + 2/36 = 5/36. Time =
36/5 = 7.2 days.

Question 17

A trader sells an item at 8% loss. If he had
sold it for ₹96 more, he would have gained 4%. What is the
cost price of the item?

Options:

- (A) ₹700
- (B) ₹750
- ✅ **(C) ₹800** *(Correct Answer)*
- (D) ₹850

Correct Answer: (C)

Explanation / Solution:
Let CP = x. First SP = 0.92x. Second SP =
1.04x. Difference = 0.12x = 96, so x = 96 / 0.12 = 800. Cost price
is ₹800.

Question 18

A team of 3 is to be chosen from 5 developers and 4 testers. In how many ways can the team be formed if it must include at least 1 tester?

Options:

- (A) 64
- (B) 70
- ✅ **(C) 74** *(Correct Answer)*
- (D) 84

Correct Answer: (C)

Explanation / Solution:
Total ways to choose 3 from 9 = C(9,3) = 84.
Ways with no tester = C(5,3) = 10. So at least one tester = 84 − 10 = 74.

Question 19

In how many distinct ways can the letters of the word SERVER be arranged?

Options:

- (A) 120
- ✅ **(B) 180** *(Correct Answer)*
- (C) 240
- (D) 720

Correct Answer: (B)

Explanation / Solution:
SERVER has 6 letters with R and E repeating twice each. Number of distinct arrangements = 6! / (2! × 2!) = 720 / 4 = 180.

Question 20

An article is bought for ₹800 and sold for ₹920. What is the profit percentage?

Options:

- (A) 12%
- ✅ **(B) 15%** *(Correct Answer)*
- (C) 18%
- (D) 20%

Correct Answer: (B)

Explanation / Solution:
Profit = 920 − 800 = 120. Profit % =
(120 / 800) × 100 = 15%.

Question 21

A and B together can do a piece of work in
10 days. A alone can do it in 15 days. In how many days can B
alone do the same work?

Options:

- (A) 20 days
- (B) 25 days
- ✅ **(C) 30 days** *(Correct Answer)*
- (D) 45 days

Correct Answer: (C)

Explanation / Solution:
A + B = 1/10 and A = 1/15. B = 1/10 −
1/15 = 3/30 − 2/30 = 1/30. So B alone takes 30 days.

Question 22

The marked price of a laptop is ₹40,000.
After a discount of 10%, it is sold. If the cost price is ₹32,000,
what is the profit percentage?

Options:

- (A) 10%
- ✅ **(B) 12.5%** *(Correct Answer)*
- (C) 15%
- (D) 20%

Correct Answer: (B)

Explanation / Solution:
SP after 10% discount = 90% of 40,000 =
₹36,000. Profit = 36,000 − 32,000 = ₹4,000.
Profit % = (4000 / 32000) × 100 = 12.5%.

Question 23

How many 4-letter codes can be formed from
the letters of the word ORANGE if no letter is repeated?

Options:

- (A) 120
- (B) 240
- ✅ **(C) 360** *(Correct Answer)*
- (D) 720

Correct Answer: (C)

Explanation / Solution:
ORANGE has 6 distinct letters. Number of 4-letter codes with no repetition is P(6,4) = 6×5×4×3 = 360.

Question 24

A bag contains 4 red and 6 blue balls. Two balls are drawn at random without replacement. What is the probability that both are red?

Options:

- ✅ **(A) 2/15** *(Correct Answer)*
- (B) 1/5
- (C) 4/15
- (D) 2/9

Correct Answer: (A)

Explanation / Solution:
P = C(4,2) / C(10,2) = 6 / 45 = 2/15.
Sequentially: (4/10)×(3/9) = 12/90 = 2/15.

Question 25

Two fair dice are thrown. What is the probability that the sum is 9?

Options:

- (A) 1/12
- ✅ **(B) 1/9** *(Correct Answer)*
- (C) 1/8
- (D) 1/6

Correct Answer: (B)

Explanation / Solution:
Favourable pairs: (3,6), (4,5), (5,4), (6,3) — 4 outcomes. Total outcomes = 36. Probability = 4/36 = 1/9.

Section: Verbal Ability

Question 26

Choose the grammatically correct sentence.

Options:

- (A) The news are not good this morning.
- ✅ **(B) The news is not good this morning.** *(Correct Answer)*
- (C) The news have not good this morning.
- (D) The new is not good this morning.

Correct Answer: (B)

Explanation / Solution:
"News" is an uncountable singular noun and takes "is," not "are."

Question 27

Passage
Many software companies now treat code reviews as a daily habit rather than a last-minute check. A second pair of eyes often finds defects that automated tests miss, especially unclear names, missing edge cases and weak error messages. Reviews also spread knowledge: a junior engineer who reads a senior colleague's change learns the team's style faster than by studying a handbook. The practice has a cost. Long review queues delay releases, and harsh comments discourage people from sharing early drafts. Teams that keep reviews short, set a response-time target and discuss design before large patches are written usually keep both quality and speed. Tools help, but they cannot replace an agreed standard of courtesy and focus.
Which of the following is mentioned as a cost of code reviews?

Options:

- (A) They make error messages weaker.
- ✅ **(B) Long queues delay releases and harsh comments discourage early drafts.** *(Correct Answer)*
- (C) They stop teams from using any tools.
- (D) They force every patch to be rewritten twice.

Correct Answer: (B)

Explanation / Solution:
The passage states that long review queues delay releases and harsh comments discourage people from sharing early drafts.

Question 28

Fill in the blank: The contract is _____ until both parties sign it.

Options:

- (A) void
- ✅ **(B) provisional** *(Correct Answer)*
- (C) permanent
- (D) obsolete

Correct Answer: (B)

Explanation / Solution:
Provisional means temporary and subject to later confirmation. Void would mean invalid; permanent and obsolete do not fit a draft waiting for signatures.

Question 29

Choose the grammatically correct sentence.

Options:

- (A) Scarcely she had entered when the fire alarm rang.
- ✅ **(B) Scarcely had she entered when the fire alarm rang.** *(Correct Answer)*
- (C) Scarcely she entered than the fire alarm rang.
- (D) Scarcely had she entered then the fire alarm rang.

Correct Answer: (B)

Explanation / Solution:
"Scarcely" at the start needs inversion ("had she entered") and is paired with "when," not "than" or "then."

Question 30

Choose the grammatically correct sentence.

Options:

- (A) The committee have decided to postpone the launch.
- ✅ **(B) The committee has decided to postpone the launch.** *(Correct Answer)*

- (C) The committee have decide to postpone the launch.
- (D) The committee has decide to postpone the launch.

Correct Answer: (B)

Explanation / Solution:
As a single body, "committee"
takes a singular verb in exam English: "has decided."

Question 31

Arrange the sentences to form a coherent paragraph. P: A weekly demo forces that conversation to happen on a fixed day. Q: Product work stalls when developers and users rarely meet. R: Feedback then arrives early enough to change the next sprint. S: Waiting until the final release is usually too late.

Options:

- ✅ **(A) Q S P R** *(Correct Answer)*
- (B) Q P S R
- (C) P Q R S
- (D) S Q P R

Correct Answer: (A)

Explanation / Solution:
Q is the problem. S warns against delay. P offers the routine. R is the result. Order: Q S P R.

Question 32

Choose the word most similar in meaning to "meticulous."

Options:

- (A) Careless
- ✅ **(B) Thorough** *(Correct Answer)*
- (C) Hasty
- (D) Rough

Correct Answer: (B)

Explanation / Solution:
"Meticulous" means extremely careful and thorough. Careless, hasty and rough are opposites.

Question 33

Choose the word most opposite in meaning to "obsolete."

Options:

- (A) Outdated
- ✅ **(B) Current** *(Correct Answer)*
- (C) Abandoned
- (D) Expired

Correct Answer: (B)

Explanation / Solution:
"Obsolete" means no longer in use.
"Current" is the antonym. The other three sit close to obsolete.

Question 34

Passage
Many software companies now treat code reviews as a daily habit rather than a last-minute check. A second pair of eyes often finds defects that automated tests miss, especially unclear names, missing edge cases and weak error messages. Reviews also spread knowledge: a junior engineer who reads a senior colleague's change learns the team's style faster than by studying a handbook. The practice has a cost. Long review queues delay releases, and harsh comments discourage people from sharing early drafts. Teams that keep reviews short, set a response-time target and discuss design before large patches are written usually keep both quality and speed. Tools help, but they cannot replace an agreed standard of courtesy and focus.
According to the passage, reviews help junior engineers mainly because they

Options:

- (A) replace the need to write any tests
- ✅ **(B) learn the team's style faster by reading real changes** *(Correct Answer)*
- (C) are allowed to skip handbooks forever
- (D) receive only automated comments

Correct Answer: (B)

Explanation / Solution:
The passage says a junior who reads a senior colleague's change learns the team's style faster than by studying a handbook.

Question 35

Choose the grammatically correct sentence.

Options:

- (A) He is one of the engineers who works night shifts.
- ✅ **(B) He is one of the engineers who work night shifts.** *(Correct Answer)*
- (C) He is one of the engineer who work night shifts.
- (D) He is one of the engineers who has work night shifts.

Correct Answer: (B)

Explanation / Solution:
In "one of the + plural noun + who,"
the relative pronoun refers to the plural noun, so the verb is "work," not "works."

Question 36

Arrange the sentences to form a coherent paragraph. P: Small test cases catch those errors before the full run. Q: A single off-by-one mistake can ruin a whole report. R: Careful engineers therefore write checks for empty lists and last rows. S: Spreadsheet formulas look simple until the data set grows.

Options:

- ✅ **(A) S Q P R** *(Correct Answer)*
- (B) Q S R P
- (C) S P Q R
- (D) R S Q P

Correct Answer: (A)

Explanation / Solution:
S sets the scene. Q names a typical fault. P is the immediate safeguard. R generalises the habit. Order: S Q P R.

Question 37

Passage
Many software companies now treat code reviews as a daily habit rather than a last-minute check. A second pair of eyes often finds defects that automated tests miss, especially unclear names, missing edge cases and weak error messages. Reviews also spread knowledge: a junior engineer who reads a senior colleague's change learns the team's style faster than by studying a handbook. The practice has a cost. Long review queues delay releases, and harsh comments discourage people from sharing early drafts. Teams that keep

reviews short, set a response-time target and discuss design before large patches are written usually keep both quality and speed. Tools help, but they cannot replace an agreed standard of courtesy and focus. Reviews often catch defects that tests miss, such as

Options:

- (A) server downtime and network outages
- ✅ **(B) unclear names, missing edge cases and weak error messages** *(Correct Answer)*
- (C) payroll errors and invoice totals
- (D) office-seating plans

Correct Answer: (B)

Explanation / Solution:
Those three examples are listed in the second sentence of the passage.

Question 38

Arrange the sentences to form a coherent paragraph. P: Rainwater then collects and floods the next heavy shower. Q: Plastic bags block roadside drains in many cities. R: Civic teams therefore run clean-up drives before the monsoon. S: The cheaper fix is to stop dumping waste into open gutters.

Options:

- ✅ **(A) Q P R S** *(Correct Answer)*
- (B) P Q S R
- (C) Q R P S
- (D) S Q P R

Correct Answer: (A)

Explanation / Solution:
Q names the cause. P is the effect. R is the official response. S is the longer-term fix. Order: Q P R S.

Question 39

Choose the grammatically correct sentence.

Options:

- (A) I laid down for an hour after the interview.
- ✅ **(B) I lay down for an hour after the interview.** *(Correct Answer)*
- (C) I lied down for an hour after the interview.
- (D) I lain down for an hour after the interview.

Correct Answer: (B)

Explanation / Solution:
The past tense of the intransitive verb lie (recline) is lay. Laid needs an object; lied means told an untruth; lain is the past participle.

Question 40

Choose the correct meaning of the idiom "burn the midnight oil."

Options:

- (A) Waste fuel at night
- ✅ **(B) Work or study late into the night** *(Correct Answer)*
- (C) Start a fire after dark
- (D) Leave the office early

Correct Answer: (B)

Explanation / Solution:
The idiom means to stay up late working or studying.

Question 41

Arrange the sentences to form a coherent paragraph. P: Sleep debt then shows up as slower thinking the next day. Q: Late-night screen use delays the body's sleep signal. R: Many offices now ask staff to mute work chat after a set hour. S: Blue light from phones is one reason that signal slips.

Options:

- ✅ **(A) Q S P R** *(Correct Answer)*
- (B) S Q P R
- (C) Q P S R
- (D) R Q S P

Correct Answer: (A)

Explanation / Solution:
Q states the effect of late screens. S explains the mechanism. P names the next-day cost. R is the workplace response. Order: Q S P R.

Question 42

Arrange the sentences to form a coherent paragraph. P: Those logs later save hours when a defect appears in production. Q: Good engineers write a short note on why a change was made. R: Code alone rarely records the reason behind a decision. S: The habit looks slow on a busy afternoon, but it is cheap insurance.

Options:

- ✅ **(A) R Q P S** *(Correct Answer)*
- (B) Q R S P
- (C) P Q R S
- (D) R P Q S

Correct Answer: (A)

Explanation / Solution:
R states the gap. Q is the practice that fills it. P is the later benefit. S comments on the cost. Order: R Q P S.

Question 43

Choose the one-word substitute: A person who is new to a job or activity.

Options:

- (A) Veteran
- ✅ **(B) Novice** *(Correct Answer)*
- (C) Expert
- (D) Mentor

Correct Answer: (B)

Explanation / Solution:
A novice is a beginner. Veteran and expert are the opposite idea; a mentor guides others.

Question 44

Passage
Many software companies now treat code reviews as a daily habit rather than a last-minute check. A second pair of eyes often finds defects that automated tests miss, especially unclear names, missing edge cases and weak error messages. Reviews also spread knowledge: a junior engineer who reads a senior colleague's change learns the team's style faster than by studying a handbook. The practice has a cost. Long review queues delay releases, and harsh comments discourage people from sharing early drafts. Teams that keep

reviews short, set a response-time target and discuss design before large patches are written usually keep both quality and speed. Tools help, but they cannot replace an agreed standard of courtesy and focus.
The author suggests that tools

Options:

- (A) can replace courtesy and focus
- (B) are useless in code reviews
- ✅ **(C) help but cannot replace agreed standards of courtesy and focus** *(Correct Answer)*
- (D) should be banned from daily reviews

Correct Answer: (C)

Explanation / Solution:
The last sentence says tools help, but they
cannot replace an agreed standard of courtesy and focus.

Question 45

Passage
Many software companies now treat code reviews as a daily habit rather than a last-minute check. A second pair of eyes often finds defects that automated tests miss, especially unclear names, missing edge cases and weak error messages. Reviews also spread knowledge: a junior engineer who reads a senior colleague's change learns the team's style faster than by studying a handbook. The practice has a cost. Long review queues delay releases, and harsh comments discourage people from sharing early drafts. Teams that keep reviews short, set a response-time target and discuss design before large patches are written usually keep both quality and speed. Tools help, but they cannot replace an agreed standard of courtesy and focus.
What is the main idea of the passage?

Options:

- (A) Automated tests have made human code reviews unnecessary.
- ✅ **(B) Code reviews improve quality and learning if teams manage time and tone.** *(Correct Answer)*
- (C) Junior engineers should never review senior engineers' work.
- (D) Review tools can fully replace agreed team standards.

Correct Answer: (B)

Explanation / Solution:
The passage supports reviews for defects and
learning, then names the costs, and ends with how short, timely, courteous reviews keep quality and speed. That balanced claim is the main idea.

Section: Pseudo Code

Question 46

What is printed by the following Pseudo
Code?
Integer
i, j, count
Set
count = 0
for
i = 1 to 4 do
for
j = 1 to i do
count
= count + 1
end
for
end
for
Print
count

Options:

- (A) 4
- (B) 8
- ✅ **(C) 10** *(Correct Answer)*
- (D) 16

Correct Answer: (C)

Explanation / Solution:
The inner loop runs i times for each i from
1 to 4. Total iterations = 1+2+3+4 = 10. So count prints 10.

Question 47

What is the output of the following Pseudo
Code?
Integer
a, b
Set
a = 9, b = 5
Print
a ^ b

Options:

- (A) 4
- ✅ **(B) 12** *(Correct Answer)*
- (C) 13
- (D) 14

Correct Answer: (B)

Explanation / Solution:
9 in binary is 1001 and 5 is 0101. XOR sets
a bit where the bits differ: 1100, which is 12.

Question 48

What value is printed by the following
Pseudo Code?
Function
F(n)
if
n == 0 then return 0
if
n == 1 then return 1
return
F(n - 1) + F(n - 2)
End
Function
Print
F(6)

Options:

- (A) 5
- ✅ **(B) 8** *(Correct Answer)*
- (C) 13
- (D) 21

Correct Answer: (B)

Explanation / Solution:
F is the Fibonacci sequence: F(0)=0, F(1)=1,
F(2)=1, F(3)=2, F(4)=3, F(5)=5, F(6)=8. So the printed value is 8.

Question 49

A queue follows FIFO. What is printed by the
following Pseudo Code?
Queue
Q

enqueue(Q,
2)
enqueue(Q,
4)
enqueue(Q,
6)
dequeue(Q)
enqueue(Q,
8)
Print
front(Q)

Options:

- (A) 2
- ✅ **(B) 4** *(Correct Answer)*
- (C) 6
- (D) 8

Correct Answer: (B)

Explanation / Solution:
After three enqueues the queue is [2, 4, 6]
with 2 at the front. dequeue removes 2. enqueue 8 makes [4, 6, 8].
front returns 4.

Question 50

A stack follows LIFO. What is printed by the
following Pseudo Code?
Stack
S
push(S,
5)
push(S,
8)
push(S,
3)
pop(S)
push(S,
7)
Print
peek(S)

Options:

- (A) 3
- (B) 5

- ✅ **(C) 7** *(Correct Answer)*
- (D) 8

Correct Answer: (C)

Explanation / Solution:
Stack after the three pushes: [5, 8, 3] with
3 on top. pop removes 3. push 7 makes the stack [5, 8, 7]. peek
returns the top element, which is 7.

Question 51

Find the missing number in the 3 × 3 matrix.
16
21
29
25
30
38
36
41
?

Options:

- (A) 47
- ✅ **(B) 49** *(Correct Answer)*
- (C) 51
- (D) 54

Correct Answer: (B)

Explanation / Solution:
Each row adds 5, then 8: 16+5 = 21, 21+8 =
29; 25+5 = 30, 30+8 = 38. So 36+5 = 41 and 41+8 = 49. The first
column is also consecutive squares: 4^2, 5^2, 6^2.

Question 52

Find the next number in the pattern sequence.
3
8
15
24

35
?

Options:

- (A) 46
- ✅ **(B) 48** *(Correct Answer)*
- (C) 49
- (D) 50

Correct Answer: (B)

Explanation / Solution:
The gaps are consecutive odd numbers
starting at 5: 8−3 = 5, 15−8 = 7, 24−15 = 9,
35−24 = 11. The next gap is 13, so 35 + 13 = 48.
Equivalently, the terms are n(n+2) for n = 1, 2, 3, 4, 5, 6:
1×3=3, 2×4=8, 3×5=15, 4×6=24, 5×7=35,
6×8=48.

Question 53

Find the missing number in the 3 × 3 matrix.
2
5
12
3
6
21
4
7
?

Options:

- (A) 28
- (B) 30
- ✅ **(C) 32** *(Correct Answer)*
- (D) 36

Correct Answer: (C)

Explanation / Solution:
In each row, third = first × (second +
1). Row 1: 2 × 6 = 12. Row 2: 3 × 7 = 21. Row 3: 4 ×
8 = 32.

Question 54

Each figure is a circular wheel: four numbers sit on the rim and one sits at the centre. The same rule applies to both wheels. Find the missing centre number.
Wheel A
6
8
18
10
12
Wheel B
5
9
?
11
15

Options:

- (A) 16
- (B) 18
- ✅ **(C) 20** *(Correct Answer)*
- (D) 24

Correct Answer: (C)

Explanation / Solution:
Opposite rim numbers add up to the centre.
Wheel A: 6+12 = 18 and 8+10 = 18. Wheel B: 5+15 = 20 and 9+11 = 20. So the missing centre is 20.

Section: English Grammar

Question 55

I _____ this module since 9 a.m. and I still have two test cases left.

Options:

- (A) worked on
- (B) am working on
- ✅ **(C) have been working on** *(Correct Answer)*
- (D) had worked on

Correct Answer: (C)

Explanation / Solution:
"Since 9 a.m." marks an action

that started in the past and is still in progress. That requires the present perfect continuous: "have been working on."

Question 56

Identify the part that contains an error:
Everybody in the two project teams have submitted the timesheet.

Options:

- (A) Everybody in
- (B) the two project teams
- ✅ **(C) have submitted the timesheet** *(Correct Answer)*
- (D) No error

Correct Answer: (C)

Explanation / Solution:
"Everybody" is singular, even when a plural phrase follows. The verb must be "has submitted," not "have submitted."

Question 57

A bouquet of roses _____ placed on the reception desk every morning.

Options:

- (A) are
- (B) were
- ✅ **(C) is** *(Correct Answer)*
- (D) have been

Correct Answer: (C)

Explanation / Solution:
The true subject is "bouquet" (singular), not "roses." A singular subject takes "is." Phrases beginning with "of" do not change the number of the verb.

Question 58

Identify the part that contains an error:
She did not knew that the meeting had been postponed.

Options:

- ✅ **(A) She did not knew** *(Correct Answer)*

- (B) that the meeting
- (C) had been postponed
- (D) No error

Correct Answer: (A)

Explanation / Solution:
After the auxiliary "did," the main verb stays in the base form: "did not know," not "did not knew." The past participle "had been postponed" is already correct.

Question 59

The offer letter is valid _____ 30 September 2026.

Options:

- ✅ **(A) until** *(Correct Answer)*
- (B) since
- (C) for
- (D) at

Correct Answer: (A)

Explanation / Solution:
"Until" is used for a point in time when something ends. "Since" marks a starting point, "for" marks a duration (for three days), and "at" marks a clock time or point, not a closing date in this structure.

Question 60

Impact of Artificial Intelligence on Students and Education

Options:

- ✅ **(A) ** *(Correct Answer)*

Correct Answer: (A)

Explanation / Solution:
Artificial Intelligence (AI) is becoming an important part of modern education. It has changed the way students learn, prepare for exams, and develop new skills. AI-powered tools help students understand difficult topics, solve problems, and access learning resources quickly.
One of the major benefits of AI in education is personalized learning. Students can learn at their own pace and receive explanations based on their needs. AI can also help students improve their grammar, writing, and

programming skills. It saves time and makes education more accessible.
However, excessive dependence on AI can create challenges. Some students may stop thinking independently or rely on AI to complete their assignments. Privacy concerns and inaccurate information are also important issues.
In conclusion, Artificial Intelligence can improve the quality of education when used responsibly. Students should use AI as a learning assistant rather than a replacement for their own thinking and creativity. A balanced approach to technology and traditional learning can help students achieve better academic and professional growth.
